AUTOMOBILE COLLISION: 8 PERSONS HURT

JEFFRIES AND JOHNSON TO FIGHT FOR TITLE

Sign Articles for Battle to Take Place Before July 5, 1910

CONTEST LIKELY TO BE HELD IN CALIFORNIA

John L. Sullivan Offers to Referee and Negro is Willing

NEW YORK, Oct. 29. — Jim Jeffries and Jack Johnson met and agreed to box for the heavyweight championship before the club offering the largest inducements, bids for the fight to be submitted before December 1st to Robert S. Murphy of New York.

The fighters agreed that each bid must be accompanied by a certified check for $5000.

The pugilists are now arguing on other fight provisions.

Jeffries and Johnson agreed to fight "forty-five rounds or more."

It was agreed that the purse should be divided 75 per cent to the winner and 25 per cent to the loser, each fighter to deposit now $5000 as a forfeit and an additional $5000 to go as a side bet.

The men agreed to fight not later than July 5, 1910, and it was decided that the contest should be governed by straight Marquis of Queensberry rules.

The fighters will use five-ounce gloves.

The selection of a referee and stakeholder will be made when the place of battle is determined

JEFF FAVORS APRIL.

"I'm ready to fight and Johnson says he is," said the big boilermaker, "and that's more than half the match making. I think we should arrange to meet in April. That would give me three months to do a little stage work and let the public see my condition and then I can have three months to train for the bout.

CALIFORNIA, LIKELY PLACE.

"I suppose the fight will be held in California. That at present seems the most likely place."

Jack Johnson was out fairly early today flying around the city in a big touring car.

"So Mr. Jeffries wants to wait until April?" said Johnson, smiling. "Well, that's a long way off, but I'm willing if he waits to take that long, only I want a big forfeit put up. I should think about $5000 would be right.

JOHNSON IS AGREEABLE.

"I'll keep in trim throughout the winter by doing a little light training. Yes, California would suit me as well as any place to fight Jeffries."

John L. Sullivan has telegraphed from Chicago saying that he would offer to referee the Jeffries-Johnson fight without charging a cent and would guarantee an honest and fearless decision.

"John L. Sullivan always refused to meet a colored man," said Johnson, "but he was always on the level. I'm ready to accept him as a referee if Jeffries is willing."

All New Orleans Sipping the New Taft Cocktails

NEW ORLEANS, Oct. 29.—Half of New Orleans is drinking the Taft cocktail and the other half is waiting for the white-aproned parties to mix them.

In New Orleans it has been the custom for ages to improvise a new drink and name it after distinguished citizens or visitors. Thus in New Orleans was born the Zachary, the Roofinac, the Sarah Bernhardt and the Ramos fizz. But the Taft cocktail, its proud inventor claims, is superior to them all, in flavor boquet and soothing effects. And he ought to know, for he is the originator of the fizz.

The Taft cocktail is built after the manner of the Creole cocktail, but it has some trimmings.

A mixture of lime and lemon juice is prepared; the rim of the glass, after being iced, is dipped in this mixture and frosted in confectioners' sugar.

FICKERT NOW LEADS HENEY IN BETTING

SAN FRANCISCO, October 29.—Today the betting odds jumped from 10 to 9 on Fickert to 10 to 8, with plenty of Fickert money in sight and few takers on the Heney short end. Among the betting fraternity at least the belief is gaining ground that Fickert is a sure winner. His friends are more sanguine than ever, and the desperation of the Heney managers is shown by the increased violence of Heney and the other Spreckels spokesmen.

In the Mayoralty fight McCarthy still has the call in the betting. There is an abundance of money to bet even that he will win. Slight odds are sometimes given on him against the field. Nevertheless the managers of Crocker are confident and aggressive. Since the Leland hot air ship has blown their hopes have risen and their estimate of Crocker's vote has been raised.

Leland on the Short End

There is no betting that Leland will win. The nominal odds are 5 to 1 against him, but no one cares to take the short end at that figure. There is some betting at 8 to 10 that he will get more votes than Crocker, the long odds being on the Republican candidate. However, the conviction is so general that Leland will be the tail-ender in the race that very few are willing to risk a dollar on his getting second place The speeches of Bell have driven a lot of Democratic workingmen over to McCarthy and given offense to other Democrats who have no use for Heney. His efforts to catch the Heney Republican vote have reduced the regular Democratic vote to skeleton proportions.

Heney's Wholesale Denunciation

Heney's wholesale denunciation of leading citizens is not improving his chances nor allaying the bitter antagonisms he has provoked. His favorite method of reviling men of prominence who have incurred his displeasure or the enmity of Rudolph Spreckels is to call off a list of such men as Frank Anderson, manager of the Bank of California; William H. Crocker, president of the Crocker National Bank; I. W. Hellman, of the Wells-Fargo Nevada National Bank; W. F. Herrin, Patrick Calhoun, and others equally prominent in business and financial circles and then say that Big Jim Gallagher has more honor and decency in his little finger than any one of the men named has in his whole body. Such extravagant defamation of business men of high standing coupled with laudation of so detestable a character as Gallagher is reacting in favor of Fickert.

Walk Out of Heney Meeting

Men walk out of every Heney meeting thoroughly disgusted with this sort of gutter campaigning.

Burns confines his talk to glorifying his exploits as a detective and recounting the myriad crimes he charges Calhoun with committing. His conceit is as large as Heney's, and his imagination as noisome, but his vocabulary reeks of the stews and the bum bailiff's calling. People go to hear him out of curiosity, but he makes more votes for Fickert than he does for Heney. But Burns is not ashamed of his trade nor at all modest in relating performances that turn an ordinary man's stomach.

Fuzzy Wuzzy Taylor is disowned by everybody in the campaign. Even McNab charges him up to Phelan and Spreckels, while Phelan and Spreckels say he was a gold brick from McNab. Nobody has a good word for him, and everybody expresses gratification that he is so soon to disappear from public view. He is a universally acknowledged failure Dick Hotaling's description of him is a perfect fit and the neatest characterization made by anybody: "Taylor is not a man; he's a make-up."

Leland Is a Dummy

The weakness of Leland is that he is a dummy—an amiable, pleasant man with no bad traits, but of only negative virtues and no mind of his own. If he should only chance to be elected, he would be merely an office boy for McNab. On the other hand, Crocker is a shrewd, successful business man independent of political dictation and free from boss control. It is conceded that McNab is an exceptionally high type of a political boss, but it is notorious that Leland is absolutely under his control. Even McCarthy's worst enemies admit that he is his own man; indeed, one of the chief objections to him is that he is an unruly, head-strong man who will listen to few and be guided by none.

The strength of Crocker lies in the confidence in his sound judgment and conservative temperament.

ASTOR DIVORCE SUIT COMPLETED

Referee Finishes Hearing of Case--Will File Papers in Supreme Court

NEW YORK, Oct. 29.—Testimony in the reported suit which Mrs. John Jacob Astor has brought against her husband Col Astor is virtually concluded, and it was stated today that the papers in the case would be submitted by Referee Chas. H. Young to Justice Mills of the Supreme Court in Duchess county, and filed with the clerk of the court of Poughkeepsie

It is said that after Justice Mills has approved the papers they will be sealed and their contents kept from the public.

Counsel in the case will neither deny nor affirm the report that the suit is not one of separation, but of absolute divorce.

HARMON MAY LEAD DEMOCRATS NEXT

Mack Says Bryan Is Out; Ohio Governor Strong in Ranks of Losing Party

WASHINGTON, D C, Oct. 29. — "I do not believe Bryan will be the next Democratic candidate for the presidency," said Norman E Mack, chairman of the Democratic national committee today Asked who he thought the next Democratic candidate would be, Mack declared that, because of his position, he could not play favorites

"Have not you published the fact that Judson Harmon, Governor of Ohio, would be your choice for the next President?"

"No His speech, made in Dallas and his picture were published just as have been those of other prominent Democrats. There is no doubt, however, that Governor Harmon is growing in strength throughout the country He is an able man and, as a Democratic leader who won in a Republican State, he is gaining more and more popularity.

"But there is Marshall, Governor of Indiana, who turned the same trick on the Republicans in his State that Harmon did in Ohio. He, too, is coming ahead fast as a national figure."

GEORGE GRAY MAY FACE CHARGE OF PERJURY

Action May Be Taken as Is Indicated by the Defense

CHAPMAN SCORES ON CASE OF PROSECUTION

Shows That Accused Lawyer Asked Gray to Go Over Books With Him

While in the midst of the cross-examination of former Public Administrator George Gray this afternoon, Attorney Chapman of counsel for John S. De Lancey, sprang a sensation about 3 o'clock when he indicated in a line of questions, that it is the intention of the defense to show Gray to be a perjurer.

In a brilliant and rigid cross-examination of George Gray, conducted by Attorney Chapman today at the trial of Attorney John S. De Lancey, the defense tried to establish the fact that shortly after the grand jury investigation into the affairs of the public administrator's office began the accused lawyer tried to force Gray into a financial settlement.

Gray admitted that on the afternoon of August 30, and the day before he made his first written demand upon De Lancey for all the money belonging to the estates that was in his possession, the attorney had a conversation with Gray about a settlement, but as to the details of the conference as presented to him by Attorney Chapman he had no recollection

WAS NOT DISCHARGED.

Chapman asked Gray if he discharged De Lancey and witness said:

"I did not discharge De Lancey, he resigned."

Witness testified that the accused lawyer said something about a settlement but that he (Gray) had told him he could not make a settlement because an attachment had been taken out against him

"Did not De Lancey say to you in my presence, on the afternoon in question, 'Now that I am no longer your attorney we had better get together and go over the accounts for a settlement,' or words to that effect?" asked Chapman.

"I don't remember his having said that," replied the former public administrator

REFUSED SETTLEMENT.

Gray admitted that De Lancey had talked to him about the attorney fees due to him from certain estates and had said something about turning them over to him, together with certain property, if it were found that he was short in his accounts, but at the time Gray said he was not in a position to consider the matter for the reason that the Grand Jury was investigating the office and De Lancey's property was covered by an attachment

The witness was unable to remember the details of the conversation. In fact, he said he could not state positively that the conversation as quoted to him verbatim by Attorney Chapman, ever took place. He had no recollection of it, but said he would not swear that it did not take place as Chapman indicated.

DEFENSE SCORES POINT.

Having obtained at least an admission from Gray that De Lancey did talk settlement with him on the afternoon of August 30 and before the former public administrator ever made a demand upon him for money of the office—oral or written—the defense figures that it has scored an important point in favor of the accused lawyer and in support of De Lancey's contention that there was no intent to embezzle.

Later on the defense will seek to establish the fact that an attachment upon De Lancey's fees prompted the lawyer to transfer official funds that he had on deposit in his private bank account for business convenience to his wife's account to protect it from legal entanglements of a personal and private nature. To what length this phase of the defense is to be carried has not yet been indicated, nor had the examination of Gray indicated at this time the full weight that De Lancey's talk with him about a settlement will finally carry in the case after the prosecution is finished with the point.

The cross-examination brought out the fact that so far as the conduct of his office was concerned the former Public Administrator knew absolutely nothing about it further than what De Lancey told him from time to time.

RELIED ON OTHERS.

De Lancey had transacted all of the business with a free hand and all Gray knew about what was going on was gleaned by him from De Lancey when he occasionally visited the office to sign papers and do such other things as De Lancey proposed to him as proper and correct Having had implicit confidence in the honor and integrity of De Lancey, the former public administrator believed

Engagement of Late Chocolate King's Son to Pretty Actress Is Broken; Why? Mystery!

Miss Marion Wilcox, who, with her sister, are known on the vaudeville stage as the Murray Sisters, and whose engagement to Joe Ghirardelli, son of the late millionaire chocolate king is reported to have been broken. The engagement was announced several months ago when the Murray Sisters appeared at the Orpheum.

Whether he has been thrown over by the attractive actress whom he won a few months ago, or whether absence has dulled the charm for one or both of them, young Joseph N. Ghirardelli—clubman and society favorite and son of the late chocolate manufacturer of the same name, the termination of whose engagement to Marion Wilcox, the Gibson girl of vaudeville, is just now the one delectable bit of gossip—refuses to say.

That the spot-light romance which had its inception in this city eight months ago when Miss Wilcox, who first achieved histrionic fame as a member of Fritzi Scheff's "Mademoiselle Modist" company, and who appeared here as a member of the team of "Murray Sisters" on a tour of the Orpheum circuit, is at an end he admits, however unwillingly, but as to the wherefores and whyfores of the engagement young Ghirardelli, who is connected with a local insurance firm, is utterly non-committal.

Miss Wilcox is in the East, but just where the young clubman confessed this morning he does not know. And whether she still wears the handsome diamond ring which marked the engagement, and which has since been a conscious item in the collection of jewels in which she appears nightly, is not known. His mother, Mrs. Thomas Watson Cushing, who was the last to admit the truth of the engagement, which was first announced through the columns of THE TRIBUNE, and who has been one of the first to herald its termination, is, according to her son, his counselor in the campaign of absolute silence which is being observed.

It was during the first part of last February that the chocolate manufacturer's son first beheld Miss Wilcox. She and her sister Victoria were singing, among other hits, "I'm Tired of Being a Gibson Girl," at the Oakland Orpheum, and were attended in their travels by their mother. He saw her in the evening and the next day they were formally introduced.

Ghirardelli was an ardent lover, who believed in taking a lady's heart by storm, according to the friends who viewed this incident in his life. Miss Wilcox was invited to the home of his mother, who gave a house party in her honor and dinners. Young Joseph was constantly at her side.

Miss Wilcox had to go to Los Angeles at the end of her engagement at the Oakland Orpheum. But when she left for the south she wore on the third finger of her left hand a beautiful diamond ring, and Ghirardelli did not deny that he had given it to her. Miss Wilcox had been gone only a few days when he found that a business call forced him to go to Los Angeles. He came back in smiles.

Mrs. Cushing was not quite as enthusiastic as her son over his romance, though she was an attentive hostess to Miss Wilcox during her stay in Oakland. For one thing Joseph Ghirardelli has not been old enough to vote very long. But there was no opposition of a violent nature to the engagement. Rather the plan, if there was a plan was to let absence do its work and youthful ardor burn itself out.

Miss Wilcox has been gone eight months. Did she forget Ghirardelli, or did Ghirardelli cease to love her, or both? The young man in the case won't say either, neither will his family But the engagement is broken and Miss Marion Wilcox is not to be Mrs. Joseph N. Ghirardelli.

Car Runs Away; 2 Killed, 20 Hurt

DENVER, Oct. 29—Two persons are dead and at lest twenty injured several of them seriously, as the result of a Park Hill car, on the Sevententh street line, jumping the track at the bottom of the steep incline on Sevententh street near Broadway today and turning completely over, after demolishing a taxicab and a telegraph pole. The dead are:

MRS. MINNIE MELVILLE, crushed under car.

WILLIAM H. SCHRADER, western manager St. Louis Enameling Co., caught under car, died at hospital.

Seriously injured:
Miss Ethel Vine Hayes.
Mrs. Burt Guire
Mrs Florence Broderick.
Martha Packer.
R. H. Jameson
Raymond Whitaker, St. Joseph, Mo.

Miss Mildred Bailey, daughter of Justice Bailey of the Colorado Supreme Court, was among the slightly injured. Nearly every occupant of the car received more or less severe bruises.

BRAKES WON'T WORK.

When the motorman attempted to put on his air brakes as the car turned down the steep hill at Logan avenue, he found that they would not work He shouted a warning to the passengers to jump and a mad rush was made for the side entrance.

Schrader lost his life in saving others. He and Policeman S. M McIntyre, who was on the car, stood on the steps and as quickly as possible swung women passengers into the street, saving a score or more in this way. McIntyre jumped as the car tore across Broadway, but Schrader stayed with the car and was caught underneath when it overturned.

JUMPS OFF TRACKS.

The car left the tracks a tthe turn into Courtplace, crashed into a telegraph pole and then into a taxicab standing by the curb. This was demolished and Chauffeur Packer was thrown twenty feet

Mrs. Melville and Miss Hayes were walking on the sidewalk and were caught underneath the car.

2 MACHINES COLLIDE ON MIDNIGHT JOY RIDE

Eyes of Both Drivers Are Blinded by Lights and Crash Follows

THREE WOMEN AND FIVE MEN INJURED

Cars Come Together at Great Speed and Both Are Badly Wrecked

SAN FRANCISCO, Oct. 29.—Their eyes blinded by the dazzling flare of the headlights of two powerful automobiles, the chauffeurs, in an effort to dodge each other, dashed their machines together in a head-on collision on the Ocean Boulevard at 1:30 this morning, causing the injury of three women and five men.

The passengers and drivers of the cars were hurled in every direction by the tremendous impact as the autos came together with a crash that could be heard at nearby road houses, completely drowning the yells and shrieks of despair which came from the women occupants.

When numbers of willing persons rushed to the scene, ready to proffer their aid, and other machines sped from all directions along the highway, they found a twisted mass of wreckage lying to one side and nearby the groaning forms of the injured.

The seriously hurt are: Mrs. M. R. Seeley of 977 Pine street; Mrs. John Kennedy of 920 Montgomery street, and John Schovlin, Marcuse Hotel.

The slightly injured are: John Gottenberg, 1550 Polk street; John Murray, 977 Pine street; Mrs. E. Schovlin, John Kennedy and a man whose name is not yet known.

A car driven by John Gottenberg, chauffeur, and containing Mr. and Mrs. John Schovlin and Mr. and Mrs. Kennedy left The Lodge on the boulevard precisely at 1.30 and as they turned into the roadway a big Pope-Hartford machine, with John Murray at the wheel, Mrs. Seeley beside him, and two other persons in the rear seat, came rapidly toward them. The glare of the powerful light shone full in the faces of both of those in charge of the machines, and as each turned to avoid the other it chanced that they went in the same direction.

TWO CARS COLLIDE.

Without realizing that they were so close to one another, and while endeavoring to get out of the way, with a tremendous impact, the cars collided.

Police Officer Pidgeon, who was nearly a mile down the boulevard, plainly heard the noise, and spurred his horse to the scene. A passing automobile was quickly pressed into service by Murray, who had received only several cuts and bruises of the head, and Mrs Seeley was placed in it and taken to St. Francis hospital, where she was treated for numerous bruises and abrasions and possible internal injuries.

Officer Pidgeon, in another car, conveyed Mrs. Kennedy and Schovlin to the Park Emergency hospital. The woman was treated by Steward Malone for contusions and abrasions of the body, and cuts of the face and head, caused by being hurled through the glass front of one of the autos. Schovlin received possible internal injuries, contused wounds of the back, abrasions and lacerations.

NAMES KEPT SECRET.

Still another car sped into the Central Emergency hospital with John Gottenberg, who was treated for an incised wound of the forehead, caused by flying glass. All parties to the affair are extremely reticent about discussing it, and the blame for the accident has not yet been placed. It is understood that the other persons injured, whose names could not be learned, are being tended at a private hospital.

A sad feature in connection with the injury of Mrs. Seeley, is the fact that she was taking her first spin after a serious illness. She has been a patient at the St. Francis hospital up to three weeks ago and had been recuperating since at her home

Mrs. Schovlin and Kennedy, occupants of the machine driven by Gottenberg, were but slightly injured by being cut on the hands by glass. They also had their clothes torn from being pitched to the pavement. They were taken directly to their homes after the accident.

AUTOS AND STAGE COACHES IN LINE

Stockton's Big Parade Shows Modern Progress Since the Days of '49

STOCKTON, Oct. 29.—The automobile in contrast with the stage coach was the motto of today's parade in the celebration of the 60th anniversary of the "rush of '49." Marshaled by Coroner B. C. Wallace, and headed by a brass band in four large automobiles, over one hundred motor vehicles of various patterns paraded through the principal streets of the city.

An old stage coach and a high bicycle were in the parade to emphasize the development of modern methods of progress and a horseback rider in continental costume added to the picturesqueness of the scene.

IMPERSONATES TAFT

In one auto rode John H. Smith, a local merchant of ample girth, made up to impersonate Pres. Taft on his trip to Yosemite Valley.

In another machine rode some pioneer woman with a banner announcing that they crossed the plains in a prarie schooner. About a dozen motorcycles and a number of bicycles were in line.

An auto milk wagon showed the increasing use that is being made of the motor vehicle.

BRONCHO RIDING

The parade was followed by broncho riding in the business part of the city, the principal streets being roped off to prevent injury to the crowds, during that feature of the parade.

An up-to-date fire drill by the Stockton fire department under the direction of Chief M. McCann and an exhibit of wireless telegraphy completed the forenoon's entertainment.

MOTOR BOAT RACE

In the afternoon there was a wild west show, and immense crowds also gathered at the head of Stockton Channel to witness the finish of the motor boat race from Sacramento to this city.

The celebration will close tomorrow. The weather has cleared and the stampede to the Roaring Camp in growing.

LOS ANGELES FIGHTING FOR DECREASED TARIFFS

LOS ANGELES, Oct. 29.—Los Angeles yesterday began, before F. Lyon, special examiner of Interstate Commerce Commission, the effort to compel the Southern Pacific and Salt Lake railroads to grant terminal rates to San Pedro, the port of this city. Since the annexation of San Pedro to Los Angeles several weeks ago, the fight has been begun to compel the railroads to grant the same rates to that port that are given to this city.

At present the rates for the short haul between Los Angeles and the port are considered so heavy by the Los Angeles Jobber's Association as to amount to discrimination against Los Angeles and in favor of San Francisco and other Pacific Coast ports on all water shipments in and out of San Pedro.

The fight is one of theh most important that has been waged here in accordance with the adjustment of railroad freight rates.

EARLY MORNING FIRE BURNS DOWN HOUSE

Fire this morning did $2000 worth of damage in a house located at 889 Forty-sixth street. The origin of the blaze is unknown. When the fire department arrived the building was in flames and but little could be saved.

A tinner's lamp placed in the basement of Steinbeck's meat market, corner of Fifteenth and Broadway, last night caused a small fire, which was extinguished without loss.

Thinks Devils Are In Him; Casts Self Into Big Bonfire

NEW YORK, Oct. 29.—Believing that he was possessed by a devil, and in an effort to drive the demon out, Daniel Edwin Hurley, who said he was an actor from Providence, R. I., built a roaring bonfire in the middle of Fiftieth street before daylight today and hurled himself into the flames.

He fought several persons who tried to rescue him and while one man fired several shots from a revolver to attract the police, someone else turned in a fire alarm.

The shots attracted six officers, and by the time the fire fighting apparatus arrived, and while the policemen were fighting the crazed man, a crowd gathered which completely blocked the street.

When Hurley was dragged from the fire, nearly all of his clothing had been consumed and he had sustained burns from which it was said at the hospital that he probably would die. The crowd became so great that the police reserves were called out to make way for the ambulance.

TURKS CANNOT BECOME CITIZENS

They Are Classed as Asiatics Under Ruling of Federal Bureau

SANTA ROSA, Oct. 29.—A Turk cannot become a citizen of the United States according to the rulings of the federal authorities. This decision has been made in the case of J. Firfires, whose application to be admitted to citizenship of the United States, has been forwarded from Santa Rosa, could not be made a citizen of this country. The question is one that has evolved considerable discussion in different parts of the country of late. This is the first time it has been called up here. Firfires was born in Dardennelles, Turkey. The letter from the department is as follows:

Department of Commerce and Labor, Bureau of Immigration and Naturalization, Washington, October 20, 1909.—The Clerk of the Superior Court, Santa Rosa, California. Dear Sir:

With respect to declaration of intention No. 161, filed on March 24, 1909, attention is invited to the fact that the declarent is a Turk. In the opinion of the government, the laws of the United States do not extend to Asiatics the privilege of becoming naturalized citizens of this country. This fact should be brought to the attention of said declarent, in order that he may surrender his triplicate declaration of intention for cancellation. Very truly yours,

RAYMOND F. CRIST,
Acting Chief Division of Naturalization.

ANCIENT CHAUFFEURS KNOWN AS 'BURNERS'

Instead of Being Space Annihilators, They Were a Gentry With Methods That Hastened Their Victims to Disclose Hidden Treasure

By C. E. MOYES.

C. P. Berry, of St. Louis, has in his "Automobile Law" given the definition and origin of the word "chauffeur." He says: "The term 'chauffeur' has been defined to be 'one who drives or operates an automobile.' More properly, a chauffeur is one whose business it is to drive or operate an automobile. The business or calling of the chauffeur has become an important one, and the definition should distinguish a professional chauffeur from the owner of an automobile, who sometimes drives his own machine, and to whom the term, strictly speaking, is inapplicable. A chauffeur is defined in many statutes to mean a person operating a motor vehicle as mechanic, paid employe, or for hire.

"The word chauffeur comes to us from the French 'burner.' While not synonymous with garroutteur, the words seemed to have been used interchangeably to some extent. The term was used to signify a member of the bands of outlaws during the 'Reign of Terror' in France, who roamed over the northeast part of the country under the lead of Jonn the Skinner, or Schinderhannes. They were called chauffeurs because they roasted the feet of men and women to compel them to disclose hidden treasure. When the automobile came into common use as a means of recreation and transportation, the operator of the machine and the mechanic who was in attendance to look after the machinery and fuel, were called 'chauffeurs.' The origin of this use of the term is found in France, where automobiling first won favor as a pastime, the word being there employed to designate a fireman or stoker."

FORMER RACER CHALMERS, OWNER.

Joe Tracey, famous as one of the greatest of automobile racing drivers when that most hazardous of all sports first came into existence and for some years thereafter, and known in the automobile industry as one of the best of automobile engineers, has just purchased a Chalmers-Detroit "30" for his own use.

In view of Tracey's long experience in the automobile business and his expert knowledge of cars, Chalmers-Detroit officials felt highly pleased over this sale.

"There is a story back of Tracey's ownership of a Chalmers-Detroit '30,' writes E. P. Brinegar president of the Pioneer Automobile Company in San Francisco to A. R. Dawson, manager of the Oakland branch of the firm.

"At the time Carl H. Page Company of New York was considering taking the exclusive agency for Chalmers-Detroit cars for the Metropolitan district, he retained Joe Tracey to go to Detroit and make such tests of a Chalmers-Detroit '30'—then a new model—as would enable him to advise as to whether Carl H. Page & Company would be justified in putting nearly a million dollars into the agency and handling these cars exclusively.

"Tracey went to Detroit, took one of the new '30's' and for several hours subjected it to the most trying test which perhaps any automobile ever had under similar circumstances. He says himself that he did everything he could to break the car down except running it into a ditch at high speed. He ran it at low speed for miles trying to overheat the motor. He made it climb hills and go through heavy sand on high. He put on the emergency brakes and drove for a long ways with the wheels nearly locked, trying to burn up the brakes or the motor. On the strength of his report Carl H. Page & Company took the agency, and, as everyone in the trade knows, has had a tremendous success in New York.

"Tracey has always claimed that he was the first real discoverer of the Chalmers-Detroit '30' and always displayed a marked fancy for the car. This year, when he was wanting a new car, he stopped off in Detroit one day, went to the factory, and left his order.

"He has written a letter since receiving his car, telling of his great pleasure with it. He says that its power and speed tempt him to get back into the racing game again. He expresses particular pleasure over the ability of his small low-powered car to pass cars of much greater rating and higher price, under all kinds of conditions. He says that he never before realized the unusual satisfaction felt by owners of small cars of unusual efficiency through their ability to do with those cars things which some of the big cars are not able to do."

OVER 8000 MILES ON ORIGINAL AIR.

That Diamond tires may be found in service in any place in the world where automobiles are used, is shown by the Diamond Rubber Company receiving a letter from E. H. Todd in which he writes that upon his car which he has used in the stage service around Dawson City, Yukon territory, he has received some 8235 miles service from the Diamond tires which equipped his machine. He further writes that the mileage was made between April 4th and October 3rd of this year and three of the tires are still holding the original air while all four tires are capable of several thousand miles more service.

Louis Oldeese, Studebaker automobile agent in and around Bakersfield, has written to the main office in San Francisco that the main road from Bakersfield to Maricopa is in exceedingly poor shape at the present time. He writes: "After leaving Conner's lane the big stretch of alkali is encountered. This, while passable, is soft and full of treacherous ruts. Beyond this point the automobiles have smooth sailing until the west road along the San Emidjo fence is reached. This is terribly cut up, being full of dangerous chuck holes and ruts for miles and an automobile can make but little time over it. This portion will be improved after a good rain, but on the other hand, the alkali will be well nigh impassable after a thorough soaking. In and around Maricopa and between Moron and Maricopa the roads have been placed in good shape.

Don McKay, manager of the Seattle branch, and F. O. Nelson, manager of the Los Angeles branch of the Diamond Rubber Company, arrived in this city the first of the week, leaving with C. E. It is to be regretted that the Chalmers-Detroit "Forty," entered in the Portola road race, met with a most unfortunate accident while running in the third lap of the race between the grand-stand and Melrose, which forced it to withdraw.

The Chalmers-Detroit started in seventh place but on the first lap gained fourth position, on the next lap the car jumped into second place, and it was while attempting to pass another car on a bad turn that it was forced off the course, smashing a wheel, which prevented the car continuing the race.

Demands Women as Police Court Jurors; Police Are Opposed

LOS ANGELES, Oct. 29.—Since the decision of Superior Judge Hauzer qualifying women to serve on juries, a difference of opinion has arisen between Guy W. Eddie, city prosecuting attorney who wants women as jurors, and Chief of Police Edward Dishman, who has ordered that no women be summoned.

Dishman rests on the ground that the police courts are not proper places for women. Eddie gives his side of the argument as follows:

"If the police department is allowed to interfere in the procuring of juries, the most vital protective principle of the whole jury system is killed because a defendant would have no chance if the police wanted to see him convicted and it was in their power to determine what kind of a jury should be obtained.

"It is this intervention by the police department in the procurement of juries which has so notoriously subverted justice in most of our larger cities."

TOWNS THREATENED BY PRAIRIE FIRE

Conflagration is Raging in South Dakota--Burns Farm Buildings

DALLAS, South Dakota, Oct. 29.—A prairie fire extending a distance of three miles from east to west, is raging in Tripp county in the southwestern part of the state. Much loss to farm buildings and crops is reported and hundreds of men and women are out fighting the flames.

The towns of Lamroy and McNelley, threatened for a time, were saved after strenuous efforts.

At one time Lamroy was completely surrounded by flames, but at last reports the place was believed to have been saved. The town of McNelley was also threatened, and the flames were diverted only after heroic efforts.

Out on the open prairie, away from all help, the homes of many claim holders were destroyed. No deaths have been reported.

OROVILLE ORANGES ARE IN GREAT ABUNDANCE

OROVILLE, Oct. 29.—This season's crop of oranges in the Oroville early citrus belt is estimated at 400 carloads by D. O. Hill, manager of the Butte County Citrus Association. The fruit this year is large and of splendid quality, and growers believe it will be one of the most successful they have ever experienced. Shipping will begin early next week. It is claimed here that Southern California shippers have held over in cold stroage large quantities of late Valencias of last season's crop and will market them for the Thanksgiving trade.

"DOWN WITH THE GERMS."

If you could observe the extreme care with which the modern surgeon cleanses hands and instruments before an operation, you would be impressed with the danger of germs and the importance of absolute cleanliness in its relation to health.

The slogan of modern medical science is "Away with the germs" Germs thrive and multiply wherever they can find a lodging place in grease or dirt, but where things are scrupulously clean germs find it hard to live The easiest and surest way to keep things clean lies in the use of Gold Dust washing powder. Gold Dust goes deep after dirt and routs out every germ and hidden impurity. It is the sanitary cleanser.

Synod Refuses to Vote for a State 'Dry' Amendment

COLUMBIA, Mo, Oct 29—After a long discussion the Missouri Synod of the Presbyterian Church in session here yesterday refused to indorse the movement of the State constitutional amendment organization which is seeking to make the entire State "dry" It was finally agreed that the question was purely a political one.

Resolutions were adopted asking the State Legislature to pass laws requiring marriage banns to be published two weeks in advance before a ceremony could be performed in the State and to disqualify justices of the peace from officiating at marriages.

ELKS INCINERATE HEAVY MORTGAGE

Burning of Document of Debt For $65,000 Attended by Joyous Ceremony

In solemn yet joyous conclave the members of the Oakland Lodge of Elks gathered around a big grate fire at the local clubrooms last night, and amid much felicitous speechmaking and showers of congratulations formally incinerated a mortgage of $65 000 on their handsome new building at the corner of Fourteenth and Franklin streets

The celebration marked the freeing from the debt which was incurred when the lodge through the association purchased the property including its fine hall and lodgeroom several years ago Through excellent management on the part of the members and the various executive committees, the incubus has been raised

I Harrison Clay presided as master of ceremonies last night and George W Reed Ed H Benjamin Clarence M Reed and other prominent members took part in the festivities

With the paying off of the mortgage Oakland lodge is in full possession of one of the finest pieces of property in the city and one which has materially increased in value since it was purchased

Former Administrator Is Cross-Questioned at the Trial of John S. De Lancey

(Continued From Page 1.)

that everything the accused lawyer told him was right and that the business of his office was moving along in first-class shape

WIFE IS IN COURT.

There was a large attendance at the trial today De Lancey's wife and father, John De Lancey were in court for the greater part of the day, and following the proceedings with keen interest Aside from the sharp cross-examination of Gray, however which was sufficient in itself to keep the spectators and interested attorneys on the qui vive, there were no other incidents to enliven the proceedings

Reverting to De Lancey's accusation that Gray had been drawing interest on deposits in saving banks, witness explained that when he said that he was not drawing interest he meant that he personally did not draw the interest but that it accrued to the various estates

And that interest is in the estates funds now,' emphasized Gray

GRAY HAD CONFIDENCE.

Chapman — Did you look over documents prepared by this defendant to see if they were correct, or did you go into the details as to the financial condition of your office at any time?

Gray — No sir I had implicit confidence in De Lancey and relied solely upon his books and accounts

Chapman — Did you keep any memorandum of moneys you collected in connection with estates?

Gray — I used to make them in my memorandum book and sometimes on sheets of paper

Chapman — Will you produce such of this memoranda as you now have in your possession?

Gray — I will

TRIES TO BORROW $10,000

Going further into the time Gray testified that De Lancey tried to borrow $10 000 from him and threatened to have him indicted if he did not make the loan witness said the conversation occurred in De Lancey's office on the afternoon of August 31 1909

Chapman — That was the time you made a written demand upon De Lancey for a settlement in the presence of the District Attorney?

Gray — Yes sir

Chapman — Did this defendant pay you any money then?

Gray — Yes sir $10 352 40

Chapman — Did you receive any other money or checks on that day?

Gray — No, sir

Chapman — What was done with that check for $10 352 40?

Gray — I gave it to Attorney Bingaman

Chapman — Did Mr Bingaman take part in that transaction?

Gray — No sir

DOESN'T REMEMBER

Chapman — Was there not a conversation between yourself and this defendant on the evening before—August 30—on the matter of a settlement and did not you say John you've been attacked ' Didn't De Lancey say I'll see Mr Reed and then didn't he go to Mr Reed's office and return and say Mr Reed was not there?

Gray — I don't remember any such conversation.

Chapman — If the grand jury began its investigation on August 19 1909 did you have a conversation with De Lancey about a settlement between that time and August 29, 1909?

Gray — Yes sir

ATTORNEYS IN SQUABBLE.

Just before court adjourned last evening the first open rupture occurred between the attorneys engaged in the trial Former Public Administrator Gray was on the witness stand under cross examination by Attorney Chapman Witness had testified on direct examination that his official bank books had been left by him in the possession of De Lancey to enable him to make deposits of moneys belonging to estates

Questioning Gray further on this point for the defense Chapman elicited an answer from witness that he (Gray) could not specifically mention a single estate of date in which defendant had caused an entry to be made in the bank books when Gray was not present Counsel then asked witness if he could produce all of the bank books and make the desired showing whereupon District Attorney Donahue volunteered the opinion that this might be impossible, because when witness closed his bank accounts and turned the estates' funds into the county treasury or transferred them from one bank to another he had turned the deposit books back to the banks Attorney Chapman then declared across the table in a side remark that the prosecution seemed not to be anxious to have the deposit books produced.

HYNES TAKES EXCEPTION.

This brought Assistant District Attorney Hynes to his feet and, addressing the court, he exclaimed

"If Your Honor please, we take exception to the remarks of Mr Chapman, and stamp them as improper and entirely unwarranted The court has instructed opposing counsel to refrain from talking across the table at cross purposes and the prosecution has tried to abide by the order, but we serve notice now that we will not permit the other side to make flings at us without returning the fire, if a stop is not put to it."

Then Judge Brown repeated the admonition he had made at the beginning of the trial directing the attorneys to avoid wrangling between themselves and cited an instance of an aside made earlier in the day as a breach of this admonition saying that he hoped neither side would repeat such conduct

GEORGE GRAY WITHDRAWN.

George Gray was temporarily withdrawn as a witness this forenoon when court convened to allow Albert Guedemann of the Bank of A Levy Inc, Oxnard, to testify so that he could be excused to return to his business

Witness said that he was teller of the Levy bank and was familiar with the books and accounts of the institution He identified an exhibit as a certificate of deposit issued to C Arnaud by his bank Arnaud had deposited $1000 to cover it and the next time witness saw the certificate was when it came back for collection through the Farmers and Merchants Bank of San Francisco It was accompanied by a certificate of letters of administration to George Gray, and other checks of the same estate and the bank paid to the Los Angeles bank by check $1838 22 as the total amount of money belonging to the estate, including the $1000 represented by the certificate of deposit The payment was made December 1 1908 and the $1000 is the money De Lancey is alleged to have converted and deposited to the credit of his wife Isabel De Lancey in the private account with the Oakland Bank of Savings

There was no cross-examination and Guedemann was excused from further attendance upon court

GRAY AGAIN ON STAND.

The cross-examination of Gray was taken up again by Attorney Chapman with reference to the practice of De Lancey while acting as his legal representative of depositing estates funds in the banks

Witness testified yesterday afternoon upon cross examination that while he was willing to swear De Lancey had made many such deposits when he (Gray) was not present, he could not state off hand any special deposit thus made even with the assistance of the two deposit books then in evidence

It was the object of the defense to show if possible that defendant never made bank deposits unless Gray was present at the time, and leading Gray along this line Attorney Chapman subjected the witness to searching inquiry

INSPECTS BANK BOOKS ONLY.

Witness said that it was not his invariable custom to look over the Public Administrator's books and bank deposits whenever he went to his office, but that he would generally inspect the five savings bank deposit books once a month

At this juncture the deposit books, which Attorney Chapman had asked for yesterday afternoon were produced by the District Attorney and the defense offered the contents of them in evidence

Chapman—Were there any other books of this kind used by you in these banks as Public Administrator?

Gray—No sir unless one was closed out and transferred to another, and there is nothing in it to indicate that such was the case

Chapman—These deposit books were always accessible to you in your office, were they not?

Gray—Yes sir

Chapman—I wish you would look at these books and see if you can find a single entry showing that this defendant made a deposit when you were not present?

Gray—I cannot tell that.

Chapman—Well just look at the books There may be something in them that will refresh your memory?

CANNOT TELL BY ENTRIES

Gray looked the books through and said he failed to recognize anything that would warrant him in testifying that De Lancey did make any deposits when he was not present

Calling witness attention to an entry of $1713 85 in the deposit book of the Oakland Bank of Savings representing the Church estate Chapman asked Gray if that would refresh his memory

Gray said that it would not He testified that before he was employed on the Meek ranch he was a farmer and that off and on for nearly thirty years he had made deposits in banks and transacted business with banks

PROCEEDINGS LATE YESTERDAY.

The direct examination of former Public Administrator Gray was still in progress yesterday afternoon when THE TRIBUNE went to press Assistant District Attorney Hynes asked him that if at any time he acted as its administrator and up to October 13 1909, or at any time he authorized John S De Lancey or any other person, to take the sum of $10 000 from the estate of George Hite Cook

"I did not" replied Gray

Hynes—Did you ever authorize this defendant to take $10 000 from the Cook estate for you or in your behalf?'

Gray—No sir

Witness made the same replies to similar questions with reference to the $1000 in the C Arnaud estate and reverting to the matter of moneys deposited with the county treasurer Gray said that when the first deposit was made in December there was a list made out by De Lancey of the estates, totaling about $27 000 In the March deposit De Lancey had a similar list and when this money was deposited De Lancey told witness that that was all the money

Hynes—What did De Lancey say?

Gray—I supposed that was all the money De Lancey went with me to the county treasury when the deposit was made and told me that was all the money

DE LANCEY'S FINAL SETTLEMENT

Hynes—On October 13 1909 did you have any transactions with this defendant?

Gray—Yes sir

Hynes—Where?

Gray—In the office of Attorney George W Reed

Hynes—Who was present?

Gray—Mr Reed Mr Black, Mr Bingaman Mr Frick and myself

Hynes—What was the transaction?

Gray—De Lancey turned over to me coin and fees due him

Hynes—What was the amount?

Gray—Twenty-two thousand dollars

Hynes—Was the $10 000 alleged to have been embezzled in the George Hite Cook estate included in that amount?

Attorney Frick objected to this question on the ground that the facts of the transaction in detail had not been established and for that reason the question called for the conclusion of the witness The court sustained the objection

TURNS GRAY OVER TO DEFENSE

Hynes then turned witness over to the defense and Attorney Chapman began the cross-examination of the former public administrator

Gray said that occasionally Miss Stevenson stenographer in De Lancey's office would make entries in the Public Administrator's office

Chapman—Do you know of Miss Stevenson putting a petition for letters of administration in her typewriter and filling in the blank spaces?

Gray—Not to my knowledge

Witness said that prior to entering upon his present sugar business he had been superintendent on the Meek ranch near Hayward and that A. J. Flood was the bookkeeper there for about a year Gray did not know that Flood had been employed by De Lancey in the Public Administrator's offices until one day witness saw him there but De Lancey paid his salary

Chapman—Did you not pay Flood one-half of his salary?

Gray—No sir

GRAY IS POSITIVE.

Chapman—You are quite positive about that?

Gray—Yes, sir.

Witness said that while his business with the Alameda Sugar Company kept him away from the office of the Public Administrator's office most of the time, he always made it a point to be in his office every Monday—once a week He could then sign such papers and transact such other business as was required of him.

Chapman—Do you ever remember having signed your name to any petition for letters of administration during all the time you were Public Administrator and this defendant was in charge?

Gray—No I do not

Chapman—These papers were signed sometimes by De Lancey and sometimes by others—is not that a fact?

Gray—I don't remember

Chapman—Is it not a fact that there were times when you were away from your office as much as two weeks at a time?

Gray—Yes, I have been away that length of time

DE LANCEY ONCE GRAY'S CLERK

Witness said that in his first term of office, when De Lancey was only his clerk, he (Gray) had repeatedly instructed him to deposit moneys to the credit of the estates or in the name of the Public Administrator He said that for two years prior to De Lancey's employment as his attorney in fact, defendant had attended to his legal work

Gray said that he had frequently examined the bank books while they were in the possession of De Lancey.

Chapman—Is it not a fact, George Gray that there is not a deposit in the book of the Oakland Bank of Savings that was not made by De Lancey in your presence or by you?

Gray—I cannot specify, because there are a great many entries, but I know that he did make deposits—either he or some other person I can't say as to that

CHAPMAN—Can you on your oath say that De Lancey caused any entry to be made in that book without your authorization?

Gray—Yes, sir.

Court adjourned at 4:30 o'clock.

Constipation and Appendicitis

The Latter Usually Caused By The Former, Which, In Turn, Has Its Origin In Intestinal Indigestion.

Chronic constipation is a disease which [illegible] about as prevalent as dyspepsia and [illegible]digestion. Nearly every one suffers [illegible]m it occasionally, but there are mil[illegible]ns of people who endure it habitually, [illegible]d who are accustomed to resort to the use of laxatives and cathartics daily.

Many people seemed to have developed a perfect mania for taking pills, and instead of trying to ascertain the latent cause of the disease, and removing it by appropriate treatment, they are content to continue the reckless use of laxatives, aperients, drastic cathartics and violent purgatives, until finally inflammation of the bowels occurs, which reaches the appendix, and the result is appendicitis.

In investigating and tracing the causative factors of constipation and its frequent sequel, appendicitis, it has been noted by physicians that the majority of cases were preceded and accompanied by a long-standing gastro-intestinal indigestion.

The idea that appendicitis is brought on by foreign bodies, such as seeds, etc., becoming lodged in the appendix, is an exploded theory. It is now definitely known that constipation is the most prolific cause of this dread disease, while the constipation itself is previously induced by intestinal indigestion, or amylaceous dyspepsia—the inability to digest starches—so the relation between cause and effect is readily seen and appreciated.

The absurdity of attempting to cure constipation by the use of physic should be apparent to every one. Laxative drugs and powerful purgatives will never cure a disease of this sort, and those who make frequent or regular use of them will, sooner or later, set up an inflammatory condition of the intestinal system.

A person with first-class digestion will never be annoyed with chronic constipation, and when this trouble does exist, instead of slugging the system with pills, liquid laxatives, candy cathartics, etc., use a remedy which will cure the gastro-intestinal indigestion, and you will find that the constipation no longer bothers you, and with its removal, the risk of developing appendicitis will be reduced to the minimum.

STUART'S DYSPEPSIA TABLETS have been the means of curing numerous cases of constipation, by first curing the intestinal indigestion. They digest every kind of food, a single grain being capable of digesting 3000 grains of alimentum, and in addition to pepsin and other powerful digestives, they also contain diastase, which converts starch into sugar, and readily cures amylaceous dyspepsia and intestinal indigestion.

If you are suffering from dyspepsia, constipation, and, in fact, indigestion of any kind, don't run the risk of getting appendicitis, but strike at the root of the trouble—the original cause—by using Stuart's Dyspepsia Tablets, which will quickly rid you of all functional disorders of the alimentary tract.

Secure a box of this digestive remedy from your druggist for 50c and send your name and address to the F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich., for a free sample package.

BOOST FOR BONDS, URGES THE MAYOR

Councilman Everhart Also Pleads for Annexation Before Tri-Rotary Club

Mayor Frank K. Mott was the principal speaker at the regular weekly meeting of the Tri-City Rotary Club yesterday afternoon at the Hotel Athens, taking up the bond and annexation elections and other subjects of vital interest to the city.

Dr. E. R. Tait presided and H. C. Montgomery acted as secretary.

Dr. E. R. Tait reported on the water question and said that meter inspection proved that great waste was made by leakage and carelessness and when these defects were remedied meter rates would be found the most economical, as in other cities.

George S. Meredith spoke on annexation and said that the prospects were bright and that a campaign committee had been organized at the Chamber of Commerce to do effective work.

J. B. Jordan spoke of the great success of the auto races.

THANKS TO LAYMANCE.

Registrar Greensfelder, following Mr. Jordan, said that the thanks of the Rotary Club as well as the community at large, was due to M. J. Laymance for the success of the races and the large advertising Oakland had received therefrom, and upon motion by Registrar Greensfelder, duly seconded, a vote of thanks was tendered to M. J. Laymance for his energetic work in promoting the auto race and advertising Oakland and Alameda county's fine boulevard.

On the harbor question Registrar Greensfelder reported that a large meeting was held at the Chamber of Commerce and a campaign was inaugurated for the successful carrying of the election of bonds for the harbor improvements, City Hall and annexation.

NEW MEMBERS.

The following new members were elected: G. C. Wolter, George D. Prentice, M. M. Ogden, Fred Sherman, C. J. Pfrang, E. C. Sykes, Walter Heaver, Emil Lehnhardt, Harry East, Wm. B. Sneathen, E. Heinrich, C. C. Borton and George W. Frick.

Those present were: Hon Frank K. Mott, Mayor; Harold Everhart, Philip Weitzel, Cincinnati; J. N. Borroughs, S. H. Bates, T. C. Asmus, John Aubrey Jones, Robert Robertson, S. Samuels, H. L. Walker, J. B. Laclerque, Carl J. Vinther, Emil Fritsch, W. M. Gardiner, John B. Jordan, E. C. Dyer, A. W. Sefton Jr., Naph B. Greensfelder, R. H. Adams, George S. Meredith, C. W. Mattern, George H. Lavenson, F. A. Leach Jr., C. C. Borton, Rev. Dr. H. J. Vosburgh, Percy L. Bliss, Huber Vischer, William Wilde, Dr. Anson P. Hall, Dr. J. Goodwin Thompson, I. B. Davis, Carl N. Wiley, E. C. Brown, A. S. Lavenson, H. C. Capwell, George W. Frick, George H. Vose, W. J. Ashford, J. Clem Arnold, H. C. Montgomery and Stuart W. Booth.

MAYOR MOTT'S SPEECH.

Mayor Frank K. Mott spoke on the Chamber of Commerce building that should be built at once in Oakland and also on the bond and annexation election.

"Every true citizen of Oakland should devote his entire time and election for the next two weeks to carry elections for bonds for the harbor and City Hall and annexation," said the Mayor. "Oakland has made a greater achievement than any other city of the Pacific Coast, and will atract attention of the entire financial and commercial world as the city that enlarges its area nearly three times and pays three millions for its City Hall and harbor improvements under municipal ownership.

"The harbor plans are well considered, well planned and feasible and practical and approved by consensus of opinion of six competent engineers, both as to wharves, docks and belt railroad and warehouse system, and thus we will have a more complete system of wharves and docks than any other city on the coast for geting ship and rail together. Commerce works on lines of least resistance and the city that can handle merchandise most quickly and economically secures the business, and this means prosperity to every citizen."

ADVERTISE OAKLAND.

J. Clem Arnold, business manager of the Oakland Tribune, spoke of advertising Oakland in the East by systematic following up of newspaper and magazine advertising with literature and letters, and having observation gallery on the top of the bank building and large electric sign at Sixteenth street depot advertising Oakland.

The following committee on annexation was appointed: G. S. Meredith, E. A. Majors, H. C. Montgomery, H. Vischer, A. W. Sefton.

The following committee on harbor was appointed: Dr. E. R. Tait, Niph B. Greensfelder, Robert Robertson, Wm. Wilde and E. J. Grindley.

Councilman Harold Everhart said, in part:

"ANNEXATION."

"On November 16 the voters of Brooklyn and Oakland townships lying outside of the incorporated towns and cities will decide whether or not they are to become a part of the city of Oakland.

"To those living in the proposed district the question is one of the deepest importance, as the result of the annexation election will shape their civic progress for years to come.

"The immediate results to the outlying district will be very marked and very great indeed. To the City of Oakland, however, as it at the present exists, no immediate benefit will be gained by this movement. Our experience with the district annexed in 1897, which is the present First Ward of the city, shows that the demand made upon the city government for the extention of public needs as well as the maintenance of the district, will far exceed in cost for many years to come the amount of money paid into the city treasury in the shape of taxes.

"There has been before us for many years, however, the question of consolidated city and county government, and this is the first real step toward that end.

UNDER ONE HEAD.

"The voting strength of the new city will make Oakland a dominant factor in county affairs, and will probably result in the speedy consolidation of Oakland, Berkeley and Alameda, which will place the entire west end of the county under one compact municipal head. The division of the county at San Leandro creek will then become an assured fact, and our long battle for city and county government will have been won.

"There is, however, in the district seeking to be annexed, a strong sentiment among many of its people against annexation. This feeling is the result of various causes, some of it based on prejudice, some upon ignorance, some is the result of self-interest, and some because of a lack of appreciation of the grand results ultimately to be achieved, and in the next ten days it is highly necessary that we demonstrate to the people of that district the advantages they will gain by becoming a part of this city.

OVERCOME PREJUDICE.

"We must overcome the prejudice of some by candid and honest explanation. We must enlighten the ignorance of others and overcome the self-interest of those who feel that they will lose their prestige by becoming a part of us, and carry into the minds of all a full appreciation of the possibilities of the Greater Oakland to be, when she takes her place near the top of the great cities of the nation.

"Half a million people on the east side of San Francisco Bay united in one great purpose to make a prosperous, happy, contented community, clean in its morals, pure in its politics, honest in its government is the ultimate aim of many efforts now being made by our people, and annexation is one important step toward the consummation of that aim."

EIGHTEEN YEARS SEEKING HER SON

Long Absent Boy Found Working on Ranch at Arbuckle

WOODLAND, Oct. 29.—Mrs. E. A. Guild of San Diego, who has been looking for her son for the past eighteen years, is a happy woman. He has been located at the ranch of John Coughlan at Arbuckle and has promised to write his mother at once, and will probably return to her. The sorrowing parent, for nearly two decades has endeavored to find her son. He disappeared in San Diego in 1891, and since that time has been as one dead to his mother. A period of seafaring life and knocking round the ports of both hemispheres was followed by a spell of ranching.

Four years ago he worked for Alfred Welsh, who lives on the outskirts of Woodland. Mrs. Guild in a last attempt to locate her boy—he is a middleaged man now—wrote to the recorders of the different counties of the state. The letter to the Yolo county official was published in the local papers, and Mr. Welsh remembered that he had a man working for him four years ago of the same name of Edwin T. Housel, which was also the name of Mrs. Guild's first husband.

Mr. Welsh ascertained that he was working at the present time for John Coughlan at Arbuckle, and he was confronted with the letter from the mother he had so long ago neglected.

He admitted that he had left his mother nearly two decades ago, but offered no explanation for his action.

POLICEMAN DIES FROM WOUNDS; SHOT BY THUG

SPOKANE, Oct. 29.—Night patrolman Alfred B. Waterbury, who was shot by a desperado Thursday night, died yesterday.

Waterbury had ordered the man to halt. The answer was a pistol bullet that pierced the policeman's groin. Lying on the ground, the wounded patrolman fired four shots at the fleeing assassin, but the man escaped.

A heavy overcoat, a pair of overshoes and a black mask were found along the thug's trail.

Another Fallen Idol.

This is a story of grief. The Call and the Bulletin are out. Not since the unexpected parting of the Beasley twins has so melancholy an event clouded the horizon of peace and bliss. The ties so rudely severed were not only tender but sticky, nocturnal as well as fraternal, and—on one side at least—profitable. The bond of sympathy remained unbroken as long as the Call continued to take its editorial cue from the Bulletin. Mr. Fremont Older sadly testifies that he regarded this docile imitation and meek devotion as the very highest evidence of virtue and exalted patriotism.

But the Bulletin has indignantly cast the Call from the congregation of the elect. Firmly but sadly it declares the Call to be a recreant and a traitor, that it has abandoned the uplift as exemplified by Francis J. Heney, William J. Burns, Big Jim Gallagher and other faithful friends of public and private morality, for the flesh pots of Egypt. The Bulletin alleges that the Call is trying to elect McCarthy because it is supporting Crocker, and that it has joined the forces of corruption because it takes but a languid interest in the candidacy of Francis J. Heney.

To say that Mr. Older is pained and surprised at these manifestations of depravity is drawing it mild. He is shocked, grieved, astounded. He laments in sorrow and anger. The tears shed by Ancient Pistol when his dear old comrade Bardolph was hanged for robbing a church were not more copious or genuine. He has lost not only a friend and brother in arms, but a follower and imitator, the sincerest of flatterers. No wonder Mr. Older is plunged in sorrow as profound as it is pure and unselfish.

When a base penny cord choked the breath of life out of the gentle Bardolph, the worthy Pistol was bereft of the only one who loved and trusted him. Mr. Older is left in a similar state of friendless desolation by the recreancy of the Call. He is quite alone with none left to follow and admire him, to imitate his worthy deeds and emulate his long array of virtues. An additional pang is given his anguished spirit because desertion and not death has bereaved him. His lament is raised to a higher pitch because corruption has gained another victory, seduced another champion of virtue, stole another march on Billy Otts and Dick Creighton.

Yea, it is more than sad. It's awful. Likewise disheartening to such thrifty workers in the vineyard as Mr. Fremont Older and the Hon. Big Jim Gallagher.

But Mr. Older is given a fresh proof of man's frailty and ingratitude in this morning's Call. Prompted, it is plain, by the effort of the grieved Bulletin to rebuke and reform that wayward and sinful sheet, Mr. Francis J. Heney gives the sinner a certificate of good character and Mr. Older something very like a kick from the rear. Mr. Heney thanks the Call for its warm and consistent support and congratulates it on the zeal with which it has labored for the graft prosecution. Alas, poor Yorick. Wot t'ell! While Mr. Older is still scolding the Call on the ground that it is giving Mr. Heney the Judas kiss, Mr. Heney chivalrously calls him a liar and says the Call is all right. Mr. Heney has also betrayed Mr. Older. It is really too sad. It is enough to make the tear-stained Older hit Jimmy Phelan for another cash insult.

From now on until improvement bond and annexation election days the friends of progress and prosperity should pull together to secure the success of both.

Prime Minister Asquith has thrown down the gauntlet to the House of Lords by giving notice in the House of Commons that on November 5 he would move to reject all of the amendments of the Lords to the Irish land bill. This action on the part of the premier assures the government the support of the Irish Nationalist party in the coming struggle over the reorganization of the upper house and the curtailment of its powers which will follow the disposition of the budget by the peers, whether they pass or reject it. The purpose of Asquith's notice was made all the more apparent when he coupled with it the announcement that on the same day the motion to reject the Lords' land bill amendments would be made the Commons would adjourn until November 23. That adjournment will give the peers time to do a lot of wholesome thinking while considering the budget.

A mean and unfriendly effort to discredit the integrity of the Melrose-Hayward and San Leandro auto road race course and cast a cloud on the new world's records made over it on Oakland's Portola day died aborning, as it richly deserved to do. The course was honest and needs no defense and the records will stand.

The despised cobblestone has of late years become a valuable asset. A correspondent of the Sacramento Bee calls attention to the fact that the railroad companies are depending upon it largely for ballast; road builders for macadam for the making of highways. The reinforced concrete constructor depends largely on cobblestones as the source of rock supply for his crushers, and it has entered largely in its natural state into the construction of unique and attractive modern dwellings. Los Angeles started the boom for the latter use of it some fifteen years ago

Chamber of Commerce Work.

For many years the Chamber of Commerce has been doing good work for Oakland and Alameda county. But it never did better promotion work for the territory on this side of the bay than it is doing now. Few communities are blessed with a commercial body that is devoting itself so unreservedly for advancing the general welfare as the Oakland Chamber of Commerce is doing.

The financial report presented at the chamber's regular quarterly meeting held on Tuesday evening gave the public an insight into what it has done, what it is doing and what it is planning to do in the way of Oakland and Alameda county promotion. Results are in evidence. For example, Secretary Stearns reported that 3000 inquiries had been received, many of them from Canada, since the last bulletin of the chamber was circulated. Stearns has been an enthusiastic worker and he has infused his personal enthusiasm into the chamber's membership until that body now has on its roster 2500 active promotion workers. The chamber has entered on a still broader field of promotion work which cannot fail to produce the best results. If the community does not appreciate the chamber's work at its full worth it must be intensely obtuse. We think, however, that the great majority of the people of Oakland have become educated to the point where they fairly understand the value of the promotion work of the Chamber of Commerce and that it is far from being entirely selfish.

The later development in the Chamber of Commerce's sphere of usefulness is to consolidate all elements in the community interested in harbor improvements. This was illustrated at the Progress and Prosperity Committee meeting held on Wednesday night when it marshalled its own forces and formulated a plan of co-operative campaign with other organizations interested in the success of the election authorizing the issuance of bonds for the improvement of the harbor water front and the erection of a new city hall. The success of the election for the annexation of outside territory to be held the following day is dependent on the successful result of the bond election. And on the success of both the future of Oakland and its present suburbs is largely dependent. That fact should not be lost sight of for one minute by every citizen interested in Oakland's future welfare.

Militant British Suffragettes.

The Women's Social and Political Union, a militant British suffragette organization led by Mrs. Pankhurst, has managed to get itself entangled in the meshes of the criminal law through the attempt of one of its members to destroy the ballots cast in the Bermondsey bye-election yesterday by smashing a bottle containing corrosive acid on the ballot box. That in itself would have made the rash suffragette amenable to prosecution on a criminal charge with a long term of imprisonment staring her in the face. The attempt to destroy the ballots, which would probably have vitiated the election, signally failed; but the more serious result, so far as the militant suffragette and her confederates are concerned, happened through the splashing of the acid over the election officers who were so badly burned that they had to be placed under medical treatment. The aggressive suffragette will probably be compelled now to face a charge of mayhem, and her fellow members in the Union will probably be prosecuted as accessories before the fact, as the whole program was agreed upon beforehand. Whether the government will take a hand in the prosecution remains to be seen. Mrs. Pankhurst, the President of the Union, is under sentence for rioting in the House of Commons, but the carrying out of the sentence has been temporarily suspended, and through the leniency of the government she has been suffered to visit the United States. She is now touring some of the Eastern States, lecturing on the political woes of her sex in Britain. It is to the credit of the leaders of the woman's suffrage movement in this country that they have given her the cold shoulder by refusing to countenance her mission.

That the suffragette movement is anti-Liberal in its purpose and passively encouraged by the Unionist leaders is evident from the fact that neither the late Marquis of Salisbury nor Balfour, his successor as premier, weremolested while they held the reins of government; whereas, the women agitators began a crusade against the late Sir Henry Bannerman-Campbell as soon as he became premier, and it has gained in strength and in violent demonstration since Asquith came into office. But the injection of violence as a means of bringing about political reforms has been common in British politics. England is just now full of suffragette societies, organized under different names and auspices; but only two of them are militant in their character—namely, that headed by Mrs. Pankhurst and the Women's Freedom League, led by Mrs. Despard. While the non-militants disapprove the tactics of the militants, all are united in their determination to give the Asquith government no peace until it espouses the extension of the suffrage to women, which, if now assumed, might wreck the ministry.

The veto by Sacramento's Mayor of an ordinance passed by the Board of Trustees prohibiting the employment of aliens by any contractor performing city work, on the ground that it was strictly unconstitutional, will save that municipality from a lot of costly and unnecessary litigation.

APPEAL TO FARMERS FOR STATISTICS

Mr. Durand, United States Census Director, has made an appeal to farmers all over the country to assist him in securing accurate agricultural returns at the coming census. He trusts that farmers will keep or provide some sort of written record of their operations during the year 1909. Each person in charge of a farm will be asked to state the acreage and value of his farm—that is, the acreage and value of the land kept and cultivated by him; the area of land in his farm covered with woodland, and, finally, that which is utilized for specified farm purposes; the acreage quantity produced and value of each crop, including grains, hay, vegetables, fruits, cotton, tobacco, etc., raised on the farm in 1909; the number and value of all domestic animals, poultry and swarms of bees on the farm on April 15, 1910. He will also be asked to state the number and kind of animals sold during 1909 and the receipts from such sales, the number purchased and the amount paid therefore, and also the number slaughtered for food, and the value of such animals. The census act provides that the information shall be used only for statistical purposes for which it is supplied. "No publication shall be made by the Census Office whereby the data furnished by any particular establishment can be identified, nor shall the director of the census permit any one other than the sworn employes of the Census Office to examine the individual reports." Furthermore, the information reported on the agricultural schedule will not be used as a basis of taxation or be communicated to any assessor.—Scientific American.

Reason That Stars Twinkle

It is known that only the stars twinkle, the planets giving out a steady light. That is the way we tell a star from a planet with the naked eye. But why does the star twinkle at all? The answer to this seems to be on account of the greater distances of the stars, the nearest fixed star being several thousand times further from us than the furthest planet. So around this as a starting point have been built two theories. One is that as the visual angle, or angle subtended by the star from the eye, is so very small that very small bodies in space coming between the star and the eye would give the effect of twinkling. Now as regards those small bodies actually being in space as hypothecated there is no doubt, for there are millions of fragments of disrupted worlds flying around in orbits about our sun.

The only question is whether there are enough to cause the eternal twinkling that is observed. Science cannot say that enough do not exist, for she cannot perceive the existence of the smallest fragments that actually could cause this effect, even with her finest instruments. To illustrate, then, my meaning as regards this covering of the visual angle—suppose you take a dime between your thumb and finger and hold it between your eye and the moon until it just covers the moon. It will be found to be quite close to the eye. Now take a quarter and hold it so that it just covers the moon. Its distance is at once seen to be about four times the dime's from the eye. Thus it is seen that the further outward the object is placed the larger the object necessary. This is in accord with what is known as the law of inverse squares.

But now take a dime, or even a pinhead, and no matter how far you hold it from the eye it will easily cover the largest star in the heavens. This is on account of the enormous distance of the star—the lines drawn from its sides to the eye enclosing an angle so minute that almost anything will fill it. So thus we see that this theory is not impossible, though perhaps somewhat improbable.

The other theory bases its argument on the air currents. Air currents are caused by light and heated air rising and cold and heavy air taking its place. Now when light goes from a heavy to a light gas, or vice versa, it is bent one way or the other. So this would certainly happen to the light from all the heavenly bodies. The reason it is not noticed in the case of the planets or the sun is that they send us many more rays as compared to the stars.

Many reasons are put forward to show the truth of this theory. A star twinkles more on the horizon than it does in the zenith, for its light has to come through a greater thickness of atmosphere. Also greater twinkling is observed in winter than in summer, and when rapid and brilliant twinkling is seen it is a very good prophecy of rain or snow, as it shows the upper regions of the air to in a state of rapid motion of varying currents, hot and cold currents [illegible] commingling and rotating probably.

This also accounts for the changes in the brightness of a star, for at times a part and not all of its light is bent away from the eye. It has been noticed also that a star's color has something to do with its twinkling on account of the different refractivities of the different colors. A white or blue star, such as the Dogstar, twinkles most; next comes the yellow and last the red. If one cares to look for a red star, Betelgeux is one and can be found in one corner of the constellation Orion.

A rather interesting thing has been ascertained in astronomy as regards the relation between the color of a star and its age. The white or blue stars are considered young or in the prime of life, with many more million years to their career, while a red star, as Betelgeux, is on the wane and will gradually go out in the next few million years. The yellow stars, of course, come between the blue and the red in point of age. It is encouraging to find that our own sun is classified as a white star.—Illustrated Sunday Magazine.

Topics Timely and Interesting

Fifty tall young women besieged the Philadelphia Opera House recently and thirty of them were engaged as ushers for the coming season. The twenty who lost out were under six feet in height. When Oscar Hammerstein let it be known that he wanted tall girls for ushers this year, so they wouldn't get lost in the crowds, all the "lady grenadiers" in the city who were looking for places got on the job. Two of the fifty who applied were six feet four inches tall.

It is announced by the Pittsburg Gazette-Times that the first test of steel ties by the traction lines of that city has led to a decision to place them on one and a half miles of track. If they are successful there, the entire system will be thus equipped. A steam railway operating into Pittsburg already has steel ties on five-eighths of its mileage, and in a few years will have entirely replaced its wooden ties. The Gazette-Times says: "The price of the steel ties is approximately $1.50 apiece, while wooden ties cost from 80 to 90 cents, but after treatment with creosote and the addition of heavy tie plates, the final cost of the wooden ties is nearer $1.25. And when they are worn out that is the end of them—they are burned up. But with the worn-out steel tie it is different. It can be sold as scrap and part of its original cost recovered. In the end, it is asserted, the steel tie is by far the cheaper. There is practically no wear out to it, while the wooden tie, if not treated with creosote, would last only a few years under heavy traffic conditions. In the olden days wooden ties were known to have lasted twenty years, but the conditions are much changed now. There has been a demand all along for heavier ties to meet the increasing requirements in their use. The manufacturers naturally feel that the steel tie is the solution of the problem."

Courtship by confectionery is, beyond question, the most entertaining branch of applied science taught by that magnificent medium of education, the advertisements, according to "The Clerk of the Day," in the Boston Transcript. Illustrations—consisting of cupids, hearts and moonlight sonatas in color—help out the text and make its meaning clear to all. Even a foo-foo, though head and ears in love, can master its precepts, so plain they are. "Send her a pound of our molasses bars. Stickiest of sticky sticks. Her heart will melt." Or again, "A forty-pound box of our sweety-sweets will land the most obdurate lady, with hardly a struggle." You know the vein. After many interviews among clergymen, jewelers and trousseau jobbers, "The Clerk" is convinced that the advertising propaganda is obtaining results. Perhaps too quickly, though. If the candy people aren't careful, they'll marry off the entire population, and then what? On the other hand, there's a worse peril—that of sophistication on the part of the fair. This blazoning abroad of stratagems is shockingly impolite. While it puts power into the hands of youths, it puts caution into the hands of maids. When a girl hears the low ominous rumble of the candy dray, she will interpret its significance and escape by the rear piazza—unless, of course, she borrows and adapts the maxim of the Montana politicians, who offset the potency of the enemy's corruption fund by preaching, "Take their money, boys, and vote as you like!"

Mr. John Skinner, 86 years old, assisted in the ringing of two peals on Broadclyst bells last week in celebration of his birthday. He has rung at all the principal events of the period at Exeter Cathedral for upward of seventy years, including Queen Victoria's coronation in 1838, her wedding in 1839, both her jubilees and King Edward's birth and coronation. He is believed to be the oldest ringer in the country.—London Standard.

The man who inspired Pinchot to his present work is Dr. Bernard E. Fernow, the true father of American forestry. Dr. Fernow was born under the Prussian flag in a little Polish village in the province of Posen. He came of country stock and country life drew him so strongly that upon his being graduated in 1866 from the Bromberg Gymnasium he entered the Prussian Department of Forestry. There was no opening here for a forester when he came over in 1876.

Clearly, the young forester saw the first thing to do was to go out and create business. So he became prime organizer and secretary of the American Forestry Association, and in the following year, as a result of his agitation succeeded in having established a division of forestry in the United States Department of Agriculture. He was logically called upon to become its chief. Gifford Pinchot has made repeated acknowledgment of his debt to Dr. Fernow.—Hampton's.

Defense of Ito and His Policies

EDITOR TRIBUNE: The assassination of Prince Ito has caused an outbreak of the semi-socialist press of this country. The case as seen from that point of view is plainly put in this form:

"The assassination of Prince Ito is but the natural consequence of the policy of usurpation and insidious conquest that Japan has been pursuing in Korea. A peaceful people, lending its national life in its own way, powerless to resist encroachments, the country of the Koreans fell under the covetous eyes of Japan."

A study of the book written by the Russian General Kuropatkin furnishes a key to the interest of Japan in Korea. Commercial concessions to Russians in Korea were supported by military occupation. The ruthless expansion of Russia over Mongolia and the Khanates necessitated the absorption of Manchuria and Korea and the extinction of Japan. Not many years ago a Russian officer made a visit to Japan, and on his return to St Petersburg said, "We will go down there and whip those monkeys."

In that spirit Russian expansion proceeded. Her eye detected the inability of Korea to "resist encroachments." To her plan Manchuria was also necessary. When the Boxer war occurred in China Russia's opportunity appeared. Then her armies set foot on Chinese soil to join the military forces of Japan, the United States, England, Germany and France to march on Pekin to the relief of the foreign legations. After that purpose was accomplished, the five commanders of the allied armies and their five governments made a stipulation for the evacuation of Chinese territory and jurisdiction at a given date. All of them honorably obeyed this stipulation except Russia. The troops of Adam Zad stayed in Manchuria. Reinforcements poured over the Amur river. Camps were converted into fortifications and permanent military occupancy of Manchuria was revealed. Our Secretary of State, John Hay, protested to Russia and Adam Zad fixed successively five dates for evacuation of Manchuria, but observed none and went on fortifying and re-enforcing. Read this history with General Kuropatkin's book and its story of the Russian encroachment in Korea, and it is seen at once that the national existence of Japan was at stake. When further delay meant extinction, that brave nation began a fight for existence, and in a struggle, with sacrifices that are not exceeded in human history, it saved its national life.

Then what? Manchuria and Korea remained on the Japanese frontier, the same menace as before.

After our revolution and the achievement of our independence, when we were still exhausted and weak, the exposure of "The Holy Alliance" made it plain that our life was threatened by the extension of the principles of that alliance to this continent. At that moment England was in antagonism to the alliance and in sympathy with us, and the head of the British Ministry suggested to us what is known as "The Monroe Doctrine" adopted by President Monroe and his Secretary of State, John Quincy Adams. Our peril, against which the Monroe Doctrine fortified us, was exactly the peril of Japan that made her hegemony of Korea necessary. If the Holy Alliance had proceeded to the occupancy of Mexico with a military force, our seizure of Mexico would have been necessary to our national existence, and our statesmen would have neglected that precaution to the peril of the Republic. Upon precisely the same principles Japan has taken over the administration of Korea, and upon the same principles and for the same reason her Monroe doctrine extends to Manchuria. She has not forgotten that even when Li Hung Chang was on his deathbed the representative of Russia stood over him with threats to compel his signature to a treaty that practically made Manchuria over to Russia. Japan does not intend to incur that risk again, and would be deficient in the primitive instinct of self-preservation if she permitted it.

With all these parallels between our history and that of Japan, it is not becoming in the American press to condone the assassination of Ito because of his clear-sighted defense of his country. It is forgotten that we fought Spain, not for any aggression against us, not for any threat that imperiled our national existence, but because she permitted in Cuba a conflict that disturbed our repose. Nor is it forgotten that we became inflated with an expansion policy that was not in any way necessary to our existence or prosperity. It is not forgotten that we seized Hawaii, with no farther apology than that it was necessary to our national defense, and the Philippines because they were needed in our business. In the Philippines we are holding in check by military force a people more numerous than the Koreans. These matters in our own policy suggest modesty in criticism of Japan. That nation is determined that her courage and sacrifice on a continuous battlefield from Port Arthur to Mukden shall not have been in vain, and in that determination she deserves the sympathy of every people that has fought for national existence. Very truly,

JOHN P. IRISH.

KEY WEST as NAVAL BASE

The hurricane that centered so destructively off the southern coast of Florida must tend to destroy the claims advanced for Key West as an adequate base of naval operations. The unfitness of this coral reef as a distributing point for ships and stores was proved during the civil and Spanish wars, and its exposure to naval raids from an active enemy was long ago accepted by the great body of strategists. Its advocates had therefore to rest their case on its immunity from cyclones, and this has at last fallen to the ground.

The first necessities of primary naval bases are protected anchorages, fruitful back countries and effective sallying and recruiting points. Key West possesses none of these and an attempt to create them artificially would demand enormous appropriations. It is in such respects inferior to several other gulf ports, though none of them may at the best, be classed as other than minor military situations.

The strategic base of the first importance war the wardership of our Atlantic gulf ports lies farther south, in the Caribbean, for example, where the great war basin and its outlets may be patrolled and the entrances to the Panama Canal be defended. Guantanamo, with its neighboring waters, seems to enjoy special advantages for satisfying in a great degree these requirements. The government has already spent large sums on its development, and while its usefulness in peace as a drill ground is proved, its strategic value in war is indubitable. Any further attempt, therefore, to force Key West into an unwarranted position should be resisted as wasteful and unfortunate.—New York Herald.

PURELY PERSONAL

The Chancellor of the Exchequer may be described without offense as a ministerial golfer. That is to say, he plays as well as is necessary for any Cabinet Minister. Although the golf standard is on the whole fairly high among M. Ps, there has been no one of Cabinet rank, with the exception of Mr. Alfred Lyttleton, who could be truthfully described as an accomplished golfer. Mr. Balfour is probably the best known of all the golfing M. Ps., but his enthusiasm is greater than his skill. Of Mr. Asquith it may be said that neither his skill nor his enthusiasm is immediately apparent. In truth, however, no Cabinet Minister can afford to play golf too well. The country would feel decidedly distrustful of a Prime Minister or a Foreign Secretary whose golf was of a kind likely to get him into a championship game.—Throne and Country.

The captain who loses his ship is likely to wait a long time before he gets another, even if investigation shows that he was not to blame. If he is censured, he may as well hunt another job. Captain Inman Sealby, who was in command of the White Star Line steamer Republic, that went down last January, following a collision with the Florida, may or may not lose his papers. That will depend upon the finding of the admiralty court. In the meantime he will be busy. He has just entered the University of Michigan as a freshman in the law school and will make a specialty of admiralty law. It is possible that the question of responsibility for the loss of the Republic may require a long time for settlement. Already there has been much litigation, and it was this that first made Captain Sealby think about preparing to earn a living in admiralty practice. There is much law business of this sort in Detroit, and Ann Arbor where he is attending lectures, is near Detroit. On the practical side, he will have some advantage over most admiralty lawyers at the start. He knows the ocean and the ships as few land-lubbers, no matter how learned they may be in the law of the sea, know them. He is 50 years old and got his first command in 1893. He is a commander in the royal naval reserve and still draws half pay as an employe of the White Star Line. Captain Sealby will have as a fellow student at Ann Arbor Captain Irving Evans, who resigned the command of a steamship to enter the law school. Captain Evans will be an admiralty lawyer, too, and will graduate next June.—Hartford Courant.

Twenty Years Ago in Oakland

Because William M. Matson called Jas. C. Sullivan "a thief," the latter has commenced suit for slander, seeking $10,000 as balm for his injured feelings.

Mrs. Mary Deming Crocker, wife of the late Charles Crocker, died yesterday at her home in San Francisco, after a brief illness of several hours' duration.

A coroner's jury in San Francisco yesterday afternoon returned a verdict that Thomas McDonald, the Oakland man found dead in Howard street, came to his death from a blow administered presumably by robbers, and charges that murder was done. Detectives are working on the case.

Rev. Dr. Dille, in a sermon at the First Methodist Church last night, condemned dancing as lascivious and evil, and those who engaged in it as sinners who could never expect salvation. Many members of the congregation take issue with Rev. Dille and say they will dance to their hearts' content—and get to heaven, too.

George W. Silver, convicted of having forged affidavits presented to Jud Greene, was sentenced to serve five year in San Quentin by the judge before wh he presented the affidavits, this morni Silver was denied a motion for a trial.

WHAT WOMEN ARE DOING

Three women have been nominated for Parliament in Norway.

Mrs. Dewey C. Bailey, president of the Denver Woman's Club, has been endorsed by the State Women's Republican Club for the nomination for Congress in the first district.

In Denmark, the National Woman Suffrage Association has grown during the past year from 4000 members to 10,000.

The State convention of the Universalist Church recently held in New Haven, Conn., unanimously adopted resolutions favoring woman suffrage.

The Unitarians, in their Pacific Coast Conference at Seattle, declared in favor of woman suffrage.

The State convention of the South Dakota Federation of Women's Clubs has officially endorsed the Woman Suffrage amendment, which is to be voted on next year in that State. The co-operation of this body is considered of much importance by the suffrage association.

The State Federation of Labor of Maryland and New York held their respective annual meetings late in September, and both bodies officially endorsed woman suffrage. The American Federation of Labor declares for woman suffrage every year, and federations in the following States have taken similar action California, Connecticut, Colorado, Iowa, Indiana, Illinois, Kansas, Massachusetts, Minnesota, Maine, Michigan, New Hampshire, Ohio, Oregon, Oklahoma, Pennsylvania, Tennessee, Texas, Washington and West Virginia.

Baltimore women are making a determined effort to secure municipal suffrage. The Baltimore Equal Suffrage League, numbering nearly 500 members, with Mrs. Ellicott, wife of Professor Ellicott of Johns Hopkins, as president, is taking an active part in the campaign. The first plea of a woman for a vote in this country was made by Mistress Margaret Brent of Maryland to the Colonial Assembly in 1647.

Mrs. Oliver H. P. Belmont and Mrs. Ida Husted Harper were two of the three women among a long list of distinguished men writers to contribute special articles to one of the Hudson-Fulton souvenir editions of the New York American. Mrs. Belmont wrote on "Progress of Women in New York in One Hundred Years" and Mrs Harper on "Progress of Women Suffrage in the United States."

Enough boxes and seats have already been sold to insure a tremendous audience in Carnegie hall for the opening lecture of Mrs. Emmeline Pankhurst, president of the Woman's Social and Political Union in Great Britain, commonly known as the "suffragettes."

In one day recently articles favorable to woman suffrage appeared in the Christian Science Monitor of Boston, Christian Herald of New York and the National Pure Food Magazine, showing the wide scope of this movement and its freedom from all political and sectarian bias.

Her Muscle a Surprise to Footpads

NEW YORK.—If two highwaymen had known how much muscle and courage were possessed by Mrs Julia F. Lacey of No. 797 East One Hundred and Seventieth street, probably they wouldn't have tried to rob her in Nassau street late yesterday afternoon. But they did try it, and one man landed in the Tombs.

Mrs Lacey was near Fulton street when two men jostled her so roughly that she was pushed off the curb. Seizing one of the two by the collar, she threw him into the street. He ran away.

Just then she discovered that her handbag had been opened and her purse, containing $5, had been taken. She pursued the other man and caught him below John street Holding him tightly, Mrs. Lacey yelled "Police!" The fellow fought to break away, but she held him until a policeman arrived.

In the Center Street court the prisoner said he was Alexander Martin, an electrician of No. 229 West Thirty-seventh street. Magistrate House held him in $2000 for examination today. Mrs. Lacey's purse was not found on him.

Man and Woman, Both Sentenced to Prison, Will Wed Before Starting Upon Long Sentenc

NEW YORK.—Grace Maidhof, known as Grace Richardson, who was arrested in last July for passing forged checks on Harlem storekeepers, was sentenced by Judge Mulqueen in General Sessions yesterday to serve not less than three years nor more than five years in the State Prison for Women in Auburn. Her fiance, Ralph H. S. Whitney, was sent to Sing Sing prison for not less than five nor more than ten years.

The prisoners were in despair when Judge Mulqueen pronounced senten They had expected immunity, having tes- tified against John H. Freese, a lawy whom they accused of having been th master mind in their extensive opera- tions. Freese on his trial, however, w acquitted. A letter written by Whitne to the Maidhof woman advising her wh to say against Freese was produced b the lawyer's attorney to show there w a conspiracy against Freese by Whitne and the woman.

Charles Le Barbier appeared for Whitney and Miss Maidhof yesterday. H submitted an affidavit made by the woman to the effect that she had never see the Freese letter, though she had swor on the trial that the missive had bee stolen from a valise in her cell in th Tombs. Appended to the affidavit wa a request that Judge Mulqueen marr her to Whitney.

"What!" cried the judge. "A marriage between these two persons wou be revolting—a disgrace, a mockery."

Mr. Le Barbier said Acting Distri Attorney Smyth had promised immunit to the woman and Whitney. Mr. Smyt denied that. He said he had informe the pair that if they told the truth o the witness stand he would recommen clemency. He said he now believed the had tried to hoodwink the district attorney, the court and the jury.

"I share that belief," Judge Mulqueen said, "and I am going to make an example of these defendants. My investigation convinces me that the woman ha been a social outlaw since she was 1 years old."

As he finished imposing sentence th woman screamed and fell on her face o the floor Whitney tried to throw himself upon her body, but was held back. She was carried across the Bridge o Sighs to the Tombs.

After Whitney had been sentenced h asked permission to speak. He got it, whereupon he talked for nearly an hour, pleading for the woman and saying h alone was to blame. He asserted he ha been private secretary to William H. Taft when that man was on the Panama Canal Commission. Afterward, Whitney said, he was a stenographer for "Abe" Hummel and other lawyers. He begged Judge Mulqueen to let him and the Maidhof woman remain in the Tombs until next Tuesday so that they might be married before going to prison. Judge Mulqueen granted the request.

Fears Infant Son Cannot Be 'Raised' on $15,750 Yearly

GREAT NECK, L. I.—The report of Referee Henry A. Robinson, who was appointed to investigate the application of Mrs. Gladys R. Martin for an allowance for her infant son, James E. Martin, Jr., will be final with Surrogate Jackson on Monday.

It does not allow the amount asked by Mrs. Martin, but shows that with proper economy the young man can be brought up on an allowance of $15,750 per year, payable quarterly.

The amounts allowed are $4,000 for a home and $7,500 a year to maintain it, for an automobile and its keep, [illegible]; entertainments, recreation and exercise, $300; prospective medical attention, medicines, etc., $200, and clothing, $750. The estate of the child is estimated at [illegible],-100.

Pretty Widow Loved Other Woman's Husband; Is Arrested for Sending Her Poisoned Candy

ST. LOUIS.—Mrs. Maud Ridley, a comely brunette, 32 years old, living at the fashionable Vrooman apartments, was arrested this afternoon and held by the police pending an application for a warrant against her by Mrs. Nanette Lillard, wife of R. W. Lillard, a newspaper man. Mrs. Lillard charges that Mrs. Ridley, a widow, attempted to poison her with a box of candy, given her as a peace offering after she had asked the police to protect her and family from Mrs. Ridley's infatuation for Mr. Lillard.

Police Captain Gaffrey was handed a box of candy Sunday by Mrs Lillard, which she said Mrs. Ridley had presented to her. He turned it over to the city chemist, who announced today that the candy was so charged with strychnine that one piece of it fed to a rabbit caused the animal's death almost instantly.

Mrs. Ridley denies, according to Captain Gaffney, the charges against her and says that her admiration for Mr. Lillard was only platonic,

Lillard told Captain Gaffney, the latter says, that Mrs. Ridley on several occasions importuned him to buy candy for his whole family, which she would present to them. The family consists of two children besides the wife.

Mrs. Lillard appealed on Saturday to Captain Gaffney to interfere with Mrs. Ridley's infatuation, which, she said, annoyed both herself and her husband. On the next day, Mrs. Lillard says, Mrs. Ridley called upon her and insisted that her feeling for Lillard was only admiration for his talents. She persuaded Mrs. Lillard to walk to the car with her and said she was leaving town.

On parting, Mrs. Lillard says, Mrs. Ridley pressed upon her a box of candy as a peace offering. Mrs. Lillard returned home and, opening the box, bit into a bonbon. A peculiar taste warned her, she says, and she did not swallow it. Instead she took the box to Captain Gaffney.

When Gaffney approached Mrs. Lillard's home today to inform her of the result of the city chemist's analysis he saw Mrs. Ridley sitting on the front porch, and when she saw him she hastily departed. He followed her and placed her under arrest.

When Mrs. Lillard learned of the poison in the candy she asked that Mrs. Ridley be held until she could swear out a warrant against her charging attempted murder.

Made Her Complaint In Policeman's Arms

NEW YORK.—Patrolman Birmingham, bridge officer at Jefferson Market Court, held a young woman in his arms yesterday afternoon while she made a complaint to Magistrate Steinert. He wanted to stop long before the woman did.

John Molloy, a milkman, No. 262 West One Hundred and Fifty-third street, was arraigned on the charge of killing a dog. The magistrate looked for the complainant.

"Where is the person making this charge?" he asked.

"Here I am, your honor," piped a voice from the objective side of the desk.

"Officer, did you hear anything?" the court asked. The officer stooped down and picked up Miss Caroline Haas, No. 256 West Thirty-eighth street, thirty inches short and thirty years young, who says she travels with the "big shows" in the United States.

Pounding with her tiny fist on the desk, she said, with all the dignity of her thirty inches and her thirty years, "This man (pointing to Molloy) ran over my dog and killed it I want him punished."

Certain rude individuals whispered remarks about Birmingham's holding the young lady in his arms. He began to shift Miss Haas from one arm to the other, and blushed Finally Miss McCusker, the probation officer, brought a chair, but the chair was not high enough The magistrate handed over a book, and then, standing on her rights as set forth in the Penal Code, Miss Haas finished her story.

She said the dog was in the gutter, and when Molloy approached she called to him not to run over her pet, but he only laughed and drove over the animal

No More 'Rats' in Hair Dress Orders, Telegraphs Chief

KANSAS CITY, Mo., Oct. 29.—"On and after November 1, all lady clerks and employes must discontinue the wearing of 'rats' in their hair dress. Please govern yourself accordingly. A. B. Richards, District Superintendent."

This order, issued from the office of the superintendent of the Postal Telegraph Company here, has become a matter of grave concern to the women clerks and operators in the employ of that company in this city. They declare that not only will the order compel them to appear out of date, but that the modern feminine hats cannot be worn without the universal "rat." The general feeling among the women affected is that Mr. Richards will find it difficult to enforce the regulation.

HYPOCRITES
Is What Countess Says About the AMERICAN WOMEN

NEW YORK.—'But, ciel' your ridiculous rule about a woman not being allowed to smoke in restaurants! It is ridiculous. Now, I enjoy a cigarette, and a am used to smoking when please. Your American women, I am told, smoke in secret. What hypocrites you are' I thought hypocrisy was confined to the English."

This is the opinion of Countess Louba Karnitzka, a young Polish woman who arrived from Europe only a night or two ago, and is staying at the Hotel Knickerbocker.

The Countess, who says she is 26, but doesn't look it, has come over alone to make a short tour of the United States. She doesn't speak a word of English, but she has many friends here, and, though she has been in New York only two days, she has already formed opinions She is the wife of an officer in the Chevalier Guards, the crack regiment of St. Petersburg.

Being a Pole, she does not like to live in the Russian capital, and has spent much of her time since her marriage, seven years ago, in Paris. Her father is General Baselevsky, who holds a high position in the Department of Justice in Poland, but the Countess is an unreconstructed rebel and does not like Russian dominion

The Countess is petite and slender, with dark hair and eyes.

"Do you know I have been enjoying walking in the streets here," she said "It is something I never did in Europe I enjoy looking into the shop windows, which are as beautiful as those in Paris

"I had what one might call a full evening yesterday. I went to dinner at the Plaza, to the play and then to a 'petit souper' afterward which was really as big as a dinner. Why is it that Americans look so downcast at meal time? At dinner not only every man about, but every woman looked so serious. Is it that they were buying an extravagant meal? And then at supper it was the same."

Love Has Gone

Love once made his home with me,
  Broke my bread and drank my wine,
On the coasts of Arcady.

How we praised the purple sea,
  Cool shade and the strong sunshine;
Love once made his home with me.

Joy we thought to hold in fee,
  Slave at Love's eternal shrine,
On the coasts of Arcady.

Death alone, we said, could free
  Hearts that love's dear chains entwine;
Love once made his home with me.

Leveled let my dwelling be,
  Love has gone and left no sign
On the coasts of Arcady.

All my future lost with thee,
  This I keep; the past is mine.
Love once made his home with me
On the coasts of Arcady.

FERRIAGE ACROSS SAN PABLO BAY

Promotion of Project of Benefit to Alameda County

BENICIA, Oct. 29. — The agitation for the establishment of a ferry across Carquinez straits between this town and Martinez, which was started recently at a meeting of residents of both places, is growing in scope and favor.

A committee for this county consisting of Supervisor J. E. Glendon, W. L Crooks, L. W. Kuhland and C. P. Stevens and Supervisor D. M. Fleming of Vallejo, has been named to act in conjunction with a similar committee of Contra Costa county in the work of furthering the project.

These committees will confer with the board of supervisors of their respective counties with the object of obtaining moral and financial support for the proposition.

It is is generally recognized that a ferry at this point would be of invaluable service to the traveling public in the matter of conveying across the water wagons, carriages, automobiles and livestock. The only method of crossing the straits at the present time with vehicles is by the Southern Pacific company's ferry steamer Solano. This boat is not equipped for such service and it is so inconvenient that but little travel of this character finds its way over this route.

Such a ferry service as proposed would not only be beneficial to the counties of Solano and Contra Costa, which have inaugurated the agitation, but to other counties, such as Yolo, Napa and other counties on the north and Alameda and the other counties adjacent to the bay.

It is proposed to organize a company to furnish the funds to purchase a boat and conduct the business, but as the business would not be self-sustaining for a year or two, the supervisors of Solano and Contra Costa counties will be asked to contribute something toward meeting the running expenses until it shall have been placed upon a paying basis.

NEW CLUB HOUSE SLIPS INTO SEA

Damaged Wharf Causes Building to Slide From Foundations--Is Moved

SAUSALITO, Oct. 29.—The Golden Gate Yacht Club's newly constructed clubhouse, fifteen feet in the water of Sausalito bay, hitched to a telegraph post with a stout cable to prevent it from becoming a derelict, is the sight presented to the numerous visitors who gathered yesterday along the water front to watch the efforts being made by the rescuing forces under Commodore Frank L. Maino to raise the submerged structure.

About ten days ago the naval tug Fortune rammed her bow into the clubhouse wharf, smashing three heavy piles, and just as negotiations between the yacht club's officers and the Navy authorities had progressed to the point where the latter were willing to repair the damaged foundation a heavy squall, which started at midnight, swept the already undermined foundation at 1.30 this morning, and the house slipped fifteen feet into the water.

PLACE WAS EMPTY.

Fortunately, nobody was in the clubhouse at the time, and thus fatalities were avoided, but a number of small craft that had been made fast to the wharf broke loose and floated out into the bay. The lookout on the revenue cutter McCulloch was the first to notice the condition of the clubhouse, and a boat was lowered which conveyed to it a rescuing party. Stout cables were hitched around the upper portion of the building and tied to a telegraph pole to prevent the structure from slipping out into the sea.

President L. C. Pistolesi of the Golden Gate Yacht Club, accompanied by Commodore Frank L. Maine, Fred Nodder and other members of the club, appeared on the scene soon after, but were unable to do anything beyond saving from the interior some valuable charts and other equipment.

Efforts will be made to raise the house if possible. The damage is estimated at several thousand dollars.

our Encyclopaedia Club will be a closed incident. Never again will such a book opportunity be offered Coast people. OUR STOCK IS PRACTICALLY EXHAUSTED.

Aside from its success in a business sense we are pleased to have been enabled to place these ESSENTIAL BOOKS *in the homes of parents, children and ambitious students, who would perhaps be unable to possess such a Library, except in this way—by paying a little amount each month.*

For the benefit of those who did not read our previous announcement we will explain:

THE SUNSET MAGAZINE, anxious to secure new subscribers, made a large and advantageous contract for an entire edition of the New Americanized Encyclopaedia.

In making this large contract, Sunset had no thought of profit, but that each purchaser would be a desirable subscriber. In short, that they would sell the books without profit at the very lowest wholesale price to those who would subscribe for Sunset for two years, relying on advertising and the future for profit.

The Emporium, glad to center the interest of book-lovers on its superior Book Department, arranged with SUNSET to distribute a limited number of these sets in San Francisco and vicinity, accepting a merely nominal fee covering the cost of handling.

EASTERN TEACHERS ARE NOT BARRED

California Schools Do Not Discriminate Against Outsiders

SACRAMENTO, Oct. 29—A protest from Willard N Parker, managing editor of the Wisconsin Journal of Education, against what he terms "an educational Chinese wall around the borders of the California school system," shutting out Eastern teachers from employment in the State, has incited State Superintendent of Public Instruction Hyatt to start a campaign through which he intends to correct this impression which has gained circulation in many parts of the nation

In the State Superintendent's office it is believed that this impression has become common through the fact that there is such a demand among American school teachers for positions in California that it is impossible to supply even a small portion with places. As an illustration, the experience during the past few weeks is cited Scarcely a day went by, prior to the opening of public schools in this State, that some Eastern school teacher fresh from a visit to the Seattle exposition and a subsequent sojourn in this State, where she became forcibly impressed with California as a place of residence, did not appeal for a position here

REFUTATION OF CHARGE.

In refutation of this charge that California attempts to exclude teachers from other States, attention is called to the fact that it has an accredited list of 110 normal schools outside of its borders, that fourteen States have life diplomas or life certificates accredited here, and that forty-six kindergarten training schools of the East are accredited in California Graduates from any of these 170 institutions of the country may teach in California without passing an examination The accredited list mentioned does not include the higher universities

This great demand on the part of teachers for California schools enables the State authorities to maintain the highest possible standard, and unless a teacher fills especially good qualifications it is impossible to secure a position in this State, but as far as a protection tariff on pedagogues or any other form of exclusion is concerned, it does not exist, emphatically declares Mr Hyatt and he intends to correct this impression abroad as much as possible

Editor Parker, in the letter in which he requests the information, acknowledges the receipt of a copy of California's new school laws and expresses appreciation, saying that it contains many suggestions for legislation which will prove beneficial to Wisconsin's school system

CAN'T BE ANYTHING BUT 'JUST WOMEN'

Standard Oil Judge Tells Them They Are Unfitted for "Higher" Callings

CHICAGO, Oct. 29.—"You can't be theologians, because you haven't the power of analysis; you can't be lawyers, because you are devoid of the reasoning faculty; you are not successful scientists because you can consider only one detail at a time, you are only occasionally successful in business and you succeed only in those branches of medicine which call for the exercise of the nursing instinct."

Federal Judge Peter S. Grosscup told the women of the Ossolin Club, the women's auxiliary of the Highland Park Club, all these things last night in an address at the first meeting of the club this season in the clubhouse of the men's organization.

But he escaped the vengeance that might otherwise have been wrought upon him by telling the women a lot of things they can do and which they must do if this old world is to roll along unchanged in the course mapped out for it.

"But," he said, "I wish to present an analysis of women's work from my point of view. The only woman lawyer I know who is a success in her profession began her career by being put in jail for contempt of court for throwing a pitcher of water at a judge who overruled her motion In law, theology and medicine she rarely succeeds, she can't be a scientist because that involves a multitude of details, and while woman is essentially a creature of detail, she can consider but one detail at a time, and not many in their relation to one another."

Nature's Gift from the Sunny South

Lard Is An Animal Product Cottolene Is a Vegetable Product

Many people believe with Moses, the great law-giver, that the source of lard is unclean. The source of *Cottolene* is absolutely clean and wholesome, and the product is as healthful as olive oil.

Cottolene makes food that any stomach can digest, while lard is the cause of nine-tenths of all indigestion.

Cottolene is the best frying and shortening medium made to-day. Wherever exhibited in competition with any and all other cooking fats, it has always been granted Highest Awards.

Men's Suits and Overcoats $15 to $40

That you buy with the distinct understanding that they prove their superiority to you or your money back.

You be the Judge

After all is said and done, the man who wears the clothes is the man to be pleased. It doesn't matter that we know our values are greatest—it's what you think of them that counts.

That's why we say: Buy a suit or overcoat, wear it a week, or two weeks, compare it with any you see elsewhere at $10 more than our price, test the wear, the style, the fit, the character and the value.

We leave it entirely to you—unless you find our garment superior in every way, we want it back at the price you paid us.

It takes mighty good clothes to live under this test. That is why we begin our line at $15 and make only the highest quality. But making them, instead of buying them of makers, gives us this advantage, which we in turn give you.

SISTER BAFFLES DE LAVEAGA'S ATTORNEY

Sits Calmly on Witness Stand Ready to Resist Efforts to Entangle Her

LETTERS FROM WOMAN TO BROTHER ARE READ

Never Left Dead Girl, Declares Mrs. Cebrian When Cross Questioned

SAN FRANCISCO Oct 29—Ready to parry the thrusts of Attorney E. S Pillsbury representing her brother who is endeavoring to secure a portion of the $2 500 000 left her by her sister, Maria Concepcion de Laveaga Mrs John Cebrian sat calmly upon the witness stand in Judge Coffey s court this morning and did her best to resist the efforts of counsel to contradict her statements and to entangle her in her testimony

Letters written by Mrs Cebrian to Miguel de Laveaga formed the chief basis of the evidence and several times a verbal tilt between the witness and the attorney occurred in the efforts of each to make the other clearly understand their meaning

One of the first letters offered in evidence was that written by Mrs Cebrian on November 19 1897 in which she says

LETTERS ARE READ

I fear Judge Coffey will not decide anything this year and that the suspense will last another year This uncertainty has placed me in an atrocious state I would not want to expose Maria If Judge Coffey should decide in our favor then I would like to come back to California

This missive was sent during the time that Judge Coffey was deciding the original will of Mrs Cebrian s father by the terms of which Maria Concepcion de Laveaga received such a large amount of property Previous to this in December 1896 Mrs Cebrian wrote

REFERS TO WORRIES

"After all these worries, when the day arrives that God wills I shall leave here I shall take my children with me to California We think of you and your worries and wish we were with you I tremble to think if I should die—I who am worth but little—what would happen to poor Maria "

Attorney Pillsbury was particular to ask the witness whether she had ever chided Maria for going out in bad weather and she replied firmly that she had not and that she had not disciplined her in any way but had let her do as she chose

Counsel then secured her identification of another letter in order to if possible obtain a contradiction

FEARS FOR MARIA

"Winter is approaching she wrote to Miguel and it is predicted that we will have much snow I am making provisions for heavy clothing for poor Maria whose cough is very bad and who will persist in going out when the weather is bad which causes me to be very angry with her

The attorney made an effort to discover whether at any time Mrs Cebrian had left Maria but she denied that they had ever lived apart

Flyholme Tires of The 'Fly' and Wants To Be Plain Holmes

In this age of the conquest of the air and the development of the art of aerial navigation as the widest field now open to genieus, Hans Flyholme was burdened beyond endurance with the "fly part of his name He could not stand it It opened to wide the avenue for jest and pun, people thought him "flighty and urged him constantly to be homeward bound whereas he argued that he was outward-bound most of the time

All this is set forth in a petition to have the name changed to clip off the wings and make it just plain 'Holmes ' After that he feels that he will be a sedate citizen and that no one will accuse him of not having his two feet planted solidly on the earth

KEPT ALIMONY AS FEE; JUDGE SUMMONS LAWYER

SAN FRANCISCO, Oct. 29.—Police Judge Deasy this morning issued a subpoena for Attorney James Brennan, who is taking part in local politics, to explain his actions in connection with securing a fee from Charles Garcia, whose wife obtained a divorce from him.

Mrs. Garcia had her husband arrested for failing to pay alimony and the latter promised to secure employment and hand over the money. He proffered $10 to Judge Deasy the next day, saying he did not know where his former wife lived.

The jurist instructed him to give the money to Attorney Brennan representing Mrs. Garcia, and when a few days later he received a letter from the woman saying that she had not seen any money, he discovered that Brennan had retained the $10 as a fee and accordingly this morning summoned him into court.

G. F. Davis subscribed to a will at the receiving hospital where he lay dying after a serious operation for an internal trouble and today i nthe absence of heirs, Judge Ogden issued letters of administration to Public Administrator Mehrman through Attorney A. P. Leach.

DECLARES WIFE IS KLEPTOMANIAC

Man Arrested for Desertion Alleges Spouse Steals--Takes Her Back

Clarence L. Gipson, who was accused by his wife, Myrtle Gipson, of having deserted her during Portola week, and who was arrested in Pasadena and brought back here for trial, had the charge of desertion dismissed before Police Judge Samuels this morning on motion of Prosecuting Attorney Hennessy.

Since Gipson's arrest several sensational developments ensued, principal among them being the accusations of the husband that he had discovered that his wife was a kleptomaniac. He stated that he had found among her personal effects silks and other goods which had evidently come into her possession unlawfully.

Before the charge of wife desertion was dismissed, however, Gipson promised to support and maintain his wife. The wife was taken into custody yesterday by Detective Harry Green at her apartments in the Oxford rooming house on Franklin street. Some of the materials alleged to have been stolen were also taken from the place.

Both husband and wife will leave on the 4 o'clock owl train for Pasadena this afternoon. Captain of Detectives Petersen states that in his opinion the charges against the wife will not be pressed.

WILLIAM GOEGGEL IS ROBBED ON STEAMER

NEW YORK, Oct. 29. — William Goeggel, a retired builder of San Francisco, who returned yesterday on the Hamburg-American liner Bluecher from a long tour of Europe, announced upon landing that he had been robbed of $2500 worth of jewelry. He said the stuff was taken from a trunk in his stateroom and he suspects three Americans who boarded the Bluecher at Boulogne with the apparent intention of remaining until the ship reached New York, but who left quickly at Southampton.

Goeggel happened to meet these Americans as they got aboard and talked with them at some length. They knew the location of his stateroom. While his wife and two children were in the dining-saloon, two of the Americans engaged Goeggel in conversation in the smoking-room, and he believes that the third man went to the stateroom and forced the trunk containing the jewelry.

SURROUNDED BY OAKLAND'S NEW CITY PARKS

GRAND AVENUE ... HEIGHTS ...

BETWEEN PIEDMONT AND THE LAKE

OAKLAND'S CHOICEST RESIDENTIAL SECTION

---Telephone us tomorrow when to call Sunday with the automobile

TELEPHONE OAKLAND 147

This is the way the telephone will be working tomorrow:

--Hello! Is that the Frank K. Mott Co? Could you call at 1343 Jones street about 2 o'clock Sunday afternoon, with your auto. My husband and I want to go to see Grand Avenue Heights at the head of Lake Merritt. Thank you very much."

--We expect a great many visitors at Grand Avenue Heights next Sunday. Some will go out in our machines, others will go out in their own autos and others will take the Grand avenue cars at Fourteenth and Broadway and get off at Grand Avenue Boulevard and walk to the lots. (It's only about two blocks.)

--On the way out there, however, we want you to notice the following facts:

--First notice how Adams' Point has built up in three years and then notice how much more beautifully Grand Avenue Heights is laid out from a scenic standpoint.

--Next notice the tremendous development of city Parks between Lake Merritt. Grand Avenue Heights and imagine, if you can, the beautiful scenic effect that will be possible from some of the higher lots. Residents will be able to look over a panorama of parks, across Lake Merritt, over the bay clear to San Francisco.

--Next notice how near to the center of Oakland the tract lies--in fact Grand Avenue Heights is within the city limits.

--Then notice the character of the homes that are being erected. You'll see that they're all fine, big houses, not little bits of cottages, but pretentious homes.

--Then notice how close the property is to Piedmont and how rapidly Piedmont is growing **towards** Grand Avenue Heights.

--And lastly notice the vast differences in prices between similar lots in Adams' Point, Piedmont and Grand Avenue Heights. You'll find that the good lots in Adams' Point cost from $5000 to $8000. That there are no lots in Piedmont anywhere near as pretty as those in Grand Avenue Heights and that they're almost as expensive as the lots in Adam's Point.

--Then see what $1800 or $2000, on terms, will buy in Grand Avenue Heights. If you know anything about comparative real estate values you'll be thunderstruck at the lowness of the prices in Grand Avenue Heights.

--If you do not go out there pretty soon, however, it will be too late. And then it will be the old, old story "Why didn't I get a lot when I had a chance."

BOYS ESCAPE WITH BOAT LOAD OF STOLEN SALMON

SAN FRANCISCO, Oct. 29. — David Finnie a watchman for the Alaska Packers' Association, came upon three boys stealing salmon and putting it in a row boat, while patrolling Spear street wharf. The lads hurriedly drew away from the pier, and in an effort to stop them, Finney fired a shot. WRINKLES

OAKLAND TRIBUNE
FREE BEAUTY COUPON

Good Tomorrow for This World's Most Famous Beauty Specialist.

An opportunity is now offered every reader of this paper to consult the world's most famous beauty specialist Harriett Meta, of Paris, London and Syracuse, absolutely free.

A little over three years ago there was nothing known which, in our judgment, would actually remove wrinkles, but at that time Mlle. Meta made the important discovery which has since made her famous in two Continents.

She demonstrated the great power of her new process by taking her own wrinkles out with it in three nights, after face massage, masks, straps, steaming pots, etc had all failed, and today Mlle. Meta's face is still free from wrinkles, her cheeks full and plump and her skin and complexion is a delight to behold. In fact, by many she is considered the most beautiful woman in all Paris.

Her remarkable discovery was brought before the judges of the Paris International Exposition and the Rome Exposition Internationale for their investigation, and in both instances they quickly awarded her Gold Medals thereon. The French Government also honored her with a patent on her new process, and patents are now pending before the U. S. Government at Washington.

London journals sent their Beauty Editresses to investigate her methods, and their high endorsements of her discoveries made her famous almost overnight, so that she was eagerly sought after by French Comtesses and English Ladies of high title and rank. The Beauty Editress of the London Onlooker wrote: "An interview with Mlle Meta left me persuaded that here at last might be found the secret to restore youth and beauty."

Many of those who have used her process report most astonishing results. Mrs. Mary J. Davis of East St. Louis, Ill., says: "My wrinkles were very deep and of long standing, so you can imagine my surprise when, after only two applications, they entirely disappeared." Mrs. L. E. Haskell of 2502 Clay St, San Francisco, writes: "I am fifty years old. Consequently my wrinkles were of long standing and I had not thought it possible to erase them, but now when I view my changed reflection in the mirror I can scarcely realize the transformation that has been wrought." Mrs. M. A. Edwards of Raleigh, N. C., says: "Since using the Treatment I look younger than I did twenty-five years ago." Mrs. M. L. Lee, 110 S 4th st., Richmond, Va, writes "I used the treatment one night and it succeeded in entirely removing my wrinkles, leaving my face as soft and free from lines as a child's."

Since Mlle. Meta made her remarkable discovery imitators have naturally sprung up all over the country. Some of them have copied Mlle. MUCH DANCING IN BENEFIT BALLET

Society Girls in Pretty Costumes to Predominate at Charity Event

Much interest is being manifested in the spectacular ballet which will form the grand finale in the society vaudeville and entertainment to be given at Ye Liberty Playhouse next Tuesday night for the benefit of Fabiola Hospital. The ballet is in three parts and will be danced and acted to the music of "The Bells of Carneville." Those in charge of this end of the program have arranged many startling and artistic electrical and mechanical effects and claim the ballet will vie with a New York production in its scenic splendor and brilliant costuming

APPLE TREE DANCE.

The opening scene will show a village with its rustic houses and rural surroundings. Miss Martha Huckett will open the program with a French cadet dance. She will be clad in a striking military costume replete with gold brain and brass buttons. Following Miss Huckett's dance will come one of the many pretty scenic features of the ballet. It is called the Apple Tree dance and show six charming country maids on as many step ladders picking big red apples from the trees. Below are the country lads, who apparently are in luck, for they are favored with smiles as well as apples from the lasses.

This will be followed by a Spanish Duo dance, performed by Miss Elsie Mulligan and Dr. Fred Davis. Another artistic effect, called The Skipping Rope dance, in which the entire cast will appear, introduces a number of novelties. Bells and chimes on the ropes will harmonize with the orchestra music.

IN SPANISH GARB.

Another specialty in the first scene will be the Spanish dance, performed by Willard Barton and the "Six Alameda Girls." This dance will give opportunity for the display of beautiful Spanish costumes with their flaming scarfs and shimmering spangles. The finale of the first act will be a Maypole dance, in which the entire company participates.

The frivolous gayety of scene one will change to a wierd, ghostlike silence in the following act. A chateau is seen, in which the old miser is counting his gold by the light of an oil lamp. The entire cast, clad in vari-colored dominoes, appear and take part in a mystic ghost dance to the accompaniment of wierd music.

The scene again changes to one of garden fete in which more than a hundred merry makers will take part. The illuminations in this scene will be beautiful. Festoons of colored incandescents, arbor effects of Japanese lanterns, floral decorations of every description and brilliant colored flags and streamers will make this scene gorgeous in the extreme.

FLIRTATION FINALE.

The flirtation pantomine, which is said to be one of the best novelties on the program will form the grand finale.

Among those who will tagke part in "The Bells of Cornville" are the following: Miss Rae Morrow, Miss Sevilla Hayden, Miss Helen Allen, Miss Lucy Fennessy, Miss Gertrude Bell, Miss Vera Cope, Miss Caroline Hall, Miss Plummer, Miss Nason, Miss Gladys Emmons, Miss Ursula Lungan, Miss Elsie Mulligan, Miss Martha Hackett, Miss Helen Lowden, Miss Lilly Lovell, Miss Madeline Clay, Miss Susan Harrold, Mrs. Thornton White, Messrs. Walter Hush, Warren Harrold, Dean Allen, Spencer Cahill, Clarence Shuey, Austin Sperry, David Hartley, Aal Allen, Warren Cope, Willard Barton, Dr. Fred Davis and Dr. Fred Wilkins.

RECOMMEND MEAT INSPECTION LAW

Ordinance and Judiciary Committee Urge Passage of Anti-Disease Measure

The ordinance and judiciary committee of the city council last night recommended for passage the ordinance prepared by the Board of Health in conjunction with a committee from the Butchers' Exchange and representatives of the wholesale and retail butchers.

The measure provides for the inspection of all livestock before slaughter, with the exception of that which is killed outside the city limits. Calves, sheep, goats and other small animals used as human food which are killed outside the city limits of Oakland when shipped here for consumption will have to have the viscera still within the carcasses to permit the meat inspector or his deputies to determine whether or not the animals were diseased.

FAVORED BY BUTCHERS.

The Butchers' Exchange, which brought about the much-needed reform, was satisfied with the ordinance as recommended, although there were one or two minor matters which the members of the Exchange thought could be improved on. The Butchers' Exchange was represented by the following: W. J. Cox, chairman, C. A. Bright, O. G. Newhall, Captain J. McMenomy, T. H. Nevin, W. M. Pitts, W. R. Harper, J. H. Lesser and J. Hammel.

Captain McMenomy was of the opinion that the present ordinance had been prepared by the meat trust and was opposed to it on that ground. While he was vigorous in his statements, he did not find much support among the other butchers present.

One of his points of contention was that cattle should stand longer before killing than provided for by the ordinance.

CARCASS SHOULD STAND.

"Three or four days should precede the killing of beef to permit a cooling of the blood. Cattle rushed from a train to a slaughter house do not bleed when killed. The blood remains inside the carcass and spoils the meat. This blood weighs about 32 pounds, and unless it is drained off properly, it will remain in the meat. When cattle are feverish they do not bleed, hence the necessity of allowing them to stand for several days and drink all the water they wish."

The committee decided that twenty-four hours for cattle and twelve hours for calves was sufficient. This recommendation was unanimously adopted.

The only other point decided was that hogs should be inspected at the time of killing. Dr. R. A. Archibald, the city meat inspector, stated that it was impossible to tell a diseased hog after it had been killed and the entrails removed. For that reason he deemed it of the utmost importance that all swine should be inspected before killing, as from 30 to 100 per cent of milk-fed hogs were affected with tuberculosis.

IN MEAT TRUST'S FAVOR.

The Butchers' Exchange, through C. A. Bright, expressed their dissatisfaction with this provision, stating that it was playing into the hands of the meat monopoly, as it would prevent a farmer with a few hogs from selling the same to any person or firm with the exception of the large slaughter houses.

Health Officer Ewer stated that he thought it more advisable that a few farmers should be inconvenienced than that the residents of Oakland should be compelled to eat tubercular hog meat.

After much discussion it was decided that hogs should be inspected before they were killed.

In all other respects the ordinance was recommended as it came from the joint meeting between the butchers and the Board of Health.

IMPRESARIO MAY SUE MRS. MACKAY

Hammerstein Says She Did Not Pay for Fiddlers at Musicale

NEW YORK, Oct. 29.—A controversy which may lead to a lawsuit has grown out of the musicale which Mrs. Clarence Mackay tendered to her guests in her home here on January 31st.

Oscar Hammerstein, the impressirio, asserts that Mrs. Mackay borrowed his orchestra for the occasion, with Maestro Campanini as leader, and that he has never received payment for the services of the musicians. There were seventy players present.

SAYS SHE PAID.

Hammerstein's contention is disputed by the hostess and Mr. Mackay, who are of the opinion that Campanini and his orchestra were well paid for their services. The Mackays object to paying the same bill twice and have refused to consider the opera manager's claim.

Oscar Hammerstein made the following statement tonight in regard to the matter.

"The facts are simple. Mrs. Clarence Mackay engaged my orchestra and Maestro Campanini for a musicale at her residence. She never paid me one dollar for them.

LEADER GOT MONEY.

"It is quite possible that she may have presented Maestro Campanini with a diamond scarfpin or some other trinket as a mark of her appreciation of his services. I have heard, too, that she gave the orchestra a few hundred dollars. I have never seen any of her money. Mrs. Mackay has vouchsafed no reply to my communications."

When Mrs. Mackay was seen by a reporter she referred him to W. W. Cook, her attorney. He said:

"Mr. Mackay engaged the orchestra for the entertainment through Campanini, and Campanini said that a bill would be rendered. A bill was presented, and it was a substantial bill. The bill was paid.

"That was last January. Now Mr. Hammerstein presents an additional and much larger bill, about ten months after the entertainment took place."

BOY OF FOUR SAVES TOT AGED TWO IN BIG POND

CHICAGO, Oct. 29.—Little 4-year-old George McNary tried to save his girl playmate, Leona Koehler, aged two, from drowning in the lily pond in Lincoln Park yesterday. He could not drag her out, but he got her into shallow water and then found a policeman.

The children had strayed away from home. Leona fell into the pond while trying to catch one of the duck. George waded in and managed to catch hold of the child's dress and drag her toward the shore.

He made Leona hold to a branch while he ran for help. Officer Martin Burns was in a nearby birdhouse and rushed to the child's aid.

Leona was wrapped in a warm blanket and an officer took them both to their homes.

JOHN D. STARTS FUND TO FIGHT "HOOK WORM"

NEW YORK, Oct. 29.—John D. Rockefeller has set aside a fund of $1,000,000 for the purpose of fighting the "hook worm disease," that newly discovered malady which has been called the "Vampire of the South" because it produces the "crackers," the "dirt eaters" and the "poor white trash" who for generations have been holding Dixie land back.

Rockefeller also appointed a committee of leading scientists of the country—officially styled the Rockefeller Commission for the Eradication of Hook Worm Disease—to administer the fund and carry on the battle of the rejuvenation of the South.

Rupture

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Slips No Obnoxious Springs or Pads—Costs Less Than Many Common Trusses — Made for Men, Women or Children.

Sent on Trial

I have invented a rupture appliance that I can safely say, by 30 years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is light, cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. There are no springs or hard, lumpy pads and yet it holds the rupture safely and firmly without pain or inconvenience. I have put the price so low that any person, rich or poor, can buy, and I absolutely guarantee it.

Jas. Britton, Cured of Rupture by C. E. Brooks.

I make it to your order—send it to you—you wear it, and if it doesn't satisfy you send it back to me and I will refund your money.

That is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

Here is what Mr. Jas. Britton, a prominent manufacturer of Bethlehem, Pa., writes:

"C. E. Brooks, Esq. Dear Sir: I have been ruptured six years and have always had trouble with it till I got your appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact at times I did not know I had it on. It just adapted itself to the shape of the body and clung to the spot no matter what position I was in. It would be a veritable Godsend to the unfortunate who suffer from rupture, if all could procure the Brooks Rupture Appliance and wear it. They certainly would never regret it. My rupture is all healed up and nothing ever did it but your appliance. Jas. Britton."

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Write me today and I will send you my book on Rupture and its Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no lies. Just a straight business deal at a reasonable price. C. E. Brooks, 1380 Brooks Bldg., Marshall, Mich.

Proposes Half Holiday for Commuters to Vote on Bonds

PROGRESSIVE CITIZENS ALL WORK IN GOOD CAUSE

Harbor Improvements Issue and Annexation Must Carry for City's Future Welfare, Says Mayor

All the tremendous energies of the progressive element of this city are being exerted in the supreme effort to carry the bonds for harbor improvement and municipal betterments as well as in enlarging the city's area

The army of workers has been organized to carry on the crusade and every hour recruits by the score are being enrolled who are pledged to use their utmost efforts to win success at the ballot box on November 15 and 16

The campaign as outlined and programed leaves nothing to the hazard of doubt, but every voter will be canvassed and his sentiments obtained Organization, discipline and system are the order of the day in the battle that is being waged under the banners of "Bonds" and "annexation"

Mayor Mott declares he has no doubt that both propositions will carry by a big vote

All Must Work

"But we should not lie back on our oars, we must all work for both projects," said the Mayor "Too many things have gone by default in the past history of Oakland simply because a large class of our citizens were over-confident and neglected to vote What is everybody's business is nobody's business, and therefore we must organize to carry the measures now before the people I hear of very little opposition and have every confidence in the outcome of both elections, but it does not pay to hazard the results by any negligence or lack of effort on our part I am going to try and have the San Francisco Chamber of Commerce and other commercial bodies formally endorse our bond issue The dock projects are complementary to the harbor system of San Francisco, and it is to the common interest of both cities that wharfage facilities should be developed to the utmost in order to accommodate the sea going traffic following the completion of the Panama Canal

Must Hold Traffic

"As I have reiterated time and time again, we must be prepared to accommodate it on this bay or it will be wrested from us by other seaports to the manifest injury of both cities It was the great grain docks at Port Costa that held the grain trade at this port to the benefit of our own producers and when in the zenith of its prosperity brought 700 and 800 clippers and sea-carriers into this harbor. Port Costa did not injure San Francisco, but benefited them as well as to some degree this city

"President I H Clay of the Chamber of Commerce and the commander in chief of the Oakland Army of Progress, is formulating plans to extend his battle lines into San Francisco

"We are after the commuters They must help in this fight I am figuring on a plan to interest every big house in San Francisco having employes living on this side of the bay to give them half holidays on November 15 and 16 so they will have time to remain here and vote for bonds and annexation I know of a number of Oakland residents doing business in San Francisco who will readily acquiesce in the proposition"

ROUNDING UP AUTOS

F B [illegible] ll speaking on behalf of the Real Estate Association declares that organization will exert its utmost efforts to carry the [illegible] issue and annexation

"We will work in harmony with the general plan of campaign" said Mr Bull "and we are rounding up all the automobile owners [illegible] the use of their machines [illegible] days and evenings [illegible] when [illegible] I have [illegible] doubt [illegible] projects will roll up a tremendous [illegible] the biggest majority [illegible] advertisement for the city

"But it is not wise to rely [illegible] confidence Every good [illegible] citizen will [illegible]

MEET AT FORUM

From [illegible] the executive staff of the campaign will assemble at the Copenhagen room at the [illegible] Cafe to which all those interested in the battle fray are invited to meet

Tonight a big meeting of the progress and prosperity committee will be held at the Chamber of Commerce apartments at which Bonds and Annexation will be the feature of the program

PLAN OF CAMPAIGN

A meeting is now in progress at the apartments of the Chamber of Commerce at which a plan of campaign is being discussed and the best methods [illegible] suggested for carrying the bond issue and annexation [illegible] was the result of a suggestion on the part of the leading merchants to get together and [illegible] of the [illegible] photo [illegible] those representing the [illegible] of the city [illegible] attend the meeting The attendance is [illegible] gratifying indication that the big establishments of the city are eager and anxious to promote the cause of the bond and annexation

Among those present were the following

[illegible] H C [illegible] nnell M J Keller [illegible] Hanson [illegible] Kahn H Morrison H [illegible] Howard Osgood Charles H [illegible] F Adams B P Miller Emil [illegible] F I Taylor R H Miller Charles Smith Arthur H Breed Mr Olsen manager John Breuner [illegible] C W Kinsey [illegible] H I Kent representative Jackson Furniture Co F A [illegible] Jr J I [illegible] C J Downey C L Sm[illegible] Manager [illegible] of St Mark's Hotel John Jordan I H Clay C W [illegible] J W F[illegible] Charles Smith [illegible] Wiel[illegible] H [illegible] M J Lay[illegible] F [illegible] Bull Charles K [illegible] M J Ta[illegible] nce Mayor F K Mott Walter F Mackay [illegible] F Will [illegible] J J Hanifin George A Russell H well D [illegible] Co Smith Bros [illegible] A B[illegible] Kist[illegible] H [illegible] W [illegible] Jurgens L [illegible] Colbert [illegible] H N Sanborn A S Lavenson H [illegible] Kemp W M Gardner W F [illegible] and [illegible] a hundred others representing the business and industrial activities of the city

ANNEXATION COMMITTEE

The annexation committee directed by Frank W Bilger is already at work upon the campaign of arousing the interest of the voters in the city of Oakland as well as those in the districts [illegible] destinies are sought to be joined with those of this city

A headquarters will be established today said Mr Bilger to arouse interest in the annexation movement among our own people R B M[illegible] is the chairman of the central committee [illegible] annexation district is in charge of [illegible] out there Among those who are attending meetings [illegible] there are [illegible] Dickson ex-Supervisor J P [illegible] Charles F Lee and John Aubrey Jones besides many score of others [illegible] prominent in the affairs of the districts proposed to be annexed

Charles F Cole who was secretary of the [illegible] reception committee serves in a like capacity for the annexation committee A comprehensive plan of campaign in the way of educating the voters of Oakland up to the advantages of building in the outside district is being devised while the annexation enthusiasts in the outside sections are by public meetings and other methods of appeal urging [illegible] to join the future of those districts with the splendid destiny of Oakland

PLANNING THE WORK

At a conference held this afternoon between J W Garthwaite in command of the bond division and F W Bilger of the annexation department it was decided that both branches of the campaign would be worked in harmony with Charles K Cole as chief of staff

Headquarters will probably be established in the NW corner of Broadway and Twelfth street

Each of the commanders will appoint a staff of adjutants to receive reports and assist in carrying out the general plans of the campaign For bond and for annexation [illegible] will be ready for distribution [illegible] or two and all [illegible] voting [illegible] or both projects are [illegible] to display them in their coat lapels so that the prevailing sentiment of Oakland will be in evidence J W Garthwaite declares that no stone will be left unturned so far as he is concerned to carry the bond issue by an overwhelming majority

[illegible] the least doubt but that we will [illegible] victory but it is not [illegible] to let it rest at that [illegible] Mr Garthwaite Remember one vote against the proposition equals in power two ballots cast in its favor and you know how we are here We feel sure of our ground and leave it to the other fellow to do the voting with the result that the antis carry the day This will not happen on this occasion if argument appeal to civic pride bettering of conditions—and yes physical force if necessary—are of avail

'POKER PLAYERS, NOT JUNKETERS' SAYS TAFT

"Study of Facial Lineaments Principal Pursuit of Congressional Party"

EXPECTS TO REACH NEW ORLEANS TODAY

Boats in Rough Tactics to Get Place in Line--Oration at Natchez

NATCHEZ Miss Oct 29 — Not since the day the battleship Mississippi visited Natchez and won the river speed record from this city to New Orleans has there been such a crowd on the bluffs as greeted President Taft on his arrival here today on board the lighthouse tender Oleander

The President was nearly three hours behind time Light of the other vessels of the waterways fleet were in sight when the Oleander pointed her nose into the bank The Oleander outdistanced the others, but got into difficulties last night She was blocked in the Vicksburg harbor canal by boats arriving later and it took an hour and a half of river profanity and considerable tact to get her clear

OLD RIVER TACTICS

Once out of Vicksburg harbor another incident occurred which is likely to cause trouble to some of the river men

The Erastus Wells won second place in the line yesterday in the free-for-all run from Helena to Vicksburg The steamer Altona which is declared to be faster than the Wells tried to push into second place as the Oleander was leaving last night and for a minute or more there was an exciting and dangerous scene suggestive of the old days on the Mississippi

Great clouds of smoke poured from the stacks of the boats and occasional flashes of flame belched from the black clouds The masters were trying to push one another out of line as they rushed along

ALTONA DROPS BACK

The struggle continued until the two racers were at almost the stern of the Oleander As they came within hailing distance Commander Tillman admiral of the fleet called some orders through a megaphone which set things straight He directed the Altona to drop astern of the Wells and the race was over

Secretary Nagel of the Department of Commerce under whose direction the steamboat is was on the top deck of the Oleander watching the midnight race

The idea of waiting outside of New Orleans for the straggling vessels of the fleet has been abandoned and the Oleander will enter the harbor just as soon as she can get there It is hoped this will be by noon at the latest

OVATION AT NATCHEZ

President Taft was greeted here by Mayor Benbrook and a reception committee The Mayor made a brief address of welcome and the President responded

Leaving the steamer the President and many of the visiting Governors who arrived on the St Paul were taken for an automobile drive through the city The ride ended at a court of honor on the bluff where the President made a brief address

In his speech at Vicksburg late last night the President had a little fun with the congressmen on the river trip and on board whose steamer it is said nine poker tables were provided Addressing the presiding officer at the Elks club the President said

You have intimated that somebody thought it was a junket Well that depends upon what you mean by a junket If it is to be defined as the man defined his pleasure when he did not take his wife with him it is a junket If it means a journey full of pleasure and with no work and no effort in it then I deny that it is a junket

DENIES IT'S JUNKET'

You could understand the motive that prompted a member of the congressional party to that study of human nature in which he learned so much of the lineaments of the human countenance and how they may be framed to deceive the pictures that are presented to the eyes

Therefore I deny that this is a junket It never is a junket where the winners have gone home and the losers are getting even

I would not have you think — those of you whose experience fits you fully interpret the meaning of my remarks — that our eyes in going down the river have not been properly directed to the waterway before us under us and back of us and to the shores on each side in the study of the very difficult question that presents itself as to the improvement of this river

There are those of us who are convinced beyond any chance at all as to what ought to be done There are those of us who are most willing to be convinced and yet are still somewhat doubtful as to the method which ought to be pursued as to the policy that ought to be undertaken in improving this waterway

Calls later than 10 30 o'clock

Parties and hops that last longer than midnight

Women at fraternity houses not officially chaperoned

These rules are more severe than any that have ever been operative here and the faculty declares they will be rigidly enforced

EDITORS KISS AND MAKE UP IN COURT

SAN FRANCISCO Oct 29—'I apologize' said Jasos Montanos to Etoore Patner in Superior Judge Cabaniss court this morning and as the two men shook hands a charge of libel brought against the former was quickly dismissed.

Both are editors of rival papers and the political preferences of the two journals and their antagonistic statements regarding each other were responsible for the arrest of Montanos at the instance of Patner on a charge of criminal libel

Both had agreed to overlook their differences provided a formal apology was made, and Judge Cabaniss, in a very delicate manner, brought about an amicable result

ATHENS Greece Oct 29 — An actual revolt in the navy has taken place and the situation is acute The band of naval officers which on Wednesday quitted the capital and withdrew to the Island of Salamis today seized the arsenal there and are now entrenched They met with no opposition

The rebels are led by Lieutenant Tibaldos and are reported to number 200 men. The government has proclaimed Tibaldos a traitor and ordered his arrest

Lieutenant Tibaldos, who heads the revolt is the commander of a flotilla of torpedo boats and submarines It appears that he demands that he be appointed Minister of Marine and threatens that if this be not conceded he will overthrow the government and establish a dictatorship

If Tibaldos succeeds in winning over the fleet as it is rumored he will, it is feared he will be in a position to carry out his threats

Meanwhile an element in the military league, which is opposed to the revolt, has issued a proclamation denouncing Tibaldos as a traitor who broke his oath to the league

'FRAME-UP,' SAYS CHAMBER OF COMMERCE

Quit City Hall Quarters--but Rip Up Council Before Haking Leave

"IT'S INSULT,--PEANOT POLITICS THEY ALLEGE

Request to Move Made at Behest of One Member Only of Electric Commission

ALAMEDA, Oct. 29 — Characterizing the City Council as discourteous and the process by which the action to oust the Chamber of Commerce from the city hall as a frame up, a clumsy piece of statesmanship and the action itself as "an insult to the commercial interests of Alameda," the Chamber of Commerce directors last night voted unanimously to vacate their quarters in the city hall at the earliest possible moment.

They are considering new quarters on Central avenue between Oak and Park streets and it is probable that within the next two weeks the organization will have brought to a finish the political campaign which for several months has been waged against it.

LAY BARE 'FRAME UP'

Incidentally, without mentioning any names, the directors of the Chamber of Commerce laid bare last night what purported to be a portion of the municipal 'frame-up.'

The matter was brought to a head when the committee on new quarters reported their findings to the directors. E. O. Putzman after filing the report asked whether or not the Council had notified the Chamber of Commerce to vacate.

"We have received no official communication," said President D'Evelyn. "All we know of the matter is what we have gleaned from the papers and heard on the street. It has been urged, I believe, that these quarters are needed owing to the emergencies of the electric light commission. They expressed a desire, it is said, for these quarters."

Dr. D'Evelyn referred to the apparent undercurrent which brought about the present situation and declared it had led him to make an investigation.

DIDN'T WRITE LETTER

"I found," he said, "that a letter had been written purporting to have come from the electric commission. In substance it said that the present quarters occupied by the commission is inadequate for their wants. The principal objection is that it is necessary to burn artificial lights all day. Other minor reasons are given. It closed by saying:

"'We would like to have the quarters occupied by the Chamber of Commerce provided that body can be suited with proper quarters.'"

Dr. D'Evelyn declared that he had seen every member of the electricity commission and that with one exception they had denied all knowledge of the letter and stated that it was absolutely unauthorized by the commission. "But this one member," said the doctor, "declared that even the furniture with which the new quarters of the electric light commission are to be furnished had been ordered and would be placed in the city hall next week. The other members of the commission were not aware of this."

BY ONE INDIVIDUAL

"The deed," continued the president, "I believe to be more the result of an inspiration than of concerted action of the commission. I have no comment to make, but I haven't a doubt that the entire matter is the result of the enthusiasm, probably of one individual — certainly not of the commission. There has not been a single act in connection with this appeal for these quarters which has been the result of the action of the committees. There was no meeting of the building committee where the matter of ousting us is alleged to have first found favor and it was railroaded through the Council as a whole.

"To say the least it is one of the most novel proceedings that I have yet become acquainted with in Alameda."

President D'Evelyn referred to the lack of courtesy and the uncivil treatment shown the Chamber of Commerce by the City Council.

"We as an organization are entitled to the ordinary civility which one gentleman extends to another. In this entire matter there has not been the slightest extension of courtesy. The City Council has been weighed and it has been [illegible] and wanting."

'CLUMSY STATESMANSHIP

Then President D'Evelyn referred to the deal as a clumsy piece of statesmanship when Attorney J. L. Geary interrupted to say:

"It's a matter of petty politics and very crude at that. I know where it emanated from. I know who is back of it and I know the purpose of it."

"There is no desire on my part," said D'Evelyn, "to pull the last garment off some venerable virgin and expose a misshapen figure. If I did not think how [illegible] that there are [illegible] honorable course [illegible] do right in [illegible] I'd resign this minute."

Henry Rosenthal [illegible] to do to [illegible] Chamber of Commerce [illegible] quarters. Attorney Geary [illegible] added, referring to [illegible] paigner against the Chamber of Commerce:

DECLARED DAMNABLE

"It's damnable. It's an insult to this body of commercial men. It is the most contemptible business ever called to my attention."

Secretary Ralph Russell [illegible] told the [illegible] that there are in California alone sixteen cities which appropriate money for the support of their respective chambers of commerce, some as much as $100 a month.

This brought fire from Treasurer Putzman. "It makes me want to fight," he said. "Let us get out and turn these quarters over to the city at the earliest possible moment."

Rosenthal said that the whole controversy is the best thing that ever happened for the Chamber of Commerce and said that thanks should be sent to the Council.

"I'd like to ask," said Geary, "how this Chamber of Commerce came to be in the hall?"

"By the grace of God—and the city council," retorted D'Evelyn. Russell then explained how it came about and added that it costs the city about $1.50 a month for its support.

"I for one shall be glad to get out of it," said Rosenthal. The other directors referred to it as a barn and the meeting adjourned to look over the various sites [illegible] committee as possible locations for the new offices.

Winter Dances Will Open at Hillside Clubhouse Tonight

MRS. RAYMOND WILSON, one of the committee of arrangements for the Hillside Clubhouse dances.

BERKELEY, Oct. 29.—One hundred guests have been included in the invitation list for the series of dances which will be given this winter in the Hillside clubhouse.

The personnel includes many of the most prominent people on this side of the bay, and the first dance of the season will be given this evening. The other dates are December 2, January 27 and April 21. The committee on arrangements includes Mrs. Thos. Rickard, Mrs. Earl H. Webb and Mrs. Raymond Wilson.

FRESHIE GLEE IS ON THIS EVENING

First Formal Dance of Season at University Given by 1913 Class

BERKELEY, Oct. 29. — Tonight in Harmon gymnasium the first formal dance of the college year will be held. If the arrangements of the 1913 class and the hard work of the various committees in charge of the affair have counted for anything the Freshie Glee this year will be a dance long to be remembered by those attending as a most enjoyable occasion.

The decoration committee under the direction of its chairman, R. A. Silent, has omitted no detail in the perfection of the decorations for this evening. The whole gymnasium will be decorated exclusively in greens, palms and ferns being extensively used.

The orchestra will be placed on the regular stage and not on an improvised one as has heretofore been customary. This will allow greater floor space for the dancers. The punch will be placed under a bower of palms at the east end of the building. Lamp's complete orchestra will furnish the music.

SCHOOLS WILL BENEFIT IF ANNEXATION CARRIES

FRUITVALE, Oct. 29. — Much enthusiasm is being displayed in the educational circles of Fruitvale regarding the coming annexation election as the future conduct of the three new schools which will be ready for occupancy in January will depend on the decision of the election November 16.

R. V. Campbell, one of the trustees of the Fruitvale grammar school district, said yesterday that the three new schools in the district will not be dedicated until after the election which will decide whether the schools of Fruitvale will come under the regime of the Oakland school department. Campbell is one of the most enthusiastic annexationists in the district and believes that in the event that annexation carries the schools will be vastly benefitted by it. Everything will be at a standstill until then.

TO RENEW FIGHT FOR ANNEXATION

Alameda Wants to Beat Out Oakland in Consolidation Project

ALAMEDA, Oct. 29.—That the Alameda Chamber of Commerce stands ready to renew the campaign for the annexation of that portion of Brooklyn township outside, comprised of Fruitvale and Melrose, providing that the Oakland annexation project fails to carry, was the substance of a report received last night and unanimously adopted by the directors.

Referring to the suspension of the annexation project on the part of Alameda, the report says: "This was much regretted as the Chamber of Commerce was convinced that the said annexation would be a valuable asset for the City of Alameda."

The committee which drew up the report was composed of J. L. Geary, C. C. Adams and G. G. Jamieson. Here is their report in full:

HOLD ELECTION FIRST

To the members of the Chamber of Commerce and other signers of the petition for the annexation of the Fruitvale and Melrose territory:

The subject of the consideration of the annexation of a portion of Brooklyn township outside to the City of Alameda was primarily brought before the Chamber of Commerce by City Attorney Simpson, who advanced the suggestion that such a consideration was entertained by a large portion of the residents of the above territory, and further that he deemed it advisable that immediate action be taken by the Chamber of Commerce favoring the proposition to the end that an election be called by the City Council, to be held prior to the election called by the City of Oakland for the same purpose, to afford the electors of the City of Alameda and the proposed territory to be annexed an opportunity to vote upon the proposition.

That the Chamber of Commerce took the matter under consideration until its next meeting, at which it was unanimously voted to favor the suggestion and proceed at once to secure the necessary signatures to a petition enabling the City Council to take official action thereon. That at a special meeting of the City Council held on the 17th day of September, 1909, the matter was informally presented by a delegation from the outlying territory interested in the annexation, members of the Chamber of Commerce and other prominent citizens and officials. The City Council thereupon by resolution went on record as favoring the proposition and agreed to all an election promptly upon the presentation of a petition asking for the same signed by the requisite number of qualified electors. That on the same evening a Central Annexation Committee was created, composed of seven members each from the City of Alameda and the territory proposed to be annexed, and consisting of the following named gentlemen, to wit:

C. H. S. Pratt, F. H. Marwedel, E. A. Freeman, R. J. Silva, C. A. Leydecker, P. Burns and R. V. Campbell of Fruitvale and Melrose, and J. L. Geary Jr., M. W. Simpson, C. C. Adams, W. H. L. Hynes, C. A. Borle, George F. Plummer and G. G. Jamieson of Alameda.

The chairman elected by the committee was F. W. D'Evelyn, president of the Alameda Chamber of Commerce.

HOLD UP ELECTION

Later under the advice of the City Attorney a petition prepared by him and containing the signatures of more than five per cent of the qualified electors of the City of Alameda was presented to the City Council at its regular adjourned meeting held on the 21st day of September, 1909. The resulting action thereupon being that the entire matter was suspended from further immediate action, said decision being the resultant of the advice of the City Attorney that a possible legal complication might arise in the event the two elections were held and both carried. This decision did not seem sufficiently tangible to prohibit activity on the part of the Chamber of Commerce and the different associations already organized in the territory proposed to be annexed. Later it was ascertained that the instructions of the City Attorney that a petition signed by five per cent of the qualified electors was sufficient for the calling of an election was erroneous, and that the proportion demanded was one-fifth of such electors. Measures were immediately taken to comply with this latter demand.

On the evening of September 29, 1909, his honor Mayor Noy met a delegation of the local campaign committee and stated that while he did not believe in any hasty action he favored the annexation of the territory and believed such annexation a good thing for the City of Alameda. "Be that as it may," said the Mayor, "my position as Mayor is one of neutrality." That on the following day an interview with Mayor Noy appeared in the press of Alameda and Oakland of that day in which his honor stated that he opposed the annexation of the said territory to the City of Alameda. On the evening of October 2, 1909, an informal meeting of the City Council was held and a decision was declared not to hold an election under any conditions prior to that called by the City of Oakland.

CEASE ACTIVITY

As a result of the above demeanor and decision of the Mayor, City Council and City Attorney, all activities on the part of the residents of the territory proposed to be annexed ceased and the Chamber of Commerce was advised by a delegation from said territory that further effort and confidence [illegible] deemed by them futile. And as a further result all action on the annexation project was suspended by the Chamber of Commerce. This was much regretted as the Chamber of Commerce was convinced that the said annexation would be a valuable asset for the City of Alameda.

However, confident of the wisdom of its position in this matter, the Chamber of Commerce stands ready to renew its efforts to secure this territory to the City of Alameda in the event Oakland's election fails to carry and the people of the territory are willing again to consider annexation to the City of Alameda.

The Chamber of Commerce desires to express its appreciation for the assistance given it by the large number of residents of the City of Alameda who had already signed its petition and the many others who were waiting to do so, and to thank all those who actively aided it in furthering this project fraught with so much good for the future of our city.

PEOPLE WIN AND BLASTING TO CEASE

Spring Company Asks Council to Terminate Its Permit

RESTRICTIONS MADE THE QUARRY UNPROFITABLE

Residents in Northeast Berkeley Jubilant Over End of Fight

BERKELEY, Oct. 29.—The long drawn out fight between allied realty interests back of the Spring Construction Company and the residents in the northeastern section of the city over the extension of the blasting permit ended today when the company sent a letter to the council and asked that the permit terminate November 30 and that the lots given the city for park purposes be returned to them. The council agreed and the residents are now rejoicing over the victory.

At first the sudden change of attitude on the part of the company was a riddle to the opponents of the blasting but it soon became known that the real reason lay in the supervision of the commissioner of public works, imposed by the council in the extension recently granted. This prevented the realty men putting only old rock on the streets and it was found too expensive a proposition to continue the quarry when a major portion of the rock was condemned. After adopting a resolution in accordance with the request of the Spring company, the council passed an ordinance prohibiting blasting in the city after November 30. Following is the letter from the Spring company:

LETTER OF COMPANY.

To the Mayor and Council of the city of Berkeley:

Gentlemen: On September 17 we applied for an eight months extension of the blasting permit granted us by the Board of Trustees in September 1907. We showed that the original permit was designed by the Board of Trustees to enable us to complete our contract for macadamizing streets in the North Berkeley territory owned by the Mason-McDuffie Company, that through circumstances beyond the control of ourselves and the Mason-McDuffie Company, the panic of 1907, this work could not be completed with the two years named in the permit and that both ourselves and the Mason-McDuffie Company would suffer heavy financial loss if the original intention of the former board was not carried out.

We therefore urged that we should in equity have an extension of the blasting permit sufficient to complete the original contract and that alone.

We also urged that the quarry, when further excavated, could be converted into a reservoir that would furnish a high press fire system for Berkeley, thus obviating the necessity of the large bond issue formerly contemplated for this purpose.

As we could not offer any guarantee from the Peoples Water Company regarding a reservoir you called upon the board of directors of that corporation for a statement and finally obtained a written agreement that could the permit asked for be granted and the work be done under the direction of the company's engineer it would not only use the quarry for reservoir purposes but would begin the construction of a reservoir therein soon after the permit should expire. We are satisfied that you were able to obtain this agreement from the Peoples Water Company and thus secure to the city of Berkeley a much need high pressure reservoir, only because the necessary deepening of the reservoir site could be made by us in our blasting operations without cost to the water company.

Having obtained a reservoir for the city and recognizing some equity in our contention and after informing us that you would pass an ordinance forbidding blasting after August 1, 1910, you granted us a permit to continue blasting for six working months.

Although the permit was greatly restricted and limited to six instead of eight working months, we accepted it in good faith, as we could not conceive in view of the great benefits to be obtained by Berkeley through a reservoir that further objection would be made.

BLAMES SOME CITIZENS.

It now appears that certain citizens of Berkeley, some of whom are not the real sufferers from the blasting, but men who are not in accord with your policy of obtaining a reservoir for Berkeley, are endeavoring to reopen the question, through an initiative petition, thus if successful, not only depriving the city of its much needed reservoir but in addition, wantonly saddling upon the tax payers the large expense of the special election.

If the signatures to this petition are to be taken as evidence they do not endorse your efforts to provide them with this reservoir. The only reason left for the continuance of the quarry would be our obligation to complete the work for Mason-McDuffie contemplated in our former permit. The Mason-McDuffie Company, however, has this day advised us that it is unwilling to be placed in the position of seeming to force upon the people of Berkeley a large expense of an election only to further what might appear to be its special interests and has, therefore, agreed to release us from our contract for street work after November 30, this additional time being necessary to complete certain macadamizing now partially done.

We therefore, respectfully request your honorable body to terminate our blasting permit at the time above named, provided that we be released from our agreement to convey to the city for park purposes lots 26-31 inclusive and lot 12, block 4, as said lots and block are delineated on the amended map of Hopkins terrace No. 4, as this conveyance was to be an expressed consideration of the full enjoyment of our permit.

We are authorized to say that Mason-McDuffie Company joins in the above request, but agrees that the three parks in Berkeley Heights, offered to the city by them at the time the permit was granted, shall remain the property of the city of Berkeley.

Respectfully submitted,
SPRING CONSTRUCTION CO.
J. H. Spring, President.

Melodrama of 'Hiawatha' to Be Given Before Adelphian Club

ALAMEDA, Oct. 29.—The music section of the Adelphian Club has issued invitations for one of the most notable programs it has ever given. The melodrama of Hiawatha by Saidee Knowland Coe will be presented for the first time on the coast at the Adelphian Clubhouse on Tuesday night, November 2, at 8:30 p. m.

The work is most unique and impressive and is the latest achievement from the pen of Mrs. Coe.

It comprises selections from Longfellow's poems with a setting for the piano. Congressman Knowland will give an outline of the work; Miss Lucy Knowland will be the reader and Miss Elizabeth Westgate will be at the piano.

A group of Zuni Indian songs harmonized by Charles Wakefield Cadman of Pittsburg will be sung by Mrs. A. E. Wash, mezzo soprano, and Stanleigh Ward MacLewee, tenor, before the melodrama.

Genuine Indian melodies have been employed as the themes and the Indian rhythms adhered to, thus maintaining the true aboriginal character.

Those who have been privileged to hear excerpts from the work are most enthusiastic over the interesting themes worked throughout the melodrama.

Berkeley Society

BERKELEY, Oct. 29. — Several hundred guests gathered in St. Mark's Episcopal church Wednesday evening to witness the marriage ceremony which made Miss Agnes May Whiteman the bride of Robert Bowden of San Francisco.

The church was beautifully decorated for the occasion with flowers and greens, and palms and ferns were banked upon the altar.

Miss Whiteman chose blue and white as the color scheme of the entire service, the decorations and gowns of the bridal party carrying out the effective combination. Her bridal robe was an exquisitely hand embroidered gown of pina cloth with which were worn the conventional tulle veil and orange blossoms.

Mrs. A. S. Moody, the bride's sister, who served as matron of honor, wore her own wedding dress of pina cloth elaborated with rare lace. The attending bridesmaids were gowned in blue. They were Miss Louise Howard, Miss Alice Armstrong, Miss Amanda Jacobson and Miss Hazel Nolting, a quartet of the bride's sorority sisters. Matthew Lynch assisted the bridegroom as best man and the ushers were Ralph Peck, Maurice Rhine, Maurice Moody and Will Patterson.

The ceremony at the church was followed by a reception at the Whiteman home on Durant avenue.

After their honeymoon Mr. and Mrs. Bowden will establish their home in San Francisco. The bride is the daughter of Mrs. Blanch Whiteman of Durant avenue. She attended the University of California and is a member of the Chi Omega sorority. Bowden is the Pacific coast manager of an important concern with headquarters in San Francisco.

Miss Martha Chickering was hostess yesterday at a luncheon in honor of Miss Mary Robert Blossom, a bride-elect and Mrs. Grover Young, formerly Katherine Griffith, who is visiting in Berkeley after an absence of more than a year.

The affair was given at the Claremont country club, the dozen guests being members of the Kappa Kappa Gamma.

The wedding of John F. Chase, son of Mr. and Mrs. F. D. Chase, and Miss Mary Birkhofer of Guerneville was solemnized Wednesday night at the home of the groom's parents, 1901 Bonita avenue, the Rev. Mr. Patterson of the North Berkeley Congregational church officiating. The groom was attended by the bride's brother, Charles Birkhofer, and Miss Mary Balz of San Francisco was the bridesmaid.

Alameda Commercial Organization Discusses Financial Status at Meeting

ALAMEDA, Oct. 29.—That many of the members of the Chamber of Commerce are dilatory in the payment of their dues, thus retarding the advance of the commercial organization, was brought out at the regular meeting of the body last night, when ways and means in regard to the financial situation were discussed.

Although the organization is not in a serious condition financially, it still needs funds to carry on its boosting work, and it was suggested last night that the members who owed dues be asked to tender them to Secretary R. A. Russell.

Treasurer E. O. Putzman suggested that when any expense is about to be incurred by the Chamber of Commerce, a limit for the expenditure be named, so that no heavy debts be made.

Chairman Putzman of the committee on the formation of a naval militia here stated that it would be advisable to hire a hall for a public meeting, when the officers of the naval militia in San Francisco could address the public on the question of a naval militia.

Chairman Putzman said that little interest was taken by the yacht clubs in the establishment of a division of the naval militia, because the matter was not clear to them, and they did not understand the requirements.

It was decided to consult with the naval officers in San Francisco and name a date for the meeting in the near future.

REV. HITCHCOCK QUITS PASTORATE

Tenders Resignation Despite Plea' of Congregation--Trustees Accept It

ALAMEDA, Oct. 29.—The resignation of Rev. L. Potter Hitchcock of the First Congregational Church of this city, was accepted by the Board of Trustees at a business meting held Wednesday night a the church. The resignation will take effect on December 31.

The Rev. Hitchcock said today:

"After I tendered my resignation to the church, I found that there was a strong sentiment in favor of my remaining with my people but circumstances over which I have no control necessitated my resignation which I urged should be accepted. I spoke from the pulpit to this effect Sunday morning, and on Wednesday night the matter was acted upon and my resignation accepted."

PASTOR EIGHT YEARS.

The Rev. Hitchcock has been in Alameda as pastor of the First Congregational Church for eight years. He said today that his plans for the future were indefinite. He will in all probability remain with the ministry.

The resignation of the Rev. Hitchcock came as a surprise to the general public. It was tendered two weeks ago, after he and Mrs. Hitchcock had returned from a vacation.

Many changes will be seen in the Alameda ministry in the near future. The Rev. E. R. Dodds of Christ Episcopal Church, the Rev. Clarence Reed of the Unitarian Church, and the Rev. Hitchcock have resigned within the past few months, and their pulpits will be filled by strangers. The Rev. Dr. Cooper of Seattle will succeed the Rev. Dodds. Different pastors and professors are occupying the pulpit of the Unitarian Church each Sunday.

SUCCESSOR UNNAMED.

The successor to the Rev. Hitchcock will probably be named in the near future.

Although the Rev. L. P. Russell of the First Baptist Church tendered his resignation on account of trouble that arose over church questions he was prevailed upon to remain with the church by the congregation, and has withdrawn his resignation.

S.S.S. REMOVES THE CAUSE OF CATARRH

S. S. S. cures Catarrh by removing the cause from the blood. It so thoroughly purifies the circulation that there is nothing left to inflame and irritate the mucous linings of the body, which is the most prominent and dangerous effect of Catarrh. As long as the mucous membranes and tissues are kept in a state of inflammation and irritation by an impure and infected condition of the circulation, Catarrh will remain. Its disagreeable symptoms of ringing noises in the ears, mucous dropping back into the throat, headaches, watery eyes, difficult breathing, and even stomach disorders and weakened health, cannot be permanently relieved until the blood is purified. Local applications alone can have no real curative value, because such treatment does not reach the blood. Sprays, inhalations, lotions, etc., are valuable only for their cleansing and antiseptic effect, but if depended on alone Catarrh sufferers will find a cure impossible. Nothing equals S. S. S. for curing Catarrh. It goes down into the circulation, gets at the root of the trouble, and removes every particle of catarrhal matter from the blood and enriches this vital fluid so that instead of irritating the different mucous portions of the body, it nourishes them with rich health-giving properties. Then the symptoms begin to pass away, and Catarrh is permanently cured. Book on Catarrh and any medical advice free.

CROKER BOBS UP IN HEAT OF FIGHT

Declares, However, That He is Out of Politics for Good

NEW YORK, Oct. 29. — For the first time since his retirement from the Tammany leadership several years ago, Richard Croker is in New York city during the heat of a mayoralty campaign.

Croker is here from Europe, he insists, solely for the purpose of visiting socially with his old friends and spending the winter here.

Free enough of talk on any other topic, he was dumb on the subject of local politics, except to declare with more than his usual emphasis that he was out of that field for all time.

Croker said he was looking forward with pleasure to his coming visit to his place at Palm Beach, Florida, and next week would find him there.

"I am out of politics absolutely," Croker declared. "I know it is no use to expect the press to let up on the question and I must continue to deny any participation in public affairs. If I did not reply they would think I had something on my mind."

BARNET RECOVERS STOLEN HORSES

Returns From Los Angeles Where A. P. Diefenrotter Was Given 10 Years

Sheriff Barnet returned to Oakland this morning from Los Angeles, where he recovered horses valued at $1200, which had been stolen by A. P. Diefenrotter, from people in Alameda County and Stockton. Diefenrotter was sentenced in Los Angeles to ten years in Folsom. He is an ex-convict from Pennsylvania, where he was under a sentence of twenty-two years for assault with a deadly weapon. After he had served 9 years of his sentence he was paroled.

Diefenrotter stole horses from Rose Brothers at San Lorenzo, Tom Eagan, at Livermore, Mrs. Percival, of Stockton, and Jarnaudon of Pleasanton.

Sheriff Barnet was successful in having returned to the respective owners all of the horses stolen. He was well treated by the Los Angeles authorities, who aided him in recovering the stolen stock. Constable Locke of Pleasanton and Deputy Sheriff Bert Brown have discovered in Alameda County a number of horses which Diefenrotter had stolen, and they will be returned to their owners.

DODGES CAR; IS STRUCK BY AUTO

Boy May Be Fatally Injured--Driver of Machine in Police Toils

SAN FRANCISCO, Oct. 29. — Alfred Green, an eight-year-old boy, was seriously and probably fatally injured shortly before 10 o'clock this afternoon by being run down by an automobile at Fifteenth and Mission streets. The lad was crossing the street and in dodging a car ran in front of a machine driven by A. Graves chauffeur for the Pacific Telephone Company.

The wheels of the machine ran over the boy's body and he was picked up and taken to the Mission Emergency hospital. Dr. Tepham found that he had received contusions of the forehead, an abrasion of the right foot and leg, bruises and lacerations of the entire body, a cut on the scalp, concussion of the brain, and a possible fracture of the skull.

The boy lives at 1477 Fifteenth street. Officer Belyea of the Mission station arrested Graves and charged him with battery.

SWEARS HE MADE M'KINLEY ASCENT

Dr. Cook in Missoula Makes Affidavit That He Was on Top of Mountain

MISSOULA, Mont., Oct. 29.—Dr. Frederick A. Cook and his party are on their way from Hamilton, the scene of last night's sensational demonstration, to Missoula in an automobile and are expected to arrive here late today.

The adoption of a resolution declaring the belief of the people of Hamilton and Ravalli County in the veracity of Barrill and Printz and the wordy battle that was waged in the opera house following Dr. Cook's statement regarding the Mount McKinley affair, came as a surprise to Dr. Cook's representatives who are in Missoula.

The affidavit which Dr. Cook made on the platform before the audience last night is as follows:

"I, Dr. Frederick A. Cook of New York, being duly sworn, do depose and swear that on September 16, 1906, I was on top of Mt. McKinley and that on that date I left the records of my climb deposited thereon, and that Edward Barrill was present at that time.

(Signed "F. A. COOK."

GETS DECREE TODAY; WILL REMARRY SUNDAY

Herbert E. Sullivan of Regents Park, Berkeley, secured a final decree of divorce from Ruth Sullivan in Judge Murphy's court today and he apprised Clerk Wuthe of his plans to remarry this coming Sunday. He was a bit particular about the decree as a result.

He was married to Ruth Sullivan at Santa Cruz in August, 1900, and seven years later she deserted him, he complained, saying that she was tired of married life. Sullivan's plans for a resumption of matrimony indicated that he was far from tired.

Fry, of 744 Castro street, to the ground. She was carred to Carns Hotel nearby and treated by a private physician for numerouse briuses of the bady and possible internal injuries.

NICARAGUA MAY BECOME REPUBLIC

Revolutionary Administration Contemplates Change in Government

WASHINGTON, D. C., Oct. 29. — The report that the revolutionary administration under General Estrada contemplates an early proclamation of the independence of the Atlantic coast states of Nicaragua as a republic seems to have basis in fact. At any rate it is believed this proposed step on the part of the Estrada administration is backed by almost unanimous public sentiment in those states.

The state department has received an official dispatch from Nicaragua to that general effect and the officials would not be surprised at the issue of a declaration of independence very soon.

It is well known here among diplomats and others well informed that the state department is in full sympathy with the revolutionary movement and would welcome any change that would result in the retirement of Zelaya.

WIFE WANTS $25 OUT OF EARNINGS OF $32

SAN FRANCISCO, Oct. 29. — He was only a bootblack, and he earned but $8 a week, and yet when his wife sued him for divorce she demanded $25 a month allimony and $100 counsel fees, which were more than he could hope to save, and eat even two meals a day. Accordingly he filed an answer to her decree and begged the court to allow him a few cents for spending money.

The parties to the action are Baptista Gelestrini and Petronella Gelestrini. The wife, through her attorneys, declared that $25 a month was small alimony, but when Petronella's appeal was brought to Judge Graham's attention he taak the matter under advisement, and it is probable he will find a more equal way of splitting the $8.

BROTHER OF BANK ROBBER CHARGED WITH VAGRANCY

SAN JOSE, Oct. 29.—James Nevins, a brother of Leo Nevins, one of the Santa Clara bank robbers, is in the city prison on a charge of vagrancy.

"I came to this city three weeks ago," he said to Judge Dougherty this morning, with $200 to help my brother. I bought the latter a few meals and gambled a little, and now I am broke." He pleaded not guilty and will be tried next Friday.

THE BEAST AND THE JUNGLE

This month a number of competent critics have been asked to read Judge Ben B. Lindsey's autobiography, now running in EVERYBODY'S MAGAZINE, and tell just what they honestly thought of it.

They were asked to do this as a public service, as a possible help to others who might not have seen it, and in that spirit they have responded.

Will you read what they have written?

Governor John Franklin Fort

of New Jersey

"Have just finished reading from the proof sheets Judge Lindsey's article now running in Everybody's on 'The Beast and the Jungle.' I consider it the most terrific arraignment of the 'Systems' and the 'Interests' that has ever come from the pen of any man in America. It can't do otherwise than produce good results. It will enlighten the people as to the evils which endanger our States and the nation. No one not in public life can fully realize the force of Judge Lindsey's facts. The conditions which he portrays in Denver and Colorado exist in many other cities and States in the Union; probably they are not so flagrantly and openly flaunted as he depicts them to be in his city and State; but the beast is everywhere in the civic jungle. His statements cannot do otherwise than result in an awakening of the people of the Republic to the real situation, and, when the awakening comes, no man will have done more for his country, since Wendell Phillips flayed slavery, than he has done in writing this article. Every citizen should read it."

THEODORE A. BINGHAM

Ex-Commissioner N. Y. Police

"Judge Lindsey's story of the Beast and the Jungle is the true history of every city. It is true, and I know it. People don't like to believe it. They know they are responsible for it. Conscience pricks every single man. But stables have got to be cleaned sometime. Right now is the time. Will the country do it right now? Just once in New York kill Tammany!"

Lincoln Steffens

Author of "The Shame of the Cities"

"On my knees, if I could, I would beg the people of this country to read Lindsey's story. It really shows the 'Beast.' A lot of us have tried to do that, but we get in too much of the Jungle. Lindsey himself sees it. And O'Higgins is tracing it out on paper for him and for us. A splendid piece of most difficult writing. A great public service. I am urging all my friends and correspondents to read it, and every cent Everybody's shall spend in advertising it could be charged up, not to business, but to philanthropy."

John Mitchell

Labor Leader

"I have read with great care and profound interest the galley proofs of Judge Lindsey's autobiography. It is, on the whole, the most startling revelation of political treachery and civic treason that it is possible to imagine. If even one-half of Judge Lindsey's story be true, confinement in the penitentiary would prove too good for the officials in the State of Colorado who violated their oaths of office and for the men who betrayed the trust reposed in them and debased and disgraced their citizenship."

Judge Lindsey's article contains an amazing amount of direct, first-hand information. He compels belief. He thrills you with his narrative. In the hands of another man it might be the mere wail of injured dignity. With the help of Harvey J. O'Higgins, Judge Lindsey has made of it a national protest—a second "Uncle Tom's Cabin."

DECLARE WAR ON PUBLIC SCHOOLS

French Episcopals Say Conditions Are Intolerable; Rally Voters

PARIS Oct 29—A new and interesting **situation** has been created by the French **Episcopals** declaration of war against the **public** schools of France and the open **atempt initiated** by Archbishop Germain **of Toulouse** to rally the Catholic voters at **the general** elections of 1910 in support of **candidates** committed to the defense of **church** interests

Archbishop Germain has formed an as**sociation** of Catholic voters the object **of which** is thus described

"**We demand** the re establishment of **religious peace** first by a direct entente **between** the sovereign and the pontiff or **by new** legislation acceptable to the latter, **and** assuring full liberty to the **chuch** and second the re establishment **of complete** liberty of education

DECLARED INTOLERABLE

The Archbishop says the situation of French Catholics is intolerable and that they must adopt the attitude of their Irish brethren in the days of Daniel O Connell and their German brethren as assumed against Bismarck's Kulturkampf

M Doumergue Minister of Education issued today a circular to school teachers instructing them to disregard the demand of the clergy and Catholic parents for the withdrawal of text books placed under the ban by the Episcopate The circular announces further that children who systematically refuse to attend the classes and to use text books regularly approved by the government will be subjected to disciplinary measures

Although the extreme anti clerical radicals of the type of former Premier Combes urge that the time has come for the state to suppress completely the private and religious schools and assume a monopoly of education the general disposition of the Republican groups which accomplished the separation of church and state has been to ignore the Catholic campaign in the belief that the country was in no danger of reversing its adopted policy

Nevertheless the government is preparing a bill for the protection of teachers who are subjected to persecution by Catholic parents and religious committees which are forming throughout the Republic

Premier Briand it is expected will set forth the views of the government in his speech on public education which he is to deliver next Saturday

NERVOUS HEADACHES

Cured by Dr. Williams' Pink Pills Which Enrich the Blood and Send Nourishment to the Starved Nerves.

There is absolutely no way of reaching the nerves with medicine except through the blood The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue

It is, therefore no mystery that Dr Williams' Pink Pills are both a blood-builder and a nerve tonic, nothing unrecognized by science in the power of these pills to cure severe nervous disorders as well as diseases of the blood

Mrs J M Robertson, of R F D, San Gabriel, Cal, who was cured of a nervous disorder by these pills says

"I suffered for nine years with nervous prostration which was brought on by overwork Whenever I lay down there was a sensation or pressure on my chest as though something was choking me My heart fluttered and I couldn't sleep well Every morning I would feel exhausted and as though I had been working very hard For nine weeks I didn t sleep more than twelve hours even with taking morphine I had headaches and dizzy spells a good deal and when I closed my eyes there would be yellow spots dancing before them I had to keep very quiet as any excitement made me much worse I was always imagining all sorts of things Many times during my sickness I became so exhausted that I was confined to bed for days and weeks without being able to raise up My blood was thin and my finger nails were blue

'For about eight years I was almost constantly under the care of doctors They simply couldn't do anything for me Then a friend at Ogden, Utah, which was my home for five years, advised me to try Dr Williams' Pink Pills I did so and felt better right away but I kept on taking the pills until I felt entirely cured My cure has been permanent and I can recommend Dr Williams Pink Pills as the best medicine in the world for the blood and nerves

Dr Williams' Pink Pills are sold by all druggists or sent postpaid, on receipt of price 50 cents per box six boxes for $2 50 by the Dr Williams Medicine Company Schenectady N Y The genuine are sold only in packages bearing the full trade mark 'Dr Williams' Pink Pills for Pale People"

YANKEE ART IS IN ARCHITECTURE

Daughter of William Morris Says it is Only in Rural Variety Too

CHICAGO Oct 29—With her arms resting across the back of a black stained settee such as her father William Morris poet and artist might have designed many years ago Miss May Morris sometimes spoken of as the essence of art herself at Hull House last night said she saw a tiny ray of promise for art in America

Perhaps the only comment that I dare make of art in the States is this she said Your country house architecture is original and promising I had an opportunity to see something of your country houses in Pennsylvania and I was much impressed with them

I regret to say that I am a little pessimistic about art in England Aeroplanes and the motor are weakening the interest in art The English people just now are much excited about aeroplanes and aviation but motoring still draws their fancy and the result is those who are supporting art—its patrons—are not so numerous

FAVORS SUFFRAGE

Miss Morris was asked if she was in favor of votes for women

Oh I knew that was coming she replied Yes I am—just a small bit—but I m not actively engaged in working for it It will win of course and I m glad it will be soon for there are more important things My interest in suffrage is linked with the guild workers in the arts and craft

Miss Morris said she had attended a recent meeting of American suffragettes in Carnegie Hall and was impressed with their enthusiasm

I should say the American women were as enthusiastic as our women in England There seemed as much interest in the contest here as in England

He says that he sent her a considerable sum of money for the expenses of the trip She did not reach home and her letters ceased

Tortured by anxiety Bortse finally came to America and for eighteen months he has gone from city to city in quest of his daughter and Dr Bourne He satisfied himself that the two were in Colorado Springs last June but he missed them His latest information leads him to believe that the girl and her physician are now in Los Angeles

VALLEJO Oct 29—Hopeful and trusting Mrs Arthur Canole made such sacrifices as only a mother knows how to make and traveled all the way from Denver to Vallejo expecting to find her sailor son Virgil Canole a marine at Mare Island

Instead she found her boy a convict at San Quentin serving a sentence of five years for assault committeed on two police officers in Vallejo Canole attacked the officers with a blunt instrument while they were taking three of Canole's drunken companions to jail

The mother back in Denver tried in vain to get her son to write to her The disgrace that had fallen upon him led him to keep the news of it concealed His friends joined in a conspiracy to hold her in ignorance But her mother-love would not take silence for an answer so she came in person

Gently the news was broken to the unsuspecting mother but she was staggered by it just the same She presented a pitiable sight when appealing to the naval officers who had been Canole's commanders She was advised to ask for clemency from Governor Gillett and she started off at once for Sacramento

Stanford Fifteen to Play Olympics Tomorrow

STANFORD UNIVERSITY, Oct 29 — Stanford varsity Rugby fifteen will meet the Olympic team of San Francisco tomorrow instead of the Castaways of Los Angeles The management here tried to fill out the schedule by taking on the University of Nevada, but, failing in this it was arranged that the game be played with the Olympics

The second team may meet the Reliance club of Oakland The first game will be played at 3 30 If the other match can be arranged it will take place an hour earlier.

As a result of the games with the Castaways in Los Angeles, Stanford received $269 50, which is half of the entire gate receipts The expenses of the trip amounted to $673 50 thus leaving a deficit of $404

California Team Meets Vancouver in Final Game

It is feared that the injury to Myron Harris in the practice last Tuesday is more serious than at first supposed and that he will be unable to take part in the California-Stanford game at Palo Alto November 13

Some of the ligaments in Harris' leg have been strained and it is doubtful if he will recover in time His absence from the California line up will be a keen blow as he is one of the best players in the three-quarter back position at either university

The Vancouver aggregation meets the Blue and Gold fifteen tomorrow in the final game on the California field The northerners hope to retrieve the defeat of last Wednesday and will present their strongest line-up

LIGHTWEIGHTS ARE READY FOR A ROUGH, HARD BATTLE

Powell Represents the Mission and Frayne the Down Town Fans---Rivalry Keen Between Factions. Jeffries and Johnson May Meet

By EDDIE SMITH.

WHILE the big fellows of fistiana are "galloyanting" about New York and the wild cat bids for a match that has not yet been made are attracting the attention of some of the boxing fans, San Francisco will be treated to a real scrap tonight between two youngsters whose stay in the game of boxing has not been long enough to dampen the ardor with which each will try for victory regardless of money or conditions. Lew Powell and Johnnie Frayne are the lads to meet and any time that they get started the fur is sure to fly. Frayne and Powell are rivals, bitterest that San Francisco has seen since the days of Jim Jeffries and Tom Sharkey and Eddie Hanlon and Jimmy Britt. The latter never met, although Hanlon certainly tried hard to bring about a meeting. The former met twice, once in San Francisco and once at New York. Frayne will be backed by the downtown fans and Powell will be well looked after by the Mission district. The battle between the two rising young lightweights is very liable to bring out a rooting contest between the factions that will take on the resemblance of a Berkeley-Stanford game.

POWELL IS FAVORITE.

Powell is the favorite in the betting at odds of 10 to 8 but he will not be the favorite with the crowd unless the Mission fans outnumber the down town boys

When it comes to betting on the result of a contest with the gloves the fan very seldom allows his friendship to interfere with his judgment, but no matter what the betting odds may be the rooting is done for the friend and regardless of price every advantage that the man may gain is applauded

Powell is the favorite because he has done such excellent work in the ring of late In the contest with Young Erne of Philadelphia, who was touted as a very clever man, Powell simply smothered him He followed this with a clean cut win by a knockout of Chick Hudson, in five rounds, and a clever win from Kid Harrison with the first solid punch landed during their battle

The fact that Lew has been putting his men away has given the fans the idea that he has at last developed a punch, and there is plenty of reason to believe that he has.

Powell explains his discovery of the punch by saying that he always had the punch but did not have the hands that would stand the delivery of it.

POWELL IN GOOD CONDITION.

Powell has taken up the punching of the heavy bag and has also taken great care of his hands and now feels that he is in a condition that will warrant the letting go of his best wallops any time he has a chance to score the knockout

Frayne is not rated as a hard hitter but he is able to hit hard enough to hold an opponent off and the neatness with which he finished off Young Corbett makes it apparent that he is not to be played with or taken too lightly.

Frayne and Powell should both enter the ring fit for a hard struggle Powell has trained to the hour and unless he has worried unnecessarily he will be ready to fight for his life. Frayne has trained with a determination that could have but one result and that would be to go into the ring in great condition He has suffered just a trifle from rheumatism it having affected his left hip but he has done his road work and gymnasium exercises just the same as always and when the bell rings for the start of the battle he will forget that he ever had such an ailment In the preliminary Frankie Smith will try to wrest the laurels from the head of Tommy McCarthy but the average fan is of the opinion that Frankie is prospecting a bit above his level and that he will suffer defeat at the hands of the red haired Irishman

JEFFRIES-JOHNSON FIGHT.

Jim Jeffries and Jack Johnson have promised to get together today and sign articles for the most important pugilistic event that has ever taken place in the history of the game.

Jeffries has at last consented to meet Johnson and his manager and today should settle once and for all whether or not the big men are to get together. Johnson will do most of the talking for his end of the agreement and Sam Berger will no doubt do the dickering for the Jeffries end

Jeffries and Johnson will perhaps meet face to face when the articles are to be signed and some jockeying may be indulged in as soon as the men come together Jeffries is of the opinion that Johnson is afraid of him and Johnson is just as positive that the white man is the one who will be found to lack the heart.

When the men come together it is just possible that each will try to show the other fellow that he has no fear and what trick may be pulled off no one knows Further comment on the outcome of the meeting is a foolish thing for try as one will there is no chance to get any inside facts and no one can tell what will happen before the big fellows get through jockeying

If they make the match and San Francisco gets it the fans here will be satisfied Los Angeles will be a close runner up in the bidding and no one can tell just how we are going to stand in this regard McCarey is the one dangerous man we have to battle and the fact that Tom would be willing to handle the affair without making a cent makes him exceptionally dangerous.

FIRST CONTEST IN PORTLAND.

The first boxing contest that has been staged in years at Portland was held last night and at the ring side the Rev. A A Morrison sat as a representative of the Municipal League Jack Grant promoted the affair and from the very beginning he was opposed by the purity committee of the so-called Municipal League

Grant used extraordinary good judgment in asking that a representative of the league be sent to the pavilion to watch the bouts and that his judgment was good is best proven through the fact that the reverend gentleman said after the bouts that he saw nothing objectionable in glove contests as they were conducted last night, even though Brooks was knocked down three times and bled during the battle.

That is the right spirit for a minister of the gospel. He went to the show and saw the thing so that he would know what he was talking about and he was fair minded enough to say that what he did see was not brutal or wrong

I wish ye had a few more such fair minded people in this world and a few more promoters like Jack Grant.

In the contests Kid Harrison and Kid Scaler boxed ten fast rounds to what was considered a good draw and Fred Brooks was beaten by Denver Johnnie O'Keefe after ten rounds of fast milling during which Brooks never had a chance.

BURNS ACCEPTS RITCHIE'S DEFI.

Frankie Burns called at this office this morning and announced that he was ready and willing to take up the offer of Willie Ritchie to fight him for a $500 side bet if the latter would make 132 pounds Burns says he has backing for the above amount and that Ritchie must now come forward with his money or acknowledge that he was bluffing.

"We will put our money up in your hands any time that Ritchie sees fit to make the bet," said Frankie "All we want is for him to show the color of his money and we will take him on"

Burns also says that he will meet Percy Cove at 126 pounds for $500 a side if the spider feels that he can beat him.

Packey McFarland to Meet Cyclone Thompson Sunday

CHICAGO, Oct 29 — The battle between Packey McFarland and Cyclone Johnny Thompson now is scheduled for Sunday afternoon at New Orleans Tom Andrews of Milwaukee, matchmaker for the club, has practically clinched the bout, to be staged in place of the Papke-Burke mill, which has fallen through The rival lightweights were eager to get together at Kansas City, but balked at the idea of postponing the battle.

Joe Gans Referee: BALTIMORE, Oct 29.—Harry Stone and Leach Cross, both of New York, boxed 15 extremely gentle rounds last night The referee, Joe Gans, declared it a draw At one time he stopped the bout to warn the men to fight. Cross only did the grandstand ace. His exhibition will add nothing to his reputation, and it is an assured fact that he will have difficulty in getting another match in this city.

Coffey Given Decision: SANTA ROSA, Oct. 29.—Tom Cook and Walter Coffey of this city fought a 20-round contest here Wednesday night Coffey was given the decision as he knocked his opponent to the floor in the last of the nineteenth round and but for the gong would have scored a knockout Gas Gardiner put Kid Kellar out in 30 seconds in a preliminary White of Ukiah, was given the decision over Nortel of Petaluma, in a fast six-round preliminary

Miller, Pirate Infielder, Hero in His Home Town

NEW YORK, Oct 29 — "Dots" Miller, the great second-baseman of the Pittsburg baseball club, who was highly eulogized by the Mayor and Common Council of his home town, Kearney, N. J., has returned to Kearney and has organized a basket ball team with which he hopes to keep in training through the winter His fellow townsmen have planned a reception, a dinner and other honors for Miller.

Scandal at Salt Lake Racing; Meet Ends Today

SALT LAKE, Utah, October 29. — Agreement won the fourth race yesterday afternoon, heading out John Louis in the last stride, but when Singleton came to weigh it was discovered that he was five pounds short of weight. The horse was of course disqualified and the race given to John Louis.

Singleton disclaimed any intention of wrong-doing but the judges suspended him indefinitely The meeting closes today and the scene shifts to Ogden for thirteen days.

TWO FOOTBALL GAMES TOMORROW.

Two football teams will battle tomorrow on the Ocean Shore park grounds for supremacy in the San Francisco subleague championship. Lick and Cogswell will play in the morning at 10 o'clock, and the Wilmerding-Polytechnic game at 2 30 in the afternoon.

Answer to Query—Class AA and class A are higher than class B The Pacific Coast League belongs to class AA. It stands next to the major leagues and has the power of drafting players from the class A and class B leagues. The same classification exists in billiards. Chick Wright belongs to the class A division, while Ernest Lehner is in class B.

WAGOR DEFEATS SNYDER.

Wagor and Snyder put up a nice game of balk line last night at the Oakland billiard parlors. Wagor won, but by a narrow margin. The score was 120 to 112. The winner's average was 1.71 and his high run 9

Snyder, taking the place of Borland, was slightly nervous throughout and could not get in his stride. Wagor is showing more and more confidence and is going to be the man for the winner of the tourney to beat.

Farley and Snyder play tonight.

Alameda and Fremont in Gridiron Battle Tomorrow

Alameda will line up against Fremont tomorrow in what promises to be the best high school football game this year. The game is for the championship of the subleague, but the winner will probably win the state championship. Captain Burns, of Fremont, will be back at his old position at full. This will materially strengthen the team, though "Asbestos" Moore, who took Burns' position while the latter was recovering from his injuries, played a great game.

Fremont will line up in Saturday's game as follows:

J. Buchholz, center; D. Cohen, left guard, "Angel" Moore, left tackle; "Doc" Smith, left end; W. Millholland, right guard, J. Rhoda, right tackle; I. Dow, right end; T. Haskins, quarter back; E. Haskins, left half, F. Buchholz, right half; Captain Burns, full back.

SACRAMENTO, Oct. 29. — "Too much Johnson" was the cry heard all over town last night after the Sacramento-Oakland game. The young southpaw heaved remarkable ball allowing but one hit, that a single by Shinn and in addition helped to secure the winning run for the Athenians. That tally came in the ninth frame. Cutshaw was on the bags and imploring someone and anyone to "hit her a mile."

Jimmy de Whale was on the job for the Senators and was not at all liberal himself in the way of permitting safe hits. He was going great guns when Johnson stepped up to the plate and before Whalen was aware of what was coming the Oakland curvester poked his wagon tongue in the way of a swift shoot and whacked the ball in safe territory. Cutshaw romped home with the only run of the day.

In only one frame was Johnson in danger. That was in the first when Shinn reached third on his hit, a sacrifice and wild pitch. Passes were then issued to Gandil and Zamlock but Johnson caught himself and fanned Myers and Rayemer.

Whalen was in trouble several rounds but staved off defeat through the splendid support of his team mates.

Lehner Is Victor in Billiard Tournament

Ernest Lehner, the crack billiardist of this city, won the class B amateur billiard championship of the coast last night when he defeated Frank Coffin at The Granay in the final game by the score of 200 to 178. The Oaklander was in brilliant form and executed many difficult shots that took his opponent and the spectators off their feet. His victory was a popular one.

Frank Du Bois takes second prize in the tourney, while Coffin wins third money. High run honors go to Dr. O. B. Burns, whose batch of forty-six was best. Last night's score:

WOMAN FREED ON STATE'S REQUEST

Mrs. Wood Will Not Be Kept as Defendant in Fischel Case

BERKELEY, Oct. 29.—Apparently fearing the jury would fail to find a verdict against the deefndants because one of them is a woman, the prosecution in the case of the People against William and Jessie Wood, has requested that the charge against Mrs. Wood be withdrawn. Judge Edgar will accordingly instruct the jury to acquit the woman when the case gets into their hands, and to find a verdict on Woods alone. The trial is in progress this afternoon, and will probably end this evening.

Mr. and Mrs. Woods, together with a man named Cox, were accused of having beaten Charles Fischel into insensibility August 14, and as a result of the alleged beating. Fischel has since been unable to speak, his vocal chord nerves being paralyzed. Cox was tried in Judge Edgar's court some time ago, and held to answer before the superior court in Oakland.

LAND FRAUD TRIAL IS NEAR TO CLOSE

Dwinnell Denies He Took Timber Claims With Criminal Intent

SAN FRANCISCO, Oct. 29.—Argument was begun today in the case of Dr. Dwinnell, Rex Deter and John Gilpin on trial in the U. S. District Court for alleged subornation of perjury in connection with the entry of lands in Northern California.

Dr. Dwinnell was the last witness called by the defense. He entered a general denial of all charges of conspiracy made by the witnesses for the prosecution an dmaintained that in making out the relinquishments to the claims in question he was merely performing a neighborly service, for which he was qualified by reason of his knowledge of the timber lands. Dr. Dwinnell said that none of the land which he was charged with having procured through dummy entries was now in his possession.

The argument for the prosecution was opened by Assistant U. S. District Attorney Black.

Immigrants Hurt When Trains Crash

FORT WAYNE, Ind., Oct. 29.—In a collision between a westbound immigrant train and an eastbound freight train at Tocsin, on the Chicago and Erie railroad today, 35 immigrants, men, women and children, were injured, some of them perhaps fatally. The fireman of the freight locomotive was badly hurt.

The airbrakes of the freight train failed to work.

Shoots, but Not at Mayor Tom Johnson

CLEVELAND, O., Oct. 29.—A rumor that an attempt has been made to assassinate Mayor Tom L. Johnson today created a sensation for a time. The report was based upon the fact that Jos. F. Olanyck, an Austrian, 38 years of age, shot through a window of a cafe from the sidewalk after he had been refused a drink inside. It happened that Mayor Johnson and a companion were entering the cafe at the moment, but the mayor was not in danger Olanyck was arrested.

REFUSES DECREE IN SUIT OF FORSYTHES

After spending months in preparations for the contest and engaging in a bitter fight for ten days Judge Harris ruled today that Elsie and Charles Forsyth of Berkeley had fought a good draw and refused to give either a decree of divorce. Vastly chagrined, the couple heard the news of the indecisive action of the Court, but the breach between them is not healed. They have refused to make up and Judge Harris will later be called upon for a division of their property interests.

STOCKTON RECORDER IS ACQUITTED BY JURY

STOCKTON, Oct. 29.—County Recorder Kohl was acquitted by a jury, after deliberating nearly three hours, one juror holding out until the fourth ballot.

SAN JOSE CENSUS SHOWS POPULATION OF 59.080

Game Tossed in Ninth By Brown's Bad Throw

San Francisco took the game yesterday in the ninth inning when Catcher Brown of the Vernons made an awful peg to second in an effort to intercept Zelder. He heaved the ball twenty feet from the bag and before it could be recovered Zelder had registered, making the score 1 to 3.

It was an uninteresting contest to watch, the weather being cold and the game unfeatured, outside of the pitching of Meikle. The Forest Hill phenom showed the Villagers up and had he been accorded the right kind of support would have won easily. He only permitted six hits and of these Stovall was the ringmaster, annexing three.

It was his two bagger that brought in Vernon's first two runs. Vance did the flinging for the Hooligans. While he showed class in spots at other times he showed nothing. Eleven bingles of all varieties and shades is a pretty good picture of his twirling.

Miller brought in the first tally with a homer oved the right field fence. A walk, attempted sacrifice, single and fielder's choice figured in San Francisco's second tally. In the fifth matters were evened when Eagan walked; Devereaux singled and Stovall doubled bringing the score 2 to 2.

In their half of the same frame San Francisco forged ahead, Davis doing the trick on a single, fielder's choice and Miller's drive through McCay. The Villagers deadlocked the affair in the seventh when Devereaux tallied on overthrow to first by McArdle and Mundorff. Zelder broke up the game after two outs in the ninth when he singled stole second and completed the circuit on Brown's bad peg.

Pallbearers Will Organize Union to Stop Wage-Cutting

DENVER, Colo., Oct. 29.—Alarmed at the dastardly action of the "amature" in cutting the regulation fee to 25 cents, their habitual funeral expression deepened by the attack on their pockets, the professional pallbearers of Denver, who hang around the undertakers' establishments and the coroner's office to aid in the last rites to the friendless dead, are about to join the ranks of organized labor.

The regulation price for assisting the unclaimed to the grave has been 50 cents, but a few days ago newcomers in the profession cut the rate to 25 cents. The first funeral conducted under the new rate was interrupted by muttered cries of "scab" from the professional pallbearers and was followed by energetic personal encounters.

Stopped by the police from active measures against the amateurs, the professionals have decided that a union offers the only adequate protection to their profession.

WIFE DESERTER GETS TWO YEARS

"Sentence Too Light," Declares Judge in Scathing Arraignment

LOS ANGELES, Oct. 29.—"The maximum penalty for this offense is too light for you in this case."

With these words Judge Willis today sentenced Neil B. Derry to two years in Folsom for wife desertion, the first sentence to be imposed in this county under the new law making that offense punishable by a term in the penitentiary. It was shown that Derry not only deserted his destitute young wife, but ran away with another woman.

Derry's atorney asked for probation for his client. The court replied that he would not grant such a petition if it was signed by all the people in the city. The attorney then asked for a county jail sentence; instead of the term in the state penitentiary, on the ground that the prisoner might be contaminated in the latter institution by older criminals.

"I think the confinement would be to the detriment of the other prisoners and not this defendant," replied the judge.

Town Clock at Redding Stopped

REDDING, Cal., Oct. 29.—Reports received today regarding the earthquake felt last night show that it was severe throughout Shasta county and northward through the Siskiyou mountain region, but only trivial property damages resulted.

The miners in the Bully Hill mine at Delamar were so badly frightened by the rumblings and shaking of the earth that they started to come to the surface. In Redding several persons occupying rooms on the upper floors of brick buildings rushed into the streets.

The clock in the dome of the courthouse stopped at 10.45 p. m. Reports generally agree that the duration of the quake was thirty seconds. There were three sharp shocks, but the vibrations were continuous.

Accused of Attack With Deadly Weapon

HAYWARD, Oct. 29.—Alfred Horn was arrested by Marshal Charles Schilling last night on a charge of assault with a deadly weapon, and this morning released on $2000 bail. He will appear in court tomorrow.

Horn, it is alleged, attempted to assault A. Hooper, manager of the Pacific Pickle and Vinegar factory, with a coupling pin following an argument in the factory the previous afternoon.

"BEFORE-FIRE" CHECK CAUSE OF BANK'S SUIT

SAN FRANCISCO, Oct. 29.—The Central Trust Company, in a suit filed this morning accuses the Metropolitan Trust and Savings Bank of holding back $1500 which rightfully belongs to them, and which has been in the hands of the latter institution since the earthquake. According to the complaint C. S. Scott obtained a cashier's check from the Central Trust Company for $1500 just before the fire.

Later the Metropolitan Trust & Savings Bank informed the Central Trust Company, according to their claim, that they had received an assignation of the check but that it had been destroyed in the fire. Accordingly the Central people paid over the money, and now they claim that the check was never out of the hands of Scott and that he is now holding it, and as far as they know may at any time again collect the money.

Los Angeles 7 Portland 6

LOS ANGELES, Oct. 29.—After pitching marvelously for five innings, Seaton blew up in the sixth and the Angels tied the score by making five runs. Carson was hurried to the hilltop but in the seventh two more tallies were secured by the southerners. Beall featured the day with a homer. The score:

Batteries — Koestner and Orendorff; Seaton, Carson and Fisher.

SAYS PEDDLER TOOK MISSING GOLD PIECE

SAN FRANCISCO, Oct. 29. — A Chinese vegetable peddler is claimed to be responsible for the theft of $5 reported by Mrs. C Burke, of 3009 Van Ness avenue. She informed the police that while she was emptying a basket in the kitchen, and had left her purse on the table she discovered that it was missing some time after the Chinese had left the premises

FAKE TELEGRAM KEPT WIFE AWAY

Mrs. Bright Will Attempt to Break Will--Intimates Prejudicing

Mrs. Josephine Bright of Philadelphia, widow of the late Dr. Henri Bright, filed a petition for the guardianship of their son, Voltaire, through Attorney Mervyn Samuels today. She alleged that an interview with her son had shown her that he had been badly prejudiced against her evidently by his father and supposedly by Mrs. Mae Hildebrandt, a nurse who was a beneficiary in the Bright will to the extent of one-third of his real and personal property.

The residue went to the boy with the provision that Mrs. Hildebrandt should be executor of the will and guardian of young Bright.

Mrs. Bright informed Samuels that she had received a telegram, bearing the signature of Voltaire Bright, telling her that her husband was recovering when he was all but dead. Voltaire denied sending such a dispatch, she said, and she and Samuels now hold the opinion that some person was anxious to keep her in the east. Dr. Bright, she said, deserted her several years ago.

Mrs. Bright has announced her intention of filing a contest to the will on the ground that the estate was community property and that her husband had no right to dispose of it all.

Michael W. Coffey Released on Bail

SAN FRANCISCO, Oct. 29.—After endeavoring for nearly a month, following permission secured from the District Court to obtain his release on bail, Michael W. Coffey, one of the boodle supervisors, was released from the county jail this morning.

Coffey, who it will be remembered, was tried after he had failed to testify to suit Special Prosecutor Francis J. Heney, is a very sick man, and his case, which is now on appeal, it is firmly believed, will be reversed.

He has been for some time in the county jail, but the condition of his health at this time demands careful treatment, and accordingly, after he had obtained bail, and had it accepted by Judge Cabaniss today, he was released.

Paint Room Many Colors; Arrested

Louis Piche and Charles Bowden, two young boys attending the Prescott school, are under arrest on a charge of malicious mischief, their offense being the painting of a room in variegated colors in the home of Dr. Jane Orr, at the corner of Henry and Eighth streets.

The bedsteads were painted black, the windows green and the other portion of the room in the colors that suited the fancy of the two boys.

According to the police the two boys are incurably bad, having been in trouble on several occasions before. The principal of the Prescott school declares both are incorrigible and that he can do nothing with them.

ROUND-ABOUT TRIP PROVEN CHEAPER

Detroit-Los Angeles, via Tehauntepec, Tariff Lower Than Direct Route

LOS ANGELES, Oct. 29.—Special Examiner Lyon, of the Interstate Commerce Commission, in the hearing today of the petition of the Los Angeles Jobbers' Association for Terminal Railroad freight rates for San Pedro, expressed surprise that eastern and middle western sections were able to ship goods to New York and south by water, via the Isthmus of Tehauntepec, to the Pacific Coast cheaper than the same material could be handled directly by rail to the coast.

One witness testified that Detroit made such shipments. Another said that shipments came by the round-about water course to the Pacific Coast from as far west as Cedar Rapids, Iowa.

"Do you mean to say," asked Examiner Lyon, "that traffic starts at Detroit and is hauled by rail to New York, 600 miles, then to the Tehauntepec to water and across the Tehauntepec by rail, nearly 200 miles, is handled at each end of the Tehauntepec railroad and is brought to San Diego, where it is again unloaded and loaded onto cars and then brought by rail to Los Angeles, 126 miles further—do you mean to say the steamship lines does all this for a less rate than the railroads can haul that business across the country?"

"They did it to San Francisco," said the witness, "and they have the same rate in effect to Los Angeles, although I do not personally know of shipments originating at Detroit which have come to Los Angeles."

"That is a rail haul of nearly 1000 miles," said the examiner. "In addition to the steamship service and the transshipments at three places. What is the distance from Detroit to Los Angeles?"

"About 2500 miles," said Mr. Jones.

The hearing was concluded today and the decision will be rendered later.

FREMONT HIGH SCHOOL GROUNDS TO BE IMPROVED

MELROSE, Oct. 29.—At the regular meeting Wednesday evening of the board of trustees of the John C. Fremont Union High School, No. 4, a contract was let to A. C. Parrott of Oakland for an iron fence, which will extend from one end of the building to the other and will be four feet, six inches in height with horizontal bars 5-8 of an inch thick and five inches apart, and an iron fence four and one-half inches in diameter with a concrete base under the fence. Work on the new fence will commence as soon as the material arrives.

The well, 97 feet in depth and 85 feet of water, which was completed several weeks ago, will be tested in the near future as to its capacity. Arrangements will be made by the trustees to put in a first-class pumping plant, which will serve for fire protection in the school.

For the past year work on the grounds of the High School has been in progress. Cement sidewalks around the building, terrace lawns and a retaining wall in the rear and side of the institution will beautify the premises.

The Alerts are confident of winning Sunday's game. All the players are in good form.

DOCTOR ATTACHES HOUSE TO GET PAY

Debtor Refuses to Settle Because He Hired Rig to Get Physician

HAYWARD, Oct. 29.—As a means for recovering a bill for professional services rendered, Dr. J. J. Medros, a prominent physician of this place, yesterday attached the building of Antono Izedorio, a wealthy resident, to secure the full amount of the indebtedness of $211.45.

The building, which was in transit, is one of the old landmarks of Hayward, and was occupied by an old Spanish family. The two story house was recently purchased by Izedorio from A. L. Graham, for the sum of $350, and was being moved to Izedorio's grounds on the Anspacher tract.

For three years the case has been pending in the justice court, but the suit has never came to trial. During that time Izedorio filed a counter claim against Dr. Medros, in which he stated that he wished to recover $180. That represents the sum Izedorio declares was expended on horse and buggy hire for Dr. Medros, who, Izedorio alleges, had to be called for in a rig in order to see him.

Upon these grounds Izedorio refused to pay the bill. The attachment was issued two days ago by Judge Prowse and levied by Constable J. W. Ramage.

SALES OF STOCK IN WALL STREET

NEW YORK, Oct. 29.—The stock market opened active and higher today with running sales of 6000 shares of United States Steel and 8700 shares Amalgamated Copper as the features. The former stock sold at 90 to 90¼, compared with 84⅝ yesterday, and the latter at 84⅞ to 85, compared with 84¼ yesterday. Reading rose 2, Consolidated Gas 1½, American Locomotive 1¼, Northern Pacific, American Car, Anaconda and American Hide and Leather and Union Pacific, Southern Pacific, Southern Railway, Wabash preferred, American Smelting and a number of others large fractions.

Prices made further advances, but the demand slackened as the rise proceeded. The Hill stocks, Northwestern, Cleveland, C. C. and St. Louis, American Car, American Locomotive and Western Union gained 1⅜@2, Amalgamated Copper 1⅝ and Union Pacific, Atchison and others 1½. United States Steel touched 91.

Higher prices were made all around. Earlier leaders, such as Union Pacific, Northern Pacific and Amalgamated Copper continued to be bought heavily at further advance in prices. The metal group was more active and stronger than for a long time past. Brooklyn Rapid Transit ran off 2. Atlantic Coast Line gained 2¾, United States Rubber and American Steel Foundries 2 and New York Central and Louisville and Nashville 1½.

The market closed irregular. Prices rose further uninterrupted by profit-taking, which caused a reaction of a fraction. Amalgamated Copper and North American got up 3 and Union Pacific 2½.

Bonds were firm.

CHICAGO, Oct. 29.—Commission houses and shorts were active bidders for wheat at the opening today, which resulted in initial advances of ⅛c to ⅜@½c. The early demand was based chiefly on an advance of ⅜@1⅛d in Liverpool. There was talk of a material falling off in Russian shipments. December opened at $1.05⅝@1.06 and ranged within these limits early in the day.

The market was inclined to be somewhat heavy during the remainder of the session owing to realizing sales. A firmer tone developed late in the day, due to covering by shorts. December advanced from $1.05½@1.05⅝ to $1.06⅛@1.00¼. The close was firm, with December up ⅛@⅜c at $1.05⅝.

Corn was firm with wheat and on reports of lighter offerings in the country. December opened ⅛@¼c higher at 59⅜@59½c and advanced to 59⅝c.

The close was steady, with December ¼c higher at 59½c.

Oats were firm with other grains. December opened ⅛c higher at 40c and sold at 39⅞@40c.

Provisions were again active and strong. The buying was prompted by the receipts of live hogs at all western packing centers. Prices at the opening were 2½c lower to 37½c higher.

The closing quotations were as follows:

Wheat—December, $1.05⅝; May, $1.05⅝.

Corn—December, 59½c; May, 61½c; July, 61½c.

LIVERPOOL, Oct. 29.—Firmness characterized the early dealings in wheat, at which time offerings were extremely light and shorts nervous, which resulted in a sharp advance, values showing an upward movement of ⅝@1d, with the principal strength in December. There was a sharp advance in Manitoba offerings which were lighter and the colder weather in the United Kingdom, together with the advance in spot, stimulated good support. Following the opening there was a further advance of ½@⅝d in the near months, due to light stocks and predictions that the world's shipments, other than American, will be much lighter this week and predictions that heavy Russian shipments are about over. Just before midday there was some reaction from the high point but still the market was strong and ⅛@1d higher than yesterday.

Corn was firm with the start and ⅛d higher and further gained ⅛d during the early morning, due to light shipments from Argentine. Later there was some reaction attributed to dullness.—Broomhall.

LIVERPOOL, Oct. 29.—Wheat—December, 7s 11⅛d; March, 7s 9⅜d; May, 7s 8⅝d. Weather showery.

SANTA CRUZ REAL ESTATE.

FOR SALE.

Beautiful mansion, together with stables and outhouses, belonging to the estate of Margaret McLaughlin, deceased, who was the wife of the late Major Frank McLaughlin, the show place of Santa Cruz, situated on the embankment overlooking the Pacific ocean, as well as the valley and mountains. This beautiful property is surrounded by beautiful grass plots, studded with flowers, rare shrubbery and shade trees and must be seen in order to appreciate its grandeur and loveliness. This property cost McLaughlin $83,000 and is modern in every appointment, spacious and elegant. It is most luxuriously furnished, containing many objects of art and rare treasures.

This property was sold under execution issued on a judgment of foreclosure brought by the Santa Cruz Bank of Savings and Loan. By reason of indifference and meager advertisement of the sale of this very valuable property the bank was able to buy the same at their own price and without opposition, paying therefor $17,500, which is not even one-quarter the value of the property, irrespective of its furnishings.

Any person desiring this property for a home or club will do well to investigate the same and as it is subject to redemption by those interested in the estate and being a creditor to the extent of about $2000, I hereby notify any bona fide purchaser, who will pay a reasonable advance over the sum above mentioned, to make an offer of not less than 10 per cent over and above the amount hereinabove specified and direct all communications regarding the purchase of the place to my attorney, A. A. Sanderson, Russ building, San Francisco, who will give the parties inquiring fullest information regarding said property.

The personal property and furnishings contained in this dwelling, together with carriages, harness, furs, etc., will also be offered for sale.

An order of court will obtain for any person desiring to visit and inspect the premises.

This offer is a bargain of a lifetime as property in Santa Cruz is enhancing in value daily. Respectfully,

HENRY I. KOWALSKY, Creditor.

ASK APPROPRIATION FOR POSTOFFICE

Congressmen Will Present Urgent Need of Additional Facilities in Department

An appropriation for the enlargement and improvement of the local postoffice building will be urged by the representatives of this state at the next meeting of Congress at Washington. Petitions of the various civic and representative bodies, asking for the aid of the Federal authorities, will be presented

Since the opening of the local postoffice six years ago the office and operating force has been increased to three times its original number. Individual postoffices have been taken in and made substations and seven carrier stations, together with twenty-seven sub-stations, are now under the control of the main office

The appropriation asked for calls for added construction which will make the present building twice its size and provide two times its present capacity

"We have a frontage of 180 feet on Broadway with a depth of 160 feet," said Postmaster Paul Schaffer today. "We have asked that the building be extended to Franklin street giving it three frontages, 180 feet each on Broadway and Franklin and 300 feet on Seventeenth street. A building of this size would meet the needs of the city for fifty or more years to come.

"As the structure is at present our registered mail department has to be removed to the basement during the winter months in order that the men may properly handle the holiday business. Every department in the building has insufficient room and accommodations. Through lack of space we are compelled to conduct our money-order department on the second floor. This department is one of the most patronized in the department and should be in a better location

"For two years or more we have been handling the business of the office under difficulties. The Government does not recognize city lines and our carriers are compelled to deliver mail in Piedmont, Melrose and other outside districts."

SUBTRACTED 'ROLL'; WAITRESS IN CELL

Left Stolen Money With Male Friend Who Returns it to Police

Charged with the robbery of Charles Busch of 1286 Webster street, Alameda, Audry Walker, a waitress of Santa Rosa, occupies a cell in the city prison, booked on a charge of petty larceny and Lucinda Hardin, aged but 15 years but six feet in height is being held until her parents arrive to take her back to Petaluma, whence she ran away some weeks ago

According to the story told Captain Bock by Busch he and a companion met the girls in an Oakland cafe last night and after supper started on a moonlight stroll along San Pablo avenue. Near the corner of Seventeenth street Busch says the Walker girl picked his pocket for $28. He caught her in the act and the girl pretended to drop the coin

On the pretense of getting a lamp with which to look for the money she entered a house at 512 Seventeenth street, left the money there and rejoined her companions who were still searching for the coin

A quarrel followed and the party was taken to the police station by two policemen where Busch filed his charge. Shortly afterward one Frank Flynn visited Captain Bock and gave up the stolen coin, stating that he did not know it had been stolen

FIRST CHAUFFEUR TO BE CONVICTED

Sacramento Jury Finds Reckless Driver Guilty of Manslaughter

SACRAMENTO, Oct. 29.—For the first time in the history of California a chauffeur has been convicted of manslaughter for running down and killing a person. A jury returned a verdict of guilty against Claude Wood, driver of an automobile belonging to E. W. Hale, the dry goods man

On August 9th last Wood was entertaining some friends on a "joy ride" along Riverside road when he killed James F. Smith who was standing with his wife waiting for a car. The accident made five little children fatherless. One of the joy riders finally confessed the identity of the automobile, which had escaped in the dark

Wood was indicted by the grand jury last August and in submitting the case to the jury his attorneys were so confident of his acquittal that they made no argument. The jury was out for five hours waiting for one juror to swing to the side of conviction. Wood will be sentenced Monday. Ten years is the maximum penalty

Remembers Hero Who Saved His Life With Bequest of $200,000

DENVER, Colo., Oct. 29.—It has just become known that Charles W. Bennett, a wealthy man of Binghamton, N. Y., who died recently, willed $200,000 to J. W. Casey of this city as a reward for saving his life thirty years ago.

Casey is the proprietor of a prosperous laundry here and is himself comfortably well off.

Casey and Bennett were school chums in Binghamton and the incident which caused Bennett to remember Casey so handsomely occurred when the latter, who was an expert swimmer, rescued Bennett from drowning in the Susquehanna River. Bennett then told his companion that he would ever remember his heroic act.

MARTINEZ ADDS NEW TERRITORY

Election for Waterfront Is Carried by a Heavy Majority

MARTINEZ, Oct. 29.—By a large majority the people of Martinez and outlying districts on Monday voted to annex 110 acres of valuable water front land, including the townsite of Fairview, the Bull's Head Oil Works and the plant of the Mountain Copper Company. Of the 233 votes cast in the three precincts concerned, thirteen only were registered against the annexation of the property

The property annexed through the election is valuable and has caused the town of Martinez much trouble for the past several years. The acquisition has long been looked forward to by the Board of Trustees. The annexed territory will bring the town treasury a sum in excess of $3,000 as annual taxes. The town's resources will be increased, and, with the shipping facilities added, numerous manufacturing firms can be induced to purchase sites here

The water front property annexed last Monday was deeded to the town of Martinez by the State of California in 1853. The trustees, however, failed to surround the property with the proper safeguards, with the result that a brother of J. F. Houghton, who was at that time surveyor-general, secured a patent from the state to a number of acres of the same land. Houghton, with others, took possession of the property and at times sold various parcels of the land, with the result that there are now a number of claimants to water front land. Proceedings were recently instituted to quiet the title to the land annexed.

NEW MUSEUM ALMOST READY FOR OCCUPANCY

Modified plans for the necessary additions to the Josiah Stanford house, on Oak street, which is to be used as a city museum have been completed by Architect Soderberg, and bids will be called for immediately. It is hoped to have the building ready for occupancy by the first of the year.

The older portions of the house will be ready before that time, as they only need kalsomining and painting. The cases for the different collections have already been constructed, and can be easily put in place

C. P. Wilcomb, the curator of the museum, is expected shortly from the East where he has been securing material for a children's department and additions to the already extensive colonial exhibit. He has also made arrangements to exchange with a number of the big Eastern museums by offering to add to their Indian collections.
